The Traders' War Charles Stross, 2014-01-07 *The Traders' War* -- an omnibus edition of the third and fourth novels in Charles Stross's *Merchant Princes* series. Miriam was an ambitious business journalist in Boston. Until she was fired—then discovered, to her shock, that her lost family comes from an alternate reality. And although some of them are trying to kill her, she won't stop digging up secrets. Now that she knows she's inherited the family ability to walk between worlds, there's a new culture to explore. Her alternate home seems located around the Middle Ages, making her world-hopping relatives top dogs when it comes to importing guns and other gadgets from modern-day America. Payment flows from their services to U.S. drug rings—after all, world-skipping drug runners make great traffickers. In a land where women are property, she struggles to remain independent. Yet her outsider ways won't be tolerated, and a highly political arranged marriage is being brokered behind her back. If she can stay alive for long enough to protest. These books are immense fun.--Locus At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Manual of Psychomagic Alejandro Jodorowsky,2015-01-30 A workbook for using symbolic acts to heal the unconscious mind • Provides several hundred successful psychomagic solutions for a wide range of specific psychological, sexual, emotional, and physical problems, from stuttering, eczema, and fears to repressed rage and hereditary illnesses • Details how practitioners can develop unique psychomagic solutions for their patients • Explains how psychomagic bypasses the rational mind to work directly with the unconscious for quicker and more enduring change Traditional psychotherapy seeks to unburden the unconscious mind purely through talk and discussion. Psychomagic recognizes that it is difficult to reach the unconscious with rational thought. We should instead speak directly to the unconscious in its own language, that of dreams, poetry, and symbolic acts. By interacting on this deeper level, we can initiate quicker and more enduring change to resolve repressed childhood trauma, express buried emotions, and overcome deep-seated intimacy issues. Through the lens of psychomagic, illness can be seen as the physical dream of the unconscious, revealing unresolved issues, some passed from generation to generation. In this workbook of psychomagic spells, legendary filmmaker and creator of psychomagic Alejandro Jodorowsky provides several hundred successful psychomagic solutions for a wide range of psychological, sexual, emotional, and physical problems from stuttering, eczema, and fear of failure to repressed rage, hereditary illnesses, and domineering parents. Each solution takes the same elements associated with a negative emotional charge and recasts them into a series of theatrical symbolic actions that enable one to pay the psychological debts hindering their lives. Explaining the shamanic techniques at the foundation of psychomagic, the author offers methods for aspiring practitioners to develop solutions for their own unique patients. Jodorowsky explains how the surreal acts of psychomagic are intended to break apart the dysfunctional persona with whom the patient identifies in order to connect with a deeper, more authentic self. As he says in the book, “Health only finds itself in the authentic. There is no beauty without authenticity.”

*Doglands* Tim Willocks,2011-09-27 Furgul is a puppy born in a slave camp for racing greyhounds, and he has a terrible secret--he is himself only part greyhound. When the cruel owner of the camp recognizes Furgul's impure origins he takes Furgul to be killed, but Furgul manages a spectacular escape. Now Furgul must confront the indifference, complexity, warmth, and ferocity of the greater world, a world in which there seem to be two choices: live the comfortable life of a pet and sacrifice freedom or live the life of a free dog, glorious but also dangerous, in which every man will turn his hand against you. In the best tradition of *The Call of the Wild* and *Watership Down*, novelist Tim Willocks offers his first tale for young

adults, an allegorical examination of human life through a dog's eyes, infused with heart, heroism, and the mysteries of the spirit.

**Simulacron-3** Daniel F. Galouye, 2021-06-08 Part of the exclusive new CAEZIK Notable line of books. In the 1960's, before anyone had even conceived of the concept of virtual reality, before computers were even in main-stream thought, Daniel F. Galouye imagined the unimaginable. In doing so, he wrote one of the most influential science fiction books of the day, and one that continues to not only influence modern writers but continues to resonate with science fiction readers everywhere. He conceived of a world that exists only virtually...one of the first stories about virtual reality. This is Matrix, decades before Matrix was conceived. Douglas Hall is part of a team that builds an artificial environment to simulate reality. This enables them to get public opinion polls without waiting for the opinions of people around them. But then something goes terribly wrong and his partners on the program start disappearing. But is it a simulated disappearance, or is someone out to get them all? And what is the true nature of reality? Stories based on Simulacron-3 have been adapted for both television and movies, and the book is considered a favorite of many of the masters of science fiction.
