

Jaunay

**A family from Francheval on the
French border with Belgium**

Graham Jaunay

2024

Companion titles:

Jaunay: a family from Francheval on the French border with Belgium

Gilmour: cotton weavers from west Scotland who benefitted from industrialisation

Cawley: Dorset cabinet-makers who moved to London

Puttick: drapers from Sussex, Jersey and then London

Beasley: agricultural workers from central Somerset

Sharp: a family from coastal Yorkshire East Riding

Fisher / Smith: a family resident in Bath from the 17th century

FORWARD

Première Qualité published in 1994 told the story of my Jaunay ancestry in the nineteenth century. It followed on from two earlier books about my mother's ancestry—*A toast to the future* in 1986 with a supplement in 1992 and, *The Cannell Connection* in 1994. These books were written in a pre-Internet era and were resourced using the memories of my family, library records, correspondence and the services of some professional genealogists in England and Europe.

Since 1994, the Internet and travel to numerous locations in Britain and France seeking information has shed a light on much more information and linked me with distant relatives who share my interests. This culminated in, *Make the skeletons dance* in 2016. This book brought together much more newly found information for both my paternal and maternal lines.

Now this book (which is part of a much larger set as detailed on the next pages) not only updates my family ancestry but looks at developing the collateral lines too. In fact so much information had been uncovered, that to retain some form of reasonable management, I have restricted the focus to my fifth cousins or closer! Even with this limitation the number of names collected currently exceeds 52,500!

This collection of family charts summarising known information brings the reader up to date with my almost continual family history research of 50 years. The material is presented in two sections...

- The first comprises basic charts showing relationships with major life events by date and place with an index.
- The second details the major sources for the information on the charts.

Readers are advised to start by checking the index to the charts to see if a familiar name in your family is mentioned and progress from that point!

All family histories are works in progress. This means that there are likely to be errors regardless of how much care is taken in compiling the data. Every attempt has been made to find a least two pieces of collaborating data, but this has not always been possible. In the case of common names some material is too ambiguous or lacks sufficient detail to know whether it is appropriate or not. In most cases this evidence has been ignored but a few seem too likely to be omitted even though I cannot be 100% certain they are correct and if it proves to be incorrect then the fault is mine entirely.

Château de Chantilly

Eighteenth century Jaunays, as retainers to the Prince of Condé, would have been very familiar with the corridors of this palace!

NOTES

The charts within this edition are updated versions of the charts in the previously mentioned publications.

A number of conventions have been employed to assist in navigating these charts.

1. Relationships at the head of each page pertain only to the author.
2. Direct ancestors/descendants are displayed in red. **Allan Edgar John JOHNSON**
3. Relatives are displayed in green. **Thomas Rackham CANNELL**
4. Persons displayed in black are not blood relatives but related by marriage.
5. Unless otherwise stated on the page, the data attached to each name is as known.
6. Navigate from chart to chart using the page numbering system.  
7. A descent line with a bar indicates no known issue. No line where issue is unknown.
8. The data against each person on the chart should be read from the top down as it relates to that person at the head of the entry. If spouse previously or subsequently married this is noted where known.
9. Individuals killed in military conflicts or died of wounds are marked with a poppy. 
10. Known matches of yDNA (paternal), mtDNA (maternal) and atDNA (shared) are indicated on the charts. 
11. Dates are recorded according to the calendar used by the jurisdiction at the time. See the following note on this topic.

In an effort to detect when name changes occurred, surnames recorded are those found in the earliest known record for each individual. However, given names recorded are those most frequently used over a lifetime. In the main nicknames and other abbreviations have been ignored in the charts, but some of this information is shown in the sources section.

The degree of kinship between two persons related by blood outlined in the following charts applies only to the first cousins of the compiler. All other relationships need to be calculated using the usual guide lines or online cousin calculators.

Undertaking family history research in the UK may require an understanding of the changes made in the calendar...

To 1751 the British Isles formally followed the Julian calendar whereby the year commenced on Lady Day, 25 March and ended the following year on 24 March. From 1752 the year would officially begin on 1 January. In 1752 the calendar was adjusted in September to accommodate the leap years not previously recognised by the deletion of the dates 3 to 13. This was important because much of Europe had already addressed this matter previously! The new calendar was known as the Gregorian calendar. To make it clear dates on charts from 1 January to 24 March prior to 1752 are dated for both calendars. Thus, a baptism on 3 February 1712/13 means the event occurred in 1712 under the prevailing Julian calendar but by today's Gregorian calendar would be recognised as occurring in 1713.

The Gregorian calendar was adopted by much of Catholic Europe in 1582, as directed by Pope Gregory XIII in his papal bull *Inter gravissimas* in February. Consequently this calendar change is not a consideration in this book as knowledge of Jaunay ancestry does not extend back that far in time. The other issue regarding calendars occurs with the introduction of the Revolutionary Calendar which was effective in the period 22 Sep 1792 (backdated officially

to 5 Oct 1793) to 1 Jan 1806. However, in this case the Jaunay family was not affected as they were living outside of France at the time. In fact only one event in the related families occurred in this brief period—the birth of Adolphe Emile Jacquesson on 4 Thermidor VIII (23 Jul 1800).

Essentially I have taken all my paternal ancestors and published a set of charts for each line. This is detailed in the following table with the subject of this book highlighted...

Burials in St Larnet [Lawrence] Cemetery occurred from 1736. This cemetery was attached to the St Laurent chapel, part of the Condé Hospice. Those buried were transferred to the new Bourillon cemetery to the south of the town in 1841. An additional cemetery was opened in 1935 dedicated to Saint-Pierre but actually takes its name from the first burial—Pierre Marquis, a castle guard! We can assume all the above who died in Chantilly are in the Bourillon cemetery although only one has the location named.

Jean Baptiste Jaunay was a retainer for the most powerful Condé family. How he secured this position in the household at the huge palace complex in the centre of Paris or at their country retreat, the Château de Chantilly is not known. Was it through his marriage?

Following the death of his first wife in the Paris palace, l'hôtel de Condé in 1773, Jean Baptiste took a second wife when he married the widow of Louis Brunet. The Brunets and Viards held even higher ranks within the Condé household.

Sr Jean Fauvisse, a bourgeois of Paris residing at rue St-Jacques du Haut-Pas, was appointed a guardian to the minor, François-Marie Jaunay, because of his relationship as his grandmother's brother-in-law. We know his grandfathers Jean Jaunay and Pierre Viard predeceased him.

The Jaunays and Brunets lived in very turbulent times in France that ultimately led to the French Revolution. The Prince de Condé established a largely foreign army in an attempt to restore the throne. The association with the Prince forced the Jaunays and Brunets to leave the country and they eventually found themselves in London! François Jaunay went into a partnership with Richard Mandry at the Sablonière Hôtel in Leicester Square and then as a free-lance cook. When his half-brother chose to retire in 1815, François, now married to Ann Howell with two young daughters, was offered Brunet's successful Leicester Square business which he gladly took-over.

When François died his children had returned to France after his daughter, Louisa, had married a French champagne maker.

Following his marriage, Frank Cunningham Jaunay effectively took control of the Jaunay business. Frank's decision to migrate to Australia may have been motivated by his brother, Julius, who settled in Melbourne in 1879. The brand names and patents held by L Jaunay & Co were sold to Krug et Cie. Frank's skills were taken up by the Adelaide Wine Company the owner of Château Tanunda established in 1890 in the Barossa Valley. Frank then secured the licence for the Scenic Hotel at Norton Summit in the Adelaide Hills in 1898. While the establishment was in Jaunay hands, it became noted for its cuisine.

Robert John Cunningham Jaunay's first job was as book-keeper at Cordillo Downs Station in the far north-east corner of South Australia. He is reputed to be the first person to drive a motor vehicle from Sydney via Burke to Cordillo Downs. For a brief period he worked at the Gepps Cross Abattoirs. Following his marriage Bert operated a number of small motor garages and corner stores across South Australia for the rest of his life.

The original Krugs were butchers in Darmstadt by the mid 17th century and remain so until this day and now operate at 80 Heidelberger Strass (pictured). Later in the same century a branch of the family moved to Mainz on the Rhine where they continued as butchers for a number of generations.

When Johann Josef Krug arrived in Châlons-sur-Marne he sought employment as a clerk with Jacquesson et Fils in 1834 and over time his role in the business grew. In early 1843 the ambitious Krug left Jacquesson et Fils and with one of his friends, Hippolyte de Vives, founded Krug Champagne et Cie at 8 Rue Saint-Hilaire in Reims. Under French inheritance laws all children receive 3/4 of their parents' property (a spouse 1/4). Thus with ten children Paul Krug's estate was divided such that each child received an 0.075 share. Their children in turn received their shares from their parents and while the estate was massive, in the present generation there were a multitude of Krug Champagne et Cie shareholders, many with no interest in the business and this left the company vulnerable to takeover which occurred in January 1999 when the Paris-based multinational luxury goods conglomerate Moët Hennessy Louis Vuitton SE, better known as LVMH, took control.

Champagne Jacquesson was founded in 1789 by Memmie Jacquesson and his product so impressed that Napoléon gave him a gold medal.

In 1835, his son Adolphe took over and had a direct hand in several important innovations. He instituted the radical notion of training vines in rows with the collaboration of a Dr Guyot. He established a base level of sugar in bottles with the aid of a chemist, thus substantially reducing the problem of bottle explosion. Lastly, he patented the wire basket known as the muselet, still used today to hold sparkling wine corks in place.

The extensive wealth he generated was ultimately lost, not only through poor business decisions but also through exorbitant expenditure on the construction of a grand chateau at Sillery.

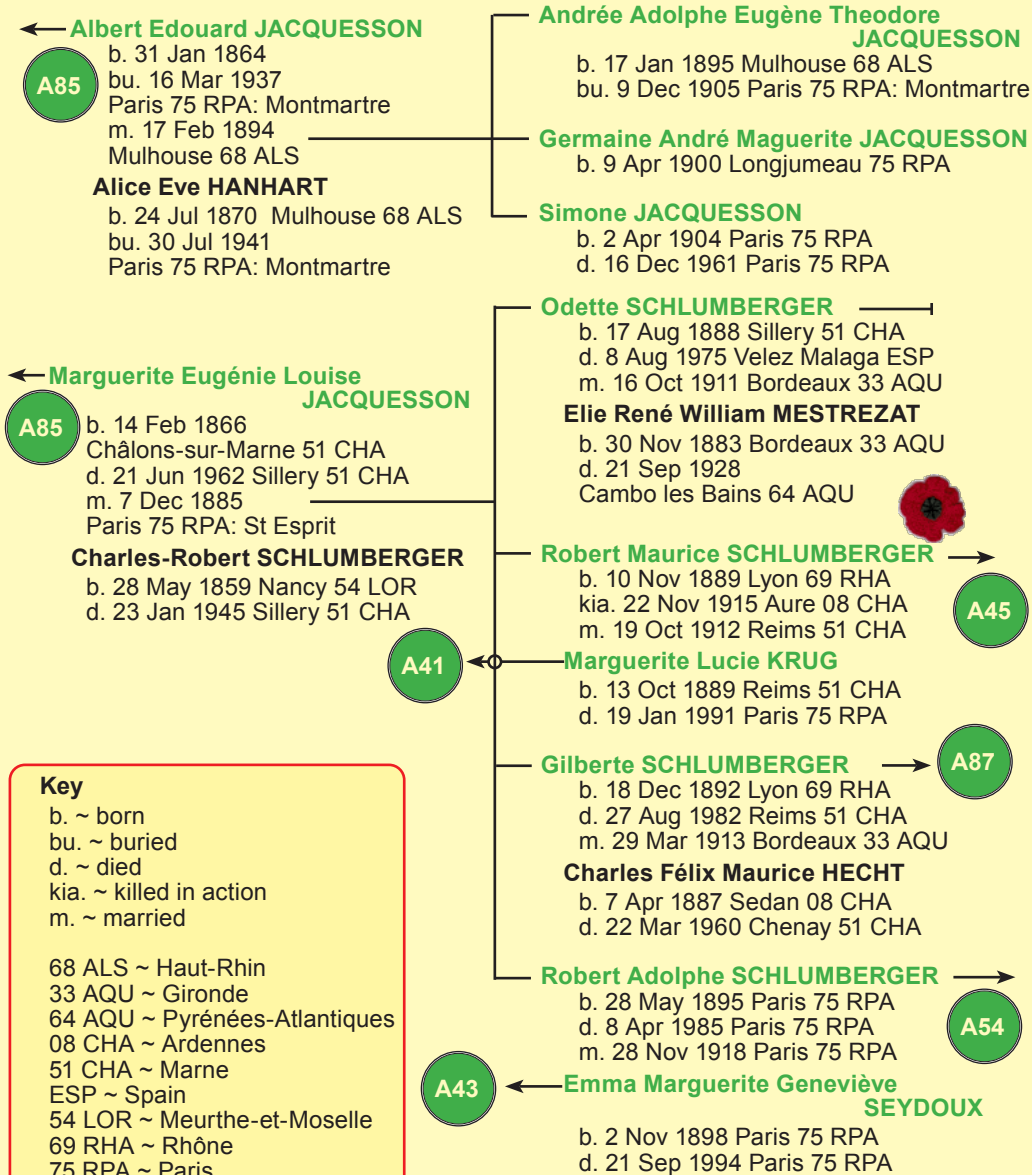

According to family tradition, the Jacquessons, originally Scottish Jacksons, found themselves in France as a consequence of Mary Queen of Scots marriage to the Dauphin in April 1558.

Edward Stanley Mitton's early education was at St Edmond's College in Birmingham. Later he studied architecture. He was articled to the firm of Ingall and Son in Birmingham. Later he moved to London, where he spent about two years with Herbert Bolton. In 1901 he was living in Loughborough where he specialised in building schools. Later he went back to Birmingham, where he had his own business for a short time, followed by another period of association with Ingall and Son now under the name Ingall, Son and Mitton. In January 1907 Edward moved to Canada and began working with prominent Toronto architect Francis Spence Baker. After only two months, however, Edward was hurt in an accident, and he moved to Vancouver to recover his health and later he set up his own business. He published a series of articles on houses and gardens in Westward Ho! magazine, featuring his own illustrations and house designs. From 1911 to 1914, he and Herbert Thomas Whitehead opened an office in Victoria BC. With Henry Herbert Gillingham he published a book: Modern Homes for Modern People. The book included a series of illustrations and a list of plans that were available by mail.

SOURCES

1. The following pages give the sources for the data on the charts.

2. Each person in the charts is recorded on the pages following in alphabetical order.

3. Abbreviations used can be found on the adjacent table. Location codes for places such as SCT for Scotland are explained on each chart page.

4. A blank source field or an unsubstantiated note indicates the information has been provided without supporting documentation.

5. Age: indicates the age at death or the age at time of publication.

6. Occupation: adapted from a range of records.

7. Census: dates indicate a census return is on file.

8. Parents: recorded if known, but no determined attempt has been made to locate parents of people marrying into the family.

9. Children: the tally is for all marriages.

10. Birth: if the baptism is known then this is included within brackets. If the baptism is the only known early record then this is entered instead of the birth.

11. Marriage: in the case of more than one marriage, details of other spouses are listed under the other spouse name. Previous and subsequent marriages of persons marrying into the family are not listed but a note may be found in the charts.

12. Death: if the burial/cremation is known then this is included within brackets. If the burial/cremation is the only known record then this is entered instead of the death.
