	Resolution 1.9. Elect Director Judith Reinsdorf	For (Exceptional)	<p>We have concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. We would usually register our concerns by withholding support on the Report and Accounts (R&As) or the vote on board discharge but given neither of these items are on the agenda , we are flagging our concerns by withholding support on individual directors. This is on the basis we hold all directors collectively responsible and do not draw distinctions between executive or non-executive directors. However, as this director has recently joined the board and has not been part of the board and decision making, we are supporting their election</p> <p>Alexion Pharmaceuticals, Inc. is exposed to the risk of bribery in its operations, as well as environmental risks relating to air and water pollution, water use and hazardous waste. 	Resolution 4. Require Independent Board Chairman	For (Exceptional)	Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote for this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director.

We would usually register our concerns by withholding support on the Report and Accounts (R&As) or the vote on board discharge but given neither of these items are on the agenda , we are flagging our concerns by withholding support on individual directors. This is on the basis we hold all directors collectively responsible and do not draw distinctions between executive or non-executive directors. However, as this director has recently joined the board and has not been part of the board and decision making, we are supporting their election. Turquoise Hill Resources Ltd. is exposed to risks associated with climate change and the environment. The environmental risks are associated with energy use, water use, air emissions, water emissions and waste. We note that the 2017 Annual

With regards to climate change, there does not appear to be any performance data relating solely to Turquoise Hill Resources and the latter does not submit data to the CDP. 	Resolution 7. Re-elect Tony Hales as Director	For (Exceptional)	This non-executive director is not independent due to having served on the board for a significant amount of time and sits on the remuneration committee and on the audit committees. We consider this inappropriate as the committees should consist entirely of independent directors. However, his term is 10 years which is on the cusp of what is normally

Incremental base salary increases have been an ongoing concern at Lonza over the past several years and the pay level of the CEO already appears to be high when compared to peers. Increases in base salaries will have a knock-on effect on both bonus and long-term grant levels. Mitigating, the company provided a detailed explanation for the proposed increase. In addition, the company commits to freeze salary levels for three years following July 1, 2018. We are therefore supporting this proposal.

The Chairman's role on a board is to evaluate and review the performance of management, and to ensure there are sufficient checks and balances; this role is obviously compromised when the Chairman is also the CEO. The proposed term of office for this director is four years. We do not support proposed terms of office exceeding 3 years as we feel longer terms in office reduces director accountability to shareholders. However, we are mindful that the proposed term is just one year over our preferred term. However, a lead independent director serves on the board and ensures the oversight capacity of the board. In addition, Stephane Richard's role for the company's strategy is key, we are therefore supporting his re-election.</p>

Resolution 10. Approve Compensation of Stephane Richard, Chairman and CEO	For (Exceptional)	Under normal circumstances, we would have voted against this resolution because specific performance targets are not disclosed for long term incentive awards. In contrast with past practice, the company granted performance shares instead of cash awards for the FY under review. The company changed one of the performance conditions (removed the "market share" criterion, replaced by the free cash flow) and explained that it was to include one of the main indicator to monitor the company's performance. There are other concerns on LTI performance conditions. However, we are supporting this resolution because the 2017 scheme's quantum and the good performance alignment underlined by the pay for performance model. We also welcome the improved transparency on short term incentives specific performance targets.

Resolution 14. Approve Remuneration Policy of the Chairman and CEO	For (Exceptional)	
Resolution 15. Approve Remuneration Policy of Vice-CEOs	For	Under normal circumstances, we would vote against this resolution because under the new policy, at cap level, the remuneration package of the CEO would increase by 34 percent. The accelerated vesting of LTI awards is possible under certain circumstances of non-renewal of corporate mandate. In addition, we would welcome more transparency on the elasticity curve mechanism and to what extent it may reward overachievement of performance conditions. However we are supporting this resolution as the maximum award still lies at a reasonable level.

Require Independent Board Chairman	For (Exceptional)	Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote for this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director.

Chocoladefabriken Lindt & Spruengli AG AGM 03/05/2018 SWITZERLAND	Resolution 1. Accept Financial Statements and Statutory Reports	For (Exceptional)	Under normal circumstances, we would be withdrawing support for the approval of the Report and Accounts because of concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. Chocoladefabriken Lindt & Spruengli AG is exposed to environmental risks associated with energy and water use, and pollution. The company reports on its environmental performance in the 2017 Sustainability report and submits carbon data to the CDP 2017. However, we noted that the data does not cover all operations. Thus, the company states that non-manufacturing companies are operationally controlled but not included in the CDP questionnaire. It adds that GHG emissions are insignificant compared to their manufacturing companies. In light of the improved disclosure we move our vote to the support but encourage the company to disclose a comprehensive data covering all operations.

We would usually register our concerns by withholding support on the Report and Accounts (R&As) or the vote on board discharge but given neither of these items are on the agenda , we are flagging our concerns by withholding support on individual directors. This is on the basis we hold all directors collectively responsible and do not draw distinctions between executive or non-executive directors. However, as this director has recently joined the board and has not been part of the board and decision making, we are supporting their election. Fortis (Canada) is exposed to risks associated with bribery and the environment. The environmental risks are related to waste and efficiency losses in the systems operated. We are pleased to note that December 2017 Environmental Report contains GHG emissions data. With regards to anti-bribery, we noted that the company publishes its Code of Business Conduct and Ethics which applies to employees, officers and directors but we have not seen details of the company's management approach and performance on this issue since 2016. In light of the lack of disclosure on the company's anti-bribery performance we repeat an abstain voting recommendation and encourage the company to improve their disclosure next year.</p>

Mandatory auditor rotation is an effective mechanism for mitigating the potential risks borne by long-term auditor-client relationships, and is a safeguard against improper audits. 	Resolution 2. Approve Remuneration Report	For (Exceptional)	As communicated to shareholders in the previous annual report, the size of the 2018 LTIP award was reduced by one-third. This follows a significant reduction from FY2016 to FY2017, such that the 2018 LTIP award is less than half that of the 2016 LTIP. Nonetheless, the face values of the award continue to represent abnormally high multiples of salary as compared to typical practice in the UK. No base pay rise for the CEO but the CFO got an 8% rise to reflect increased scope and responsibilities of his role which now includes Information Systems. No bonus was paid for 2017. The remuneration committee used its discretion to reduce the vesting outcome for the 2015 awards under the LTIP by 50%, for the CEO and CFO, based on the Committee's evaluation of performance and alignment of pay outcomes with the shareholder experience. The awards made in December 2017 under the LTIP have been reduced for the CEO, in line with the Committee's commitment last year. However, we still have concerns over overall quantum. the sheer quantum of the package continues to drive adverse P4P model outcomes, as even in a year in which no bonus was paid and downward discretion applied to the vesting LTIP awards, CEO Rakesh Kapoor's single total figure is GBP 12.5 million nearly four times the median of the selected peer group. Under normal circumstances we would have voted against but we are supporting as the remuneration committee continues to reduce the overall package. We believe there is some way to go but for now, as the trajectory is downwards and the remuneration committee is using its discretion appropriately we will exceptionally support.

	Resolution 13. Authorise the Audit Committee to Fix Remuneration of Auditors	For (Exceptional)	The non-audit fees for the year were significant at GBP 4.2m and being 83.3% of the audit fees of GBP 7.9m. The integrity of the auditor's relationship with the company is compromised when a firm is paid excessive fees on top of those paid for auditing services. This arrangement has the potential to open the auditor process to a wide range of conflicts of interest. However, KPMG has been appointed auditors for the financial year ending 31 December 2018 in place of PWC so we are not voting against. But we need to be aware of equally high non audit fees for the new auditors.

			association memberships and payments, and oversight mechanisms would benefit shareholders in assessing its management of related risks.
	Resolution 6. Require Independent Board Chairman	For (Exceptional)	Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote for this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director.
	Resolution 7. Assess Feasibility of Cyber Security and Data Privacy as a Performance Measure for Senior Executive Compensation	Against	<ul style="list-style-type: none"> SEE concerns (disclosure/policy)
	Resolution 8. Clawback of Incentive Payments	For (Exceptional)	A shareholder has submitted a proposal requesting to amend the company's compensation clawback policy as they believe the policy is currently too narrow and too vague. A vote for this proposal is warranted as the company's current clawback policy does not provide for the disclosure of the amounts and circumstances surrounding any recoupments. Such disclosure would benefit shareholders.
	Resolution 9. Eliminate Above-Market Earnings in Executive Retirement Plans	For (Exceptional)	A vote for this proposal is warranted given that the proposal is narrowly tailored to eliminate a fringe benefit that is not a best practice. Although NEOs' above-market earnings represent a small portion of total compensation, they increase the expense of retirement programs to shareholders. Further, above-market earnings are not a performance-based element of compensation and the practice provides a benefit to executives which is not available to the broader employee population.

	Resolution 6. Require Independent Board Chairman	For (Exceptional)	Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote for this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director.

As this director's term in office has only just exceeded 9 years and there has been board refreshment, we didn't consider it appropriate to oppose their re-election but would encourage that some of the non-independent directors step down from the board.</p>

Barclays PLC AGM 01/05/2018 UNITED KINGDOM	Resolution 1. Accept Financial Statements and Statutory Reports	For (Exceptional)	Base pay for the CEO and highest paid director is in the upper quartile for the index on a balanced comparison which is not justified by either the performance or size of the company. In addition, while only the CET1 element of the 2017 annual bonus paid out (in full), strategic and individual objectives delivered payouts between 65% and 75% of the maximum opportunity. This may cause concern among shareholders, as such elements are assessed in a qualitative manner and they delivered significant payouts notwithstanding financial performance being well below targets (although generally better than 2016). The Company has paid out a bonus of c. 50% of maximum available to the Group CEO in a year when the Board issued him a written reprimand for trying to identify a whistleblower. However, the Remuneration Committee remains committed to apply a significant adjustment to the CEO's 2016 variable pay in the future; and general improvements to remuneration practices have been implemented. On engagement, no action has yet been taken re Jes Staley. The company is waiting for the FCA process to conclude and they will make cuts from his 2016 compensation. For this year, we are supporting.

This may potentially impair his ability to devote sufficient time to his roles at Barclays plc particularly as Chair of the Company's ring-fenced entity - Barclays UK and provide effective stewardship. However, one company is an investment trust which may not be as complicated as some of his other commitments. He has recently stepped down from one company. On engagement the company says that other than Debenhams, the other commitments are not overly time consuming. We will support and continue to engage on his commitments.

Report on Lobbying Payments and Policy	For (Exceptional)	A vote for this proposal is warranted as additional disclosure of the company's lobbying-related policies and oversight mechanisms, along with trade association memberships and payments, would help shareholders better assess the risks and benefits associated with the company's participation in the public policy process.

	Resolution 7. Amend Proxy Access Right	For (Exceptional)	A vote for this proposal is warranted, as the proposed amendments would enhance the company's existing right for shareholders while maintaining necessary safeguards on the nomination process.
	Resolution 8. Require Independent Board Chairman	For (Exceptional)	Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote for this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director.
	Resolution 9. Provide Right to Act by Written Consent	For (Exceptional)	A vote for this proposal is warranted as it represents an improvement in the company's overall governance practices and could enhance shareholders' rights.

Express no Confidence in Current External Directors	For (Exceptional)	Under this item, the proponents are proposing that "shareholders express no confidence in the ability of the external directors, Ms. Tali Simon and Mr. Mordechai Keret, to faithfully represent the interests of the Company's shareholders and of the Company, and call on the Board of Directors to discuss this resolution." Although there is no evidence of breach of fiduciary duty or any public information suggesting that the directors are implicated in the ongoing investigation, we remained concerned over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. The company is also exposed to the risk of labour standards breaches in its supply chain. We would therefore expect this company to publish a supply chain labour standards policy and details of its management approach and performance, but there is no such information in the public domain. In light of this, and the issues from the existing board, we support this resolution.

	Resolution 6. Require Independent Board Chairman	For (Exceptional)	Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote for this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director.
	Resolution 7. Report on Lobbying Payments and Policy	For (Exceptional)	A vote for this proposal is warranted as additional disclosure of the company's lobbying-related oversight mechanisms and trade association payments would help shareholders better assess the risks and benefits association with the company's participation in the public policy process.

	Resolution 4. Require Independent Board Chairman	For (Exceptional)	Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote for this proposal is warranted, as it seeks the adoption of a policy that requires the board's chairman to be an independent director.

Elect Director Lamberto Andreotti	For (Exceptional)	Under normal circumstances, we would be withdrawing support for the election of this director because of concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. We would register our concerns by voting on the Report and Accounts but given this is not available to vote on, we typically flag our concerns by withholding support on director reappointment resolutions. The company was created as a result of bringing together the complementary portfolios of Dow and DuPont. 	Resolution 16. Require Independent Board Chairman	For (Exceptional)	Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote for this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director.

	Resolution 19. Report on Lobbying Payments and Policy	For (Exceptional)	A vote for this proposal is warranted as additional disclosure on the company's trade association activities and indirect lobbying-related expenditures, along with more information about its lobbying oversight, would help shareholders better assess the risks and benefits associated with the company's participation in the public policy process.

Barrick Gold Corporation AGM 24/04/2018 CANADA	Committee; Receive Directors and Audit Committee's Report Resolution 1.1. Elect Director Maria Ignacia Benítez	For (exceptional)	We have concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. We would usually register our concerns by withholding support on the Report and Accounts (R&As) or the vote on board discharge but given neither of these items are on the agenda , we are flagging our concerns by withholding support on individual directors. This is on the basis we hold all directors collectively responsible and do not draw distinctions between executive or non-executive directors. However, as this director has recently joined the board and has not been part of the board and decision making, we are supporting their election. We are voting against Barrick Gold Corporation this year based on Acacia Mining's continued limited response to human rights issues. Acacia Mining has disclosed that their security management system is aligned to respecting human rights and fundamental freedoms. Barrick Gold has published Human Rights report in 2017 however it lacks reference to Acacia Mining. Barrick Gold is the majority shareholder in Acacia Mining, with an approximately 64% share ownership. In addition to the lack of disclosure, the company continues to be exposed to human rights atrocities at some of its mining sites, including allegations of sexual assaults and ongoing tensions with surrounding communities

	Resolution 6. Require Independent Board Chairman	For (Exceptional)	Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote for this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director.

Golden Agri-Resources Ltd AGM 23/04/2018 MAURITIUS	Resolution 1. Adopt Financial Statements and Directors' and Auditors' Reports	For (Exceptional)	<p>Under normal circumstances we would have voted against the R&As to reflect our concerns over the lack of Social, Environmental and Ethical (SEE) policy/disclosure at this company. However, following the launch of a three year Carbon Footprint Assessment in 2015, the company has now published environmental performance and GHG data for selected palm oil plantations in its most recent 2016 Sustainability Report. The company has also submitted carbon data to the CDP, although it is very limited. As it is not clear what percentage of total operations the Sustainability Report covers and there is no trend data, we recommend an abstain vote and encourage the company to provide more comprehensive disclosure in the following year. However, as an abstention is not a voting option, we have exceptionally supported this year. This support vote also reflects the Company's willingness to show us their entire operations in Indonesia and engage on biodiversity management and palm oil issues.</p>

There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote for this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director.

This is on the basis we hold all directors collectively responsible and do not draw distinctions between executive or non-executive directors. However, as this director has recently joined the board and has not been part of the board and decision making, we are supporting their election. AES Corporation is exposed to the risk of bribery in its operations. We note that the company published its Code of Conduct , as well as details of its ethics and compliance programme in previous years. The company has been previously encouraged to publish details of its anti-bribery performance, such as data on employee training. In the 2017 10-K report the company stated that it has programmes in place to monitor and enforce AES policies on corruption, bribery, money laundering and associations with terrorist groups. 			we have a strong preference for general authorities, which do not apply pre-emption or priority rights, to be limited to no more than 10%, unless a clear justification and strategic rationale is provided to shareholders. However, on this occasion, we feel that we could be limiting the ability for the company to manoeuvre. Real Estate Investment Trusts (REITs) pay out the majority of their income as dividends to remain tax efficient. This means they are not cash rich and will need to come to the market generally when they want to expand their portfolio. We expect the business to do accretive transactions, benefiting shareholder returns. As such, we are comfortable in voting in favour of this occasion.

J.B. Hunt Transport Services, Inc. AGM 19/04/2018 UNITED STATES	Resolution 1.1. Elect Director Douglas G. We would register our concerns by voting on the Report and Accounts but given this is not available to vote on, we typically flag our concerns by withholding support on director reappointment resolutions. JB Hunt Transport Services is exposed to risks associated with health & safety, climate change and the environment. The main environmental risk is related to air pollution. We are pleased to see that the company submitted climate change report to CDP in 2016. The 2017 report is submitted but not publicly available. In the 2016 submission, the company has disclosed GHG emissions data for its operations in the USA. We acknowledge such improvement but urge the company to disclose data on air and GHG emissions from all operations, including Canada and Mexico and indicate the percentage coverage. We will deteriorate our vote next year if no improvement is made.

			maximum severance payment over the last 5 years has been limited to 14 months. There are some elements of the LTIP which does not comply with what we consider best practice. This includes vesting for below median performance and an unusual interdependency of annual and 3 year ROE targets. To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, we have a strong preference for general authorities, which do not apply pre-emption or priority rights, to be limited to no more than 10%, unless a clear justification and strategic rationale is provided to shareholders. However, on this occasion, we feel that we could be limiting the ability for the company to manoeuvre. Real Estate Investment Trusts (REITs) pay out the majority of their income as dividends to remain tax efficient.

Approve Issuance of Equity or Equity-Linked Securities with or without Preemptive Rights	For (Exceptional)	Under normal circumstances we would have voted against this authority as it would enable the Board to issue the equivalent of 20% of the share capital without respecting pre-emption rights. To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, we have a strong preference for general authorities, which do not apply pre-emption or priority rights, to be limited to no more than 10%, unless a clear justification and strategic rationale is provided to shareholders. However, on this occasion, we feel that we could be limiting the ability for the company to manoeuvre. Real Estate Investment Trusts (REITs) pay out the majority of their income as dividends to remain tax efficient. This means they are not cash rich and will need to come to the market generally when they want to expand their portfolio. We expect the business to do accretive transactions, benefiting shareholder returns. As such, we are comfortable in voting in favour of this occasion.

Smith & Nephew plc AGM 12/04/2018 UNITED KINGDOM	Resolution 1. Accept Financial Statements and Statutory Reports	For	
	Resolution 2. Approve Remuneration Report	For (Exceptional)	Graham Baker was appointed as CFO on 1 March 2017. For FY2017, his bonus was not pro-rated: it was based on his full-year salary, rather than the salary he received for the period served as CFO. As a result, he received a bonus (cash + equity) worth 159% of his annual base salary, equivalent to GBP 811,522 (USD 1,044,997), i.e. 191% of the salary he received during the year. Should his bonus had been calculated based on the salary received, it would have been GBP 135,722 lower. Moreover, Graham Baker was also granted PSP awards at 190% of his full-year salary, rather than 190% of the salary he received. Furthermore, for the cash element of the bonus, around 67% of the maximum bonus opportunity (equivalent to 100% of base salary) pays out for simply achieving target performance. If the equity element is taken into account, the payout for target performance raises to 70%, which is considered generous. The company has agreed to look at this again for 2020 policy. As it is not pro-rated only if joiners join in the first quarter (it is pro-rated thereafter) and we are not aware of other areas of misalignment, we will support this year and engage on our concerns for the next policy change. Concerns are 1/lack of pro-rating for new joiners who join in first quarter of the year 2/significant rewards for threshold performance under bonus arrangements.

	Resolution 8. Repeal Amendments to the Company's Bylaws Adopted Without Stockholder Approval After July 15, 2016	For (Exceptional)	This proposal, a relatively standard precaution for dissidents in proxy contests, is designed to prevent the last-minute adoption of bylaw amendments designed to keep otherwise duly-elected dissident nominees from being seated on the board. It has no effect on any future bylaw amendments after the close of this annual meeting. A cautionary vote for this proposal is warranted, as the dissident case suggests that additional shareholder oversight at the board level could be beneficial, and there appears to be minimal downside risk to shareholders in approving the request.

			support on individual directors. This is on the basis we hold all directors collectively responsible and do not draw distinctions between executive or non-executive directors. Broadcom Limited is exposed to environmental risks associated with water pollution, waste generation and water use. We would therefore expect this company to publish quantitative environmental performance data. In light of the company's acquisitions in 2015-2017, we will continue to offer an abstain vote this year, as opposed to voting against. We look forward, however, to reviewing consolidated environmental performance data next year. Require Independent Board Chairman	For (Exceptional)	Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote for this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director.
Resolution 6. Reduce Ownership Threshold for Shareholders to Call Special Meeting	For (Exceptional)	A vote for this proposal is warranted as it would enhance the existing shareholder right to call special meetings.

	Resolution 20. Approve Californian Plan	For (Exceptional)	The Company is seeking shareholder approval for its Californian Operations related schedule to the Sage Group Restricted Share Plan (the "Californian Plan"). The main concern regarding the proposal is that the vesting of awards is subject to continued employment only, and is not subject to the satisfaction of challenging performance hurdles, or even a performance underpin. Further nil-priced awards can be made at 300% of salary and may vest over a period of less than three years. However, a significant consideration is that the Company states that Executive Directors (and Non-executives) of the Company are not eligible to participate under this plan the same applies to the Sage Group Restricted Share Plan. We were consulted on this plan. This is to allow Sage to be competitive in the US market. As its not for executives we are supporting.

Target Healthcare REIT Ltd. EGM 21/02/2018 JERSEY	Resolution 1. Approve Capital Raising	For (Exceptional)	Under normal circumstances, we would not be supportive of this capital raising as it's highly dilutive to existing shareholders and the Issue Price is at a discount to the market price. However, the company has stated that the Initial Placing and Placing Programme will enable the Company to pursue its growth strategy, provide scale to its investment portfolio and are likely to increase the liquidity of the shares by increasing the market capitalisation of the Company and further diversify its share register. The company has stated that proceeds will be used to acquire two projects in Shropshire and Lancashire and to acquire other pipeline assets.

Victrex plc is exposed to the risk of bribery in its operations. We note that reference to the Code of Conduct is included in the Annual Report and the Company also disclosed their Code of Conduct. Although it says that Conduct policies include Anti-Bribery & Corruption and Financial Crime Policy, the Policy itself is not publicly available. We urge the company publish the full text of the Code. We also encourage the company to report on details of its management approach and performance in this area. Compass Group PLC AGM 08/02/2018 UNITED KINGDOM	Resolution 1. Accept Financial Statements and Statutory Reports	For (Exceptional)	20% women on board but they are looking for two new NEDs and have stated that they will endeavour to meet Lord Davies target of having 33% female representation on the Board by 2020. We will watch for progress and review gender balance once new NEDs have been appointed.
	Resolution 2. Approve Remuneration Policy	For (Exceptional)	Maximum bonuses exceed 2x salary and/or LTIP potential exceeds 3 x salary. In addition, one side-effect of the remuneration package re-balancing has been to increase the package on offer to Gary Green the Company's Chief Operating Officer for its North American subsidiary. On balance, we believe the new policy deserves support as it is an improvement from the last policy. Although quantum continues to increase the company is decreasing pension entitlements even for existing executives except for US director Gary Green. Although we would have preferred a proper bonus deferral, but at least executives have to defer until they reach their increased holding requirements. However, on bonus deferrals the company is behind the market on good practice. We are slightly concerned that they have removed a mandatory financial underpin for the bonus and replaced this with the flexibility to apply a financial underpin. However, the remuneration

	Resolution 2. Approve Remuneration Report	For (Exceptional)	Base pay for the CEO and highest paid director is in the upper quartile for the index on a balanced comparison which is not justified by either the performance or size of the company. However, the company has introduced a cap on pensionable pay for active members in the defined benefits scheme which is positive and executive salaries have increased in line with employees after years of above employee and inflation increases. The company is proposing no change to policy after their proposals were withdrawn last year due to lack of shareholder support. We also think it is positive that the proportion based on Next Generations Measure (NGP) measure has been included in the annual bonus and LTIP to reflect the importance of growing the business outside of core tobacco.

	Resolution 6. Require Independent Board Chairman	For (Exceptional)	Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote for this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director.
	Resolution 7. Report on Political Contributions	For (Exceptional)	A vote for this resolution is warranted because the company could provide more comprehensive disclosure regarding its trade association activities, policies, and oversight mechanisms.
	Resolution 8. Report on Lobbying Payments and Policy	For (Exceptional)	A vote for this proposal is warranted, as the company could provide additional information regarding its trade association activities, policies, and lobbying related oversight mechanisms.
	Resolution 9. Adopt Quantitative Company-wide GHG Goals	For (Exceptional)	A vote for this resolution is warranted, as the company's adoption of quantitative greenhouse gas emissions (GHG) reduction goals would permit shareholders to assess the effectiveness of the company's GHG emissions-reduction policies, initiatives, and management, as well as provide a better understanding of the company's GHG emissions-reduction strategy.

	Resolution 10. Reappoint PricewaterhouseCoopers LLP as Auditors	For (Exceptional)	PwC has served as CSP's auditors since incorporation in November 2015, but more importantly PwC has been the Group's auditor for more than 20 years. Mandatory auditor rotation (or at least a Tender for Audit services every 10 years) is an effective mechanism for mitigating the potential risks borne by long-term auditor-client relationships, and is a safeguard against improper audits. However, we are mindful that the audit was last tendered in 2016 (which led to PwC's reappointment). As Deloitte are engaged to provide internal audit services, they were excluded from the tender, with Ernst & Young, KPMG and PwC responding to the tender request. Following the tender process, the Committee decided to re-appoint PwC as the Company's auditor. We will continue to monitor the situation.

This can give rise to some concern over the concentration of power and potential consequences for minority shareholder rights. However, these concerns are mitigated to some extent with the presence of 3 independent directors representing 43% of the board. Importantly this includes a full independent audit committee.

Accept Financial Statements and Statutory Reports	For (Exceptional)	Under normal circumstances we would have voted against the Report & Accounts as only one of the directors is female, representing less than 25% of the board. However, we have exceptionally supported the resolution as we are mindful that the last and relatively recent appointment to the board (in September 2015) was a female director who effectively replaced another female who retired. Also, for now, we are comfortable with the Board's statement. The Board supports the recommendations of the Davies review on gender diversity but believes that other types of diversity are equally important. The Board will also take account of its objective to meet the Davies review targets before the end of the next Board rotation of non-Executive Directors.. We will give further consideration in future years when new board members are appointed.
