

Keyword Index

- **18th century** – Gaudant J., 85
- ***A. afarensis*** – Bouhallier J., 295
- **Adaptation** – Cohen C., 421
- **Adaptation** – Voisin J.-L., 133
- **Adocidae** – de Lapparent de Broin F., 387
- **aff. *Xinjiangchelys*** – de Lapparent de Broin F., 387
- **Africa** – Senut B., 265 – Cote S.M., 323
- **Africa** – Thomas H., 209
- **Alpine Corsica** – Marroni M., 643
- **Amelogenins** – Goldberg M., 573
- **Amerindians** – Sardi M.L., 403
- **Ammonites** – Tarkowski R., 191
- ***Amphipithecus*** – Jaeger J.-J., 243
- **Anthracotheriidae** – Lihoreau F., 653
- **Anthropoid primates** – Jaeger J.-J., 243
- **Apatite** – Pfretzschner H.-U., 605
- **Aramis** – White T.D., 341
- **Archaeopalynology** – Kaniewski D., 53
- ***Ardipithecus*** – Senut B., 265
- **Armorican Massif** – Botquelen A., 353
- **Artiodactyla** – Dong W., 379
- ***Australopithecus africanus*** – Holloway R.L., 287– Bouhallier J., 295
- **benthic Foraminifera** – Peybernès B., 17
- **Berriasian** – Colin J.-P., 9
- **Biochronology** – Pickford M., 65
- **Biological anthropology** – Signoli M., 219
- **Biomimeticism** – Giraud-Guille M.-M., 503
- **Biom mineralisation** – Danelian T., 229 – Coradin T., 443 – Allemand D., 453 – Marin F., 469 – Milet C., 493 – Luquet G., 515 – Goldberg M., 573
- **Biom minerals** – Bouligand Y., 617
- **Bird** – Nys Y., 549
- **Bone** – Giraud-Guille M.-M., 503 – Zylberberg L., 591
- **Bone cells** – Milet C., 493
- **Bone fossilization** – Pfretzschner H.-U., 605
- **Brain** – Guihard-Costa A.-M., 397
- **Brazil** – Guérin C., 35
- **Bulgaria** – Peybernès B., 17
- **Buntsandstein** – Lourenço W.R., 369
- **Ca²⁺-ATPase** – Allemand D., 453
- **Calcification** – Allemand D., 453 – Luquet G., 515
- **Calcification process** – Payan P., 535
- **Calcite**, Biom mineralisation – Nys Y., 549
- **Calcium carbonate** – Luquet G., 515
- **Calcium channel** – Allemand D., 453
- **Calcium Storage** – Luquet G., 515
- **Cambrian** – Marin F., 469
- **Caprini** – Moullé P., 663
- **Carapace** – Giraud-Guille M.-M., 503
- **Central Africa** – Brunet M., 277
- **Cerebral evolution** – Holloway R.L., 287
- **Cervidae** – Dong W., 379
- **Chad** – Brunet M., 277
- **Character selection** – Pilbeam D., 305
- **Charente, France** – Colin J.-P., 9
- **Charophytes** – Colin J.-P., 9
- **Chauvet cave** – Genty D., 629
- **Chelonians** – Hervet S., 125
- **Chemical composition** – Dauphin Y., 583
- **Chemistry** – Gaudant J., 85
- **Chimpanzee fossils** – Cote S.M., 323
- **China** – Smith T., 43 – Dong W., 379 – Pickford M., 691
- **Chitin** – Giraud-Guille M.-M., 503
- **Clavicle** – Voisin J.-L., 133
- **Collagen** – Giraud-Guille M.-M., 503– Zylberberg L., 591– Pfretzschner H.-U., 605
- **Condé-en-Brie** – Aumont A., 27
- **Conodont** – Girard C., 1
- **Construction constraints** – Cohen C., 421
- **Coral** – Allemand D., 453
- **Craniofacial morphology** – Sardi M.L., 403
- **Cretaceous** – de Lapparent de Broin F., 387
- **Cristaux liquides** – Bouligand Y., 617
- **Cuticle** – Luquet G., 515
- **D’Arcy Wentworth Thompson (1860–1948)** – Cohen C., 421
- **Dating** – Détré F., 705
- **Decay** – Pfretzschner H.-U., 605
- **Dentin** – Goldberg M., 573 – Dauphin Y., 583
- **Dentin matrix protein-1** – Goldberg M., 573
- **Diagenesis** – Dauphin Y., 583 – Pfretzschner H.-U., 605
- **Diatoms** – Danelian T., 229 – Coradin T., 443
- **Dimorphism** – Tarkowski R., 191
- **Dinosaurs** – Allain R., 199
- **Dynocysts** – Marroni M., 643
- **Early Cretaceous** – Barale G., 119
- **Early Eocene** – Aumont A., 27
- **Early hominid** – Brunet M., 277
- **Early Jurassic** – Allain R., 199
- **Early Miocene** – Pickford M., 675
- **Early Pleistocene** – Moullé P., 663
- **Early Pliocene** – Pickford M., 179
- **Early settlements** – Détré F., 705
- **Early Triassic** – Lourenço W.R., 369
- **East Africa** – Pickford M., 675
- **Eggshell** – Nys Y., 549
- **Enamel** – Goldberg M., 573 – Dauphin Y., 583
- **Endolymph** – Payan P., 535
- **Eocene** – Jaeger J.-J., 243
- **Erlian Basin** – Smith T., 43
- **Ethiopia** – White T.D., 341
- **Evolution** – Guihard-Costa A.-M., 397

- **Evolutionary theory (history of) Form** – Cohen C., 421
- **Exaptation** – Cohen C., 421
- **Extracellular calcifying matrix** – Marin F., 469
- **Fish otoliths** – Payan P., 535
- **Foraminifera** – Carcione L., 361
- **Fossil** – Lourenço W.R., 369
- **Fossil *Homo sapiens*** – Déroit F., 705
- **Fossils** – White T.D., 341
- **Fourier analysis** – Girard C., 1
- **France** – Aumont A., 27 – Gaudant J., 85 – Botquelen A., 353 – Lourenço W.R., 369 – Genty D., 629 – Marroni M., 643 – Moullé P., 663
- **Fusulinids** – Carcione L., 361
- **Gallo-Roman** – Kaniewski D., 53
- **Geiseltal** – Hervet S., 125
- **Genes** – Marin F., 469
- **Genetic sequences** – Botquelen A., 353
- **Geology** – Gaudant J., 85
- **Geomorphology** – Slimak L., 77
- **Geomorphology** – White T.D., 341
- **Germany** – Hervet S., 125 – Taquet P., 157
- **Gouy** – Martin Y., 143
- **‘Grande Armée’** – Signoli M., 219
- **History of Paleontology** – Taquet P., 157
- **History of science** – Bouligand Y., 617
- **Hominoidea** – Pickford M., 65 – de Bonis L., 257
- **Hominoids** – Cote S.M., 323
- **Homo sapiens** – Bouhallier J., 295
- **Hypermineralisation** – Zylberberg L., 591
- **Hyracoidea** – Pickford M., 675
- **Hyracoidea** – Thomas H., 209
- **Inertinite** – Marroni M., 643
- **Inner Mongolia** – Smith T., 43
- **Ion carrier** – Allemand D., 453
- **Ions** – Payan P., 535
- **Italy** – Kaniewski D., 53
- **Karst** – Genty D., 629
- **Kellwasser crisis** – Girard C., 1
- **Kenya** – Pickford M., 179
- **Laos** – de Lapparent de Broin F., 387
- **Late Miocene** – de Bonis L., 257 – Cote S.M., 323 – Dong W., 379 – Lihoreau F., 653 – Pickford M., 691
- **Late Permian mass extinction** – Lourenço W.R., 369
- **Libya** – Thomas H., 209
- **Life-history** – Jaeger J.-J., 243
- **Lighting systems** – Martin Y., 143
- **Liguria** – Kaniewski D., 53
- **Liquid crystals** – Giraud-Guille M.-M., 503 – Bouligand Y., 617
- **Lithic technology** – Slimak L., 77
- **Lithuania** – Signoli M., 219
- **Longevity** – Jaeger J.-J., 243
- **Lower and Middle Palaeolithic** – Slimak L., 411
- **Lower Cretaceous** – Colin J.-P., 9
- **Lower/Middle Palaeolithic transition** – Slimak L., 77
- **Lutetian** – Hervet S., 125
- **Macro-evolution** – Cohen C., 421
- **Maka** – White T.D., 341
- **Mammalia** – Thomas H., 209
- **Mammals** – Smith T., 43 – Dauphin Y., 583
- **Mantle cells** – Milet C., 493
- **Mass grave** – Signoli M., 219
- **Matériaux mésoporeux** – Bouligand Y., 617
- **Matrix proteins** – Milet C., 493
- **Mechanical determinism** – Cohen C., 421
- ***Merycopotamus*** – Lihoreau F., 653
- **Mesoporous materials** – Bouligand Y., 617
- **Microstructures** – Marin F., 469 – Dauphin Y., 583
- **Middle Awash** – White T.D., 341
- **Mineral formation** – Pfretzschner H.-U., 605
- **Mineralisation** – Giraud-Guille M.-M., 503
- **Miocene** – Pickford M., 65
- **Molecular clock** – de Bonis L., 257 – Pilbeam D., 305
- **Mollusc** – Marin F., 469
- **Morocco** – Voisin J.-L., 133 – Allain R., 199
- **Morphology** – Cohen C., 421
- ***Muntiacus*** – Dong W., 379
- **Myanmar** – Jaeger J.-J., 243
- **Mylodontidae** – Guérin C., 55
- **Nacre** – Milet C., 493
- **Nalagne Nappe** – Marroni M., 643
- **Nature composites** – Bouligand Y., 617
- **Neanderthal** – Voisin J.-L., 133
- **New assemblage** – Barale G., 119
- **New species** – Peybernès B., 17 – Moullé P., 663
- **North-Tethyan margin** – Peybernès B., 17
- **Obsidian** – Slimak L., 411
- **Obstetrics** – Bouhallier J., 295
- **Oligocene** – Thomas H., 209
- **Opal** – Danelian T., 229
- **Organic matrix** – Allemand D., 453 – Luquet G., 515 – Payan P., 535 – Nys Y., 549
- **Orrorin** – Senut B., 265
- **Os** – Zylberberg L., 591
- **Osteoblast** – Zylberberg L., 591
- **Ostracodes** – Colin J.-P., 9
- ***Otavipthecus*** – Senut B., 265
- **Otolith growth** – Payan P., 535
- ***Ouranopithecus*** – de Bonis L., 257
- **Oxfordian** – Tarkowski R., 191
- ***P. paniscus*** – Bouhallier J., 295
- **Paintings** – Martin Y., 143
- **Pakistan** – Lihoreau F., 653
- **Palaeoanthropology** – White T.D., 341 – Guihard-Costa A.-M., 397
- **Palaeobiogeography** – Carcione L., 361
- **Palaeocene** – Smith T., 43
- **Palaeoenvironment** – Pickford M., 179
- **Palaeomagnetism** – Pickford M., 65
- **Palaeozoic** – Botquelen A., 353
- **Paleogeography** – Pilbeam D., 305
- ***Palmatolepis*** – Girard C., 1
- ***Pan troglodytes*** – Bouhallier J., 295
- **Parallelism** – Pilbeam D., 305
- **Parietal art** – Martin Y., 143
- **Paromomyidae** – Aumont A., 27
- **Peafowls** – Pickford M., 179
- **Pelvis** – Bouhallier J., 295
- **Perisphinctids** – Tarkowski R., 191
