LET'S BEAT CANCER

institut
Curie

institut**Curie**

Institut Curie, France's leading cancer center, combines an internationally-renowned Research Center with a cutting-edge Hospital Group that treats all types of cancer, including the rarest. Founded in 1909 by Marie Curie, Institut Curie employs 3,700 researchers, physicians, and health professionals across three sites (Paris, Saint-Cloud, and Orsay), working on its three missions: treatment, research, and teaching. A private foundation with public utility status, Institut Curie is authorized to receive donations and legacies, and thanks to the support of its donors, is able to make discoveries more quickly, improving treatments and quality of life for patients.
