

Cumulative Index of Biographies of Entomologists in Canadian Publications

Index cumulatif des biographies des entomologistes dans les publications canadiennes

Until publication of the 'Index' (Eidt et al. 2003) and the three Addenda that have followed it (Gillott and Bourassa 2006; Gillott et al. 2012, 2016), unearthing biographic information on entomologists in Canada had been a challenge. Eidt et al. (2003) cite a few sources that contain biographic material though their focus was largely on Canada's entomological institutions and their work, not the individuals therein.

The original Index, which covered the period from 1869 to the end of 2000, was many years in the making. It included biographical material from a wide range of sources, including peer-reviewed journals, newsletters of regional and national entomological societies, and in-house government publications, almost all of which were available only in print form. Production of the three addenda, each covering a 5-year period, was a much simpler task. Publication of the government documents that provided much information for the Index had ceased, leaving only regional and national society publications to provide biographic material. Equally significantly, most of these publications were now on-line, making a search of them so much easier. This list of biographical citations is a compilation of the original 'Index' and the three Addenda that have followed it. It is intended that this compilation will be updated at suitable intervals.

Avant la publication de "l'Index" (Eidt et al. 2003) et les trois addendas qui ont l'ont suivi (Gillott et Bourassa 2006; Gillott et al. 2012, 2016), dénicher des informations biographiques sur les entomologistes au Canada constituait un défi. Eidt et al. (2003) citent quelques sources qui contiennent du matériel biographique mais ils se concentrent principalement sur les institutions entomologiques du Canada et leur travail, pas sur les individus.

L'Index original, qui couvrait une période de 1869 à la fin de 2000, s'est fait sur plusieurs années. Il incluait du matériel biographique d'une grande variété de sources, incluant des revues à évaluation par les pairs, des bulletins de sociétés entomologiques régionales et nationale, et de publications maison du gouvernement, presque toutes n'étant disponibles qu'en format papier. La production des trois addendas, couvrant chacun une période de 5 ans, a été une tâche beaucoup plus simple. La publication des documents du gouvernement qui fournissaient beaucoup d'informations pour l'Index a cessé, ne laissant que les publications des sociétés régionales et nationale fournissant du matériel biographique. Aspect très important, la plupart de ces publications sont maintenant en ligne, facilitant leur recherche.

Cette liste de citations biographiques est une compilation de « l'Index » original et des trois addendas qui ont suivi. Cette compilation sera mise à jour à intervalles convenables.

Quaestiones Entomologicae, Memoirs of the Entomological Society of Canada and *Mémoires de la Société d'entomologie du Québec* contain no biographical references. *Tableau* (a Research Branch, Agriculture Canada, newsletter, 1970-1987) is indexed separately from the above entomological journals and newsletters because it was concerned with all agricultural disciplines

within the Research Branch. Outsiders were mentioned (and indexed) as visiting scientists, participants in courses, and other Branch activities.

Quaestiones Entomologicae, Memoirs of the Entomological Society of Canada et Mémoires de la Société d'entomologie du Québec ne contiennent aucune référence biographique. *Tableau* (section de la recherche, Agriculture Canada, Bulletin, 1970-1987) est répertorié séparément des journaux et bulletins ci-dessus mentionnés parce qu'il concerne seulement les disciplines agronomiques de la section de la recherche. Les gens venant de l'extérieur sont mentionnés et répertoriés comme étant des scientifiques invités, des participants à des cours, et activités d'autres sections.

INDEX TO BIOGRAPHY / INDEX DES BIOGRAPHIES

Included are full biographies such as retirements, photos, and awards, obituaries, and also brief notices of honours, appointments, promotions, etc. and deaths and retirements where full accounts were not found, but not travel, papers given, etc. unless these have some special significance. While every attempt has been made to ensure that this list is accurate and as complete as possible, it is accepted that there may be errors and omissions.

Should an individual's name not be found below, it is recommended that the following publications also be searched: [Entomologists of British Columbia](#), [Entomologists of Alberta](#), [Entomologists of Saskatchewan](#), and [Entomologists of Manitoba](#).

Cette section inclut les biographies complètes telles les retraites, photos, récompenses, les notices nécrologiques, et aussi de brèves mentions honorifiques, nominations, promotions, etc., mais les voyages, présentations orales, etc., ne sont pas inclus, sauf s'il s'agit d'un événement marquant. Bien que tout ait été fait afin de s'assurer que cette liste soit exacte et aussi complète que possible, il est accepté qu'il puisse y avoir des erreurs et des omissions.

Si le nom d'un individu n'est pas trouvé ci-dessous, il est recommandé de chercher dans les publications suivantes : [Entomologists of British Columbia](#), [Entomologists of Alberta](#), [Entomologists of Saskatchewan](#), et [Entomologists of Manitoba](#).

In this index "fr" means frontispiece / dans cet index, "fr" réfère à frontispice.
