NEW MANUFACTURING ESTABLISHMENTS IN CANADA

This report is published as a supplement to the previous issue published in June 1968, and is made up of all new manufacturing establishments in Canada that have come to our attention since that time. It contains the names, addresses and principle products manufactured by all new establishments irrespective of size, which have come into operation recently or report that they expect to be in operation in the near future. Firm names have been arranged by industry and by province within each industrial group.

The listing comprises 1,023 businesses that have not been operating before, as well as new branch plants of existing businesses, all of which have indicated that they operate in the manufacturing field. Branch sales offices and separate new warehousing facilities are excluded. Change of ownership does not constitute a new firm as it is essentially the same business even though it may operate under a new name.

The information contained in this report should be qualified in view of the fact that there has been no evidence to show whether or not the new firms are in actual production. It has been so indicated by the firms listed but this cannot be considered as solid information until such time as data are collected in the annual Census of Manufactures, covering the details of the manufacturing operations.

The next issue of this report will be the annual publication dated June 1969. It will contain the names of all new manufacturing establishments not yet included in a publication resulting from the annual Census of Manufactures.

FOOD AND BEVERAGE INDUSTRIES

<u>Firm name and address</u>	<u>Products</u>
<u>NEWFOUNDLAND</u>	
Maritime Packers Ltd., Wesleyville, Nfld.	fish processing
