• power beyond the

● Session Index

● Author Index

NETWORK COMPONENTS

Cable Design

- Economical 36 kV cable system for the Belgian network
Système de câble 36 kV économique pour le réseau Belge
F Musique, ELECTRABEL
J Becker, NEXANS BENELUX SA
- Evolution of the French MV cable system (includes summary in French)
F Bouanat, Draka Paricable
F Charles, Sagem
J H Fondeur, Pirelli Câbles et Systèmes SA
E Siméon, Nexans
C Boisseau, J M David, EDF
- The Gotland HVDC light project - experiences from trial and commercial operation
U Axelsson, A Holm, Vattenfall
C Liljegren, GEAB
M Åberg, K Eriksson, ABB Power Systems
O Tollerz, ABB High Voltage Cables

● Session Index

● Author Index

- Standardisation, prequalification, diagnostics, as part of cable system management (includes summary in French)

N van Schaik, E F Steennis, KEMA
J van Eerde, Pirelli Cables and Systems
B J Grotenhuis, REMU
A Kerstens, TKF Cables
M J van Riet, NUON
C J Verhoeven, Essent

Equipment Design

- Neutral grounding reactor for medium voltage networks

Impedance de compensation pour mise a la terre du neutre des reseaux moyenne tension

P Folliot, J M Boyer, S Bollé, ALSTOM

- Fast transients and their effect on transformer insulation: simulation and measurements

H De Herdt, J Declercq, Pauwels Trafo Belgium NV
T Sels, T Van Craenenbroeck, D Van Dommelen, Katholieke Universiteit Leuven

- Upgrading of compact load break switches to a circuit breaker function

A R A Pikkert, G C Schoonenberg, P R Voulon, Holec Medium Voltage

- A family of vacuum circuit-breakers with worldwide applications using common components (includes summary in French)

E Dullni, H Fink, M Heimbach, C Reuber, ABB Calor Emag Mittelspannung GmbH

- Innovative life-cycle concepts for medium-voltage switchgear on brown coal surface mining devices

S Ruhland, U Riedl, ALSTOM Sachsenwerk GmbH

● Session Index

● Author Index

- Costsaving and reliability improvement by using innovative technique for refurbishment of a substation
R Svensson, ABB Switchgear
W Lord, SwedPower
M Jarl, Vattenfall
- Advances in MV/LV substations
Evolution des postes de transformation MT/BT
T Grima, J F Faltermeier, Groupe Cahors
- Design of distribution cabins to withstand internal arcing (includes summary in French)
A Even, LABORELEC
Y Tits, D Goossenaerts, D Tenret, ELECTRABEL
J Vansantvoort, Inter-Regies
G Pietsch, C Humpert, RWTH Aachen
- Evolution of MV/LV substations - compact substations
J M Solans, C Prevé, R Farrán, R Muñoz, Schneider Electric
- Instruction panels for operating MV switchgear installed under cover in distribution networks
Panneaux didactiques pour manoeuvre de l'appareillage de coupure MT sous enveloppe installe sur les reseaux de distribution
A François, D Tenret, Y Tits, E Engel, G Weyckmans, D Vangulick, ELECTRABEL

Overhead Line Design

- Uprating using high-temperature electrical conductors
I Zamora, A J Mazón, University of the Basque Country
R Criado, C Alonso, Iberdrola SA
J R Saenz, University of the Basque Country

● Session Index

● Author Index

- An investigation on composite insulators; development and testing (includes summary in French)
M J Geramian, F Estifa, A Tajian, B Elmdoust, Niroo Research Institute (NRI)
- An assessment on brittle fracture of composite insulators' rods and factors improving their properties
M J Geramian, Z Hamnabard, M Mohseni, S Dolatshahi, Niroo Research Institute (NRI)
- Low cost secondary surface network - LCSSN
F C Melo, J A Ragone Filho, M J Ferreira, Companhia Energética de Minas Gerais - CEMIG
- 20 kV overhead lines with covered conductors
Lignes de 20kV avec câbles sous gaine plastique
W Panosch, EVN AG
K Schöngrundner, Mosdorfer GmbH
K Kominek, Schwechater Kabelwerke GmbH

Electrotechnical Materials

- Specialized polymer concrete composite material for in-situ cleansing/improvement of transformer oil
M Gunasekaran, Sekar Enterprises
- Thermal endurance of high temperature fiber reinforced cellulose insulation
S J Ferrito, R L Stegehuis, Cooper Power Systems

Maintenance of the Network and Substation Equipment

- A novel concept for substation maintenance management
R Nordin, Vattenfall Utveckling AB, Power Technology R&D
L-G Nielsen, Vattenfall Normät AB
A Vikman, Vattenfall Östnät AB

● Session Index

● Author Index

- Optimisation of overhead medium voltage line expert evaluation
Optimisation de l'expertise de lignes aeriennes moyenne tension
D Mondiere, O Vanackere, EDF R&D
- Application of a diagnostic and predictive maintenance system at an HV/MV station
G Moiana, F Gerli, AEM Elettricità SpA
G Zafferani, Ampere SpA
R Levi, Doble Engineering Company
- Designing and implementing a maintenance management system with an expert support system: methodology, implementation, expert IT-system, achieved cost reductions
P J M Hafkamp, KEMA T&D Power
G Schutters, Interelectra cvba
- Condition assessment of power transmission and distribution components
G J Cliteur, J M Wetzter, KEMA T&D Power
- A comprehensive approach to reviewing the condition of 22kV cables in Prague (includes summary in French)
M Singer, M Schneider, M Lukes, Prazská energetika, a.s.
M Singer, CERGE-EI, Charles University
- Condition based maintenance on MV cable circuits as part of asset management; philosophy, diagnostic methods, experiences, results and the future (includes summary in French)
N van Schaik, E F Steenis, KEMA T&D Power
A van Dam, ENECO
B J Grotenhuis, REMU
M J van Riet, NUON
C J Verhoeven, Essent

● Session Index

● Author Index

- Condition based maintenance of MV power cable systems on the basis of advanced PD diagnostics
F J Wester, NUON
E Gulski, J J Smit, Delft University of Technology
- Optimising the maintenance of 11kV oil filled switchgear - an example of condition based decision making
D T Hughes, EA Technology Ltd
- Technical diagnostics for power apparatus
H Sander, Kärntner Elektrizitäts AG
J Schwab, Grazer Stadtwerke
M Muhr, Technische Universität Graz

Lightning Arresters Design

- Ecological design applied to polymer housed surge arresters
Eco-conception appliquée aux parafoudres avec enveloppe synthétique
M Hassanzadeh, F Malpièce, C Bilhère, ALSTOM Parafoudres SA
- Measuring the energy handling capability of metal oxide varistors (includes summary in French)
M M R Ahmed, G A Putrus, L Ran, R Penlington, University of Northumbria at Newcastle
- Surge arresters for cable sheath preventing power losses in MV networks
A Heiss, Energie-AG (EAM)
G Balzer, Darmstadt University of Technology
O Schmitt, ABB Calor Emag Schaltanlagen AG
B Richter, ABB High Voltage Technologies AG

● Session Index

● Author Index

- The durability and performance of polymer housed metal oxide surge arresters under impulse current stresses (includes summary in French)
K Lahti, K Kannus, K Nousiainen, Tampere University of Technology

Environmental Aspects of Substations and Switchgear

- How to use a greenhouse effect gas while being environmentally friendly : SF₆ case in medium voltage distribution (includes summary in French)
N Bernard, S Théoleyre, Schneider Electric
G Valentin, EDF
- Environmentally friendly, low cost HV/MV distribution substations using new compact HV and MV equipment
V Colloca, G Como, F Pozzana, S Sciarra, ENEL Distribuzione SpA
F Illiceto, University of Rome
C Di Mario, Gestore Rete Trasmissione Nazionale
E Colombo, CESI SpA
- High voltage distribution lines, which are going through cities
A L Ivanovski, A I Repin, Siberian Power Research Institute

Diagnosis

- Continuous moisture management: extending transformer service life
M Wilkinson, Bowden Bros Ltd
P Dyer, 24Seven Utility Services Ltd
- Detecting and locating MV failure before it occurs. Experience with live line partial discharge on underground paper insulated 11kV cables in London (includes summary in French)
C M Walton, London Power Networks

● Session Index

● Author Index

- Follow up of distribution transformers (includes summary in French)
A Even, LABORELEC
E Engel, A François, Y Tits, D Vangulick, ELECTRABEL
- Determining high voltage cable conductor temperatures (includes summary in French)
G Van der Veken, Euromold NV
- Further statistically analyzed results of measurements of the dielectric strength of oil in distribution transformers
G P Andreou, Public Power Corporation
S I Spartalis, M G Danikas, V G Roussos, Democritus University Thrace
- On-site diagnosis for cast-resin transformers
B Louyot, FRANCE-TRANSFO
- Remote diagnosis of electrical distribution networks (includes summary in French)
Diagnostic a distance des reseaux de distribution électrique
A Gilot, Schneider Electric
- Partial discharge mapping of medium voltage cables - TNB's experience
M S Chong, Tenaga Nasional Berhad
- Analysis and location of partial discharges in power transformers by means of electrical methods
H Tatizawa, Instituto de Eletrotécnica e Energia da USP (IEEUSP)
G F Burani, Escola Politécnica da USP (EPUSP)

● Session Index

● Author Index

- Evaluation of on-site dielectric response methods for non-destructive testing of water treed MV XLPE cables
S Hvidsten, SINTEF Energy Research
P Werelius, Royal Institute of Technology (KTH)
J Christensen, DEFU
- Cable diagnosis. In-situ tests with returned voltage diagnosis method in Romania
Diagnosticque du cable. Essais in situ dans Roumanie avec methode du tension retourne
C S Pispiris, TRANSELECTRICA
- Complex methods to diagnose the technical state of the medium and high voltage circuit breaker after short-circuit events
I Manea, C Chiciu, ICMET
F Balasiu, N Tulici, TRANSELECTRICA
- Insulation condition assessment of medium voltage power cables using on-site PD detection and analysis techniques
E Gulski, B R Hamerling, F J Wester, J J Smit, Delft University of Technology
E Groot, NUON Infracore
P Schikarski, Haefely Test AG
- On-line condition monitoring of tap changers - field experience
P Kang, D Birtwhistle, Queensland University of Technology
- Comparison among different diagnostic systems for medium voltage cable lines
V Colloca, A Fara, ENEL Distribuzione SpA
M de Nigris, G Rizzi, CESI SpA

● Session Index

● Author Index

- Diagnostic of overheating underground distribution cable joints
Diagnostic de l'échauffement excessif des raccords de câbles dans le réseau souterrain de distribution
D Fournier, N Amyot, Institut de recherche d'Hydro-Québec (IREQ)

Innovations

- Remote current sensing on overhead power lines
N P Tobin, Consultant Engineer
M McCormack, E O'Loughlin, K Tobin, SMF Technology
- Applications of HTS fault current limiters in the Danish utility network
J N Nielsen, NESA
J J Ostergaard, DEFU
- Design aspects of an inductive type superconducting fault current limiter
I Vajda, S Semperger, A Györe, Budapest University of Technology and Economics

POWER QUALITY AND EMC

Cable Design

- Economical 36 kV cable system for the Belgian network
Système de câble 36 kV économique pour le réseau Belge
F Musique, ELECTRABEL
J Becker, NEXANS BENELUX SA

EMC and Safety

- Ground potential rise influence near HV substations in urban areas
L Grcev, V Filiposki, V Arnautovski, St Cyril and Methodius University

● Session Index

● Author Index

- Software methods for analysis of transient voltages coupled to shielded cables in HV substations
L Grcev, St Cyril and Methodius University
- Use of a global earthing system to implement the safety requirements for protecting against indirect contacts in HV systems
Utilisation d'un système de mise à la terre globale aux fins de rencontrer les impositions de protection contre les contacts indirects en haute tension
M Desmedt, ELECTRABEL
J Hoeffelman, CPTE
D Halkin, LABORELEC
- Comparative measurements of magnetic field from low voltage switchgears
Å Bohlin, ABB Kabeldon
T Ahlberg, J-O Larsson, University College of Borås
- Towards a global strategy to mitigate power-frequency magnetic fields from secondary substations
E Salinas, A Bondeson, J Daalder, Y Hamnerius, Chalmers University of Technology
- A new approach to analyse and reduction of RF conducted emission due to PWM in a buck converter
A Farhadi, Niroo Research Institute (NRI)
- Evaluation of low-frequency emissions of switchgear by a type proof
B W Jäkel, A B Müller, Siemens AG
- Some aspects of magnetic shielding of a transformer substation using alternative shielding techniques
M Istenic, P Kokelj, P Zunko, Faculty of Electrical Engineering
B Cestnik, T Zivic, Milan Vidmar Electric Power Research Institute

● Session Index

● Author Index

- Consequences of Slovenian environmental legislation regarding non-ionizing radiation on new medium-voltage lines
B Cestnik, Milan Vidmar Electric Power Research Institute
- Evaluation of currents and charge in surge protective devices in low-voltage distribution networks due to direct lightning strikes (includes summary in French)
W Bassi, A Piantini, N M Matsuo, University of São Paulo
- The policy of STEE Sibiu about protection against switching and lightning overvoltages
F Balasiu, L Jurca, N Tulici, ST Sibiu
F Goni, SC ICEMENERG SA
- Experimental study on safety aspects of cellular phone systems in HV towers
J B M van Waes, Eindhoven University of Technology
M J M van Riet, NUON Technisch Bedrijf
A P J van Deursen, Eindhoven University of Technology
F Provoost, J F G Cobben, NUON Technisch Bedrijf
- Numerical estimation of drained lightning currents on MV lines (includes summary in French)
L F Ferreira Aicardi, F Ponta, H L Soibelzon, Universidad de Buenos Aires
- Safety issues related to the connection of MV and HV grounding systems outside substations
Y Rajotte, J Fortin, G Lessard, Institut de recherche d'Hydro-Québec (IREQ)

Voltage Dips and Interruptions

- Study of a cement plant experiencing power quality problems in Uruguay
D Bentancur, G Pérez, A Pardo, A Rondoni, UTE

● Session Index

● Author Index

- Optimal policy for exploitation and construction of HV/MV substation low side
A Arcos Vargas, J González Lara, Endesa Distribución
- Mitigation of voltage sags embracing a prediction technique and the use of a dynamic voltage restorer
C P Fitzer, Y S Lim, C Zhan, V K Ramachandaramurthy, A Arulampalam, M Barnes, G Strbac, N Jenkins, UMIST
- Power quality initiatives in Singapore
S T Chang, K Y Chua, C C Siew, L T Tan, PowerGrid Ltd
- Analysis and design of a three-phase constant voltage transformer based on ferroresonance (includes summary in French)
T Van Craenenbroeck, I Van den Broek, R Belmans, Katholieke Universiteit Leuven
K Van Wijmeersch, J Declercq, Pauwels Trafo Belgium NV
- Interruption cost analysis for the electrical power customers in Greece
E N Dialynas, S M Megaloconomos, V C Dali, National Technical University of Athens
- Electronic process equipment compatibility evaluation project for power quality enhancement - a Malaysian experience
A J Hamid, Tenaga Nasional Berhad
K M Nor, University Malaya
O Badar, Texas Instrument Malaysia Sdn.
- Developing a new algorithm to participate power quality variations in tariff: an experience in Iran
M R Haghifam, Tarbiat Modarres University
M Daneshgar, Azad University
- Goal planning and risk analysis for distribution reliability indices
N Kagan, C C B Oliveira, University of São Paulo

● Session Index

● Author Index

- Statistical correlations between indicators of power supply and consumers' satisfaction
Les corrélations statistiques dans les indicateurs d'énergie et satisfaction des consommateurs
E M Gastaldo, Federal University of Rio Grande do Sul
G J Capeletto, Regulatory State Agency
H R Bittencourt, Federal University of Rio Grande do Sul
- Estimating the annual frequency and cost of voltage sags for customers of five Finnish distribution companies
P Heine, P Pohjanheimo, M Lehtonen, E Lakervi, Helsinki University of Technology
- Method of statistical control of the supply reliability (includes summary in French)
P E Issouribehere, J C Barbero, IITREE-LAT
J L Martínez, A Galinski, ENRE
- Relationship between quality of service demanded and tariff
C Guidi, J Espain, J Garcia, PA Consulting Services SA
- Industrial power quality problems
A El Mofty, K Youssef, Alexandria Electricity Company
- Recent resolutions of Italian regulator on the continuity of electricity supply
G Gola, AEI
P Ribaldone, AEM Torino
M Silvestri, ENEL Distribuzione SpA
F Vertemati, AEM Milano
- Practical solutions for the shutdown process in industrial facilities depending on network disturbances
G Drera, S Pedrazzini, A Previ, L Tonelli, CESI SpA

● Session Index

● Author Index

- Voltage dips and sensitivity of consumers in low voltage networks
G Brauner, Vienna University of Technology
C Hennerbichler, ABB Automation Ltd
- 25 years outage data, ready for the future
G A Bloemhof, W T J Hulshorst, KEMA Nederland BV
J Janssen, EnergieNed

Disturbing Loads and Phenomena

- The influence of voltage variations on estimated load parameters
F T Dai, J V Milanovic, N Jenkins, UMIST
V Roberts, EA Technology Ltd
- The effects of harmonics on differential relay for a transformer
J M Ho, C C Liu, Chung-Yuan University
- Connection of a plant with arc furnaces to the Andalucian network (includes summary in French)
A Chofré, Sevillana de Electricidad I
M Pinilla, J M^a Romero, Sevillana de Electricidad I (Grupo Endesa)
- The concept of short-circuit power and the assessment of the flicker emission level (includes summary in French)
M Couvreur, UCL
E De Jaeger, LABORELEC
P Goossens, A Robert, CPTÉ

● Session Index

● Author Index

- Initial results of the harmonic measurement campaign on the French low-voltage networks
Premiers resultats de la campagne de mesure des harmoniques sur les reseaux basse-tension Français
L Berthet, EDF R&D
D Boudou, EDF GDF Services
X Mamo, EDF R&D
- System connection of very large variable speed drives for compressor purposes
K H Krüger, M Loskarn, C Unger, R Witzmann, Siemens AG
- A filter concept for an electrolysis in a chemical plant
D Stade, M Malsch, Ilmenau Technical University
H Solf, Dr Solf & Partner GmbH
- Evaluation of flicker level in a T&D network with a large amount of dispersed windmills
H Knudsen, V Akhmatov, NESA Transmission Planning
- Voltage unbalance in low voltage distribution networks
P V Santos Valois, COPEL
C M Vieira Tahan, N Kagan, University of São Paulo
H Arango, Federal School of Engineering at Itajubá
- Symmetrizing Steinmetz circuitry behavior in harmonic polluted networks
M D Chindris, A C Cziker, S Stefanescu, Technical University of Cluj-Napoca
- Comparison load models in harmonic flows (includes summary in French)
V F Corasaniti, R Bianchi, F Viollaz, IITREE-LAT

● Session Index

● Author Index

- Survey of harmonic distortion in LV and MV networks: results and corrective strategies
E Bompard, E Carpaneto, R Napoli, Politecnico di Torino
P Ribaldone, C Vercellino, Azienda Energetica Metropolitana Torino

PQ Monitoring and New Technologies

- Does power quality monitoring provide financial return? (includes summary in French)
T Detroz, LEM SA
- Power quality monitoring
D Guillot, Alstom T&D Protection and Control
- Power quality : monitoring and innovation in PFC and harmonic filtering (includes summary in French)
J-M Lupin, Rectiphase
P Ferracci, Schneider Electric
- Custom power interface
Interface clientele de puissance pour les clients
G Tanneau, EDF R&D
D Boudou, EDF GDF Services
- Enhancing of power quality and availability in distribution systems by means of voltage source converters
R Grünbaum, ABB Power Systems AB
- Harmonic filters for industrial applications. Technology procurement report from the Swedish National Energy Administration
N Gothelf, Harmonizer Power Quality Consulting AB
A Lewald, Swedish National Energy Administration

● Session Index

● Author Index

- Advanced power quality rating under the conditions of deregulated markets
M Mühlwitz, Stadtwerke Dresden GmbH
J Meyer, G Winkler, Dresden University of Technology
- Automated analysis of power quality disturbances
M Kezunovic, Y Liao, Texas A&M University
- Evaluation of power quality in regional distribution networks
P Santarius, J Gavlas, Technical University Ostrava
P Vasenka, SME a.s. Ostrava
V Vyskocil, Z Spacek, J Hurková, EGU Brno, a.s.
K Procházka, J Hanzlik, EGC, s.r.o. České Budejovice
- Power quality monitoring as integrated with distribution automation
A Mäkinen, M Parkki, P Järventausta, Tampere University of Technology
M Kortessluoma, P Verho, ABB Substation Automation Oy
S Vehviläinen, MX Electrix Oy
R Seesvuori, Tampere Power Utility
A Rinta-Opas, Koillis-Satakunnan Sähkö Oy
- Integrated power quality in distribution equipment
R Borlotti, ABB SACE
C Gemme, ABB Ricerca SpA
R Tinggren, ABB Secheron SA
- Economical power quality enhancement in MV distribution networks by power electronics solutions
G Mauthé, ABB T&D Management Ltd.
L Heinemann, ABB HV-Products
D Westermann, ABB HV-Technology

● Session Index
