

Schedule of voting on company resolutions

The voting records available within this document represent decisions made by Aviva Investors (Aviva Investors Global Services Limited in the UK) on behalf of clients. There are occasions where our clients may wish to adopt a different voting stance in relation to their assets, which we are of course happy to accommodate. To search for a specific company, hold down the Ctrl and F keys on your keyboard, type in all or some of the Company name required and then click "Find Next". Note that meeting dates are updated 3 months in arrears (i.e a meeting held on 1 August 2018 will be displayed on this page on 1 November 2018) in descending date order

We would usually register our concerns by withholding support on the Report and Accounts (R&As) or the vote on board discharge but given neither of these items are on the agenda, we are flagging our concerns by withholding support on individual directors. This is on the basis we hold all directors collectively responsible and do not draw distinctions between executive or non-executive directors. However, as this director has recently joined the board and has not been part of the board and decision making, we are supporting their election. Incitec Pivot Limited is exposed to the risk of bribery in its operations. We are pleased to note that the company disclosed in their 2017 Annual report that during 2017, a mandatory online fraud and corruption training course was implemented for all employees, and face-to-face training in anti-bribery and sanctions laws was conducted for all applicable employees. However, we would encourage the company to disclose more specific information about their anti-corruption training and provide quantitative data on whistleblowing procedures.

Bellway p.l.c. AGM 12/12/2018 UNITED KINGDOM	Resolution 1. Accept Financial Statements and Statutory Reports	For	
	Resolution 2. Approve Remuneration Report	For (Exceptional)	<p>Jason Honeyman's basic salary was increased from £383,000 to £530,000 (+38%) to reflect his promotion from COO to CEO. The Remuneration Committee considers that a phased approach to the new CEO's salary is appropriate to allow him time to gain experience and develop into the role, and therefore his salary has initially been set significantly below market levels (and the salary of the departing Chief Executive) in his first year. His £530,000 is considerably lower than the former CEO's salary of £656,000, which we think is a prudent decision. However, the Committee intends to increase this to £689,000 from 1 August 2019 (+30%), subject to his satisfactory personal performance and proving himself in the role over the next year, to reflect an appropriate salary for the level of responsibility and scope of the full role and bring it in line with the salary that would have been payable to Ted Ayres from that date if he had remained as CEO. Our view is that the second (planned) increase is too much too soon. It took a number of years for former CEO, Ted Ayres to earn that. This is not a voting issue at this AGM (as the second increase hasn't been awarded) but is likely to be next year if the Remuneration committee approves the increase. Another issue is that bonuses are paid entirely in cash. As such, we will also be encouraging the company to require directors to defer some of the bonuses in shares, which us particularly important for the new CEO who needs to build up his shareholding.</p>

	Resolution 5. Require Independent Board Chairman	For (Exceptional)	Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote for this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director.
	Resolution 6. Adjust Executive Compensation Metrics for Share Buybacks	For (Exceptional)	A vote for this proposal is warranted in line with support for a strongly performance-based executive compensation program that aligns executive pay with long-term shareholder value creation.

	Resolution 14. Approve that the Company Ceases to Continue as Currently Constituted	For (Exceptional)	<p>This proposal is a vote on whether the company should continue. The Company has stated that it does not have a fixed life but the Board has determined that it is desirable that Shareholders should have the opportunity to review the future of the Company at appropriate intervals. Accordingly, the Board intends that a special resolution that 'the Company ceases to continue' will be proposed every fifth year. If the resolution is not passed, the Company will continue to operate as currently constituted. If the resolution is passed, the Directors will be required to formulate proposals to be put to Shareholders to reorganise,</p>

Schedule of voting on company resolutions

			<p>unitise, or reconstruct the Company or for the Company to be wound up. Under the Company's Articles of Incorporation, this vote will be structured as a special resolution for "discontinuation", whereby the Company will continue in operation unless more than 75 percent of those voting elect to "discontinue". This unusual structure means that shareholders who wish the Company to continue should vote against the resolution. According to the Chairman's Statement in the annual report, the Board has considered the opportunities available to the Company and the resources and investment track record of the Investment Manager and are unanimously of the view that the Company should continue in operation. It is therefore recommended that shareholders vote against this resolution as those Directors who hold shares intend to do themselves. However, we have supported the resolution as the Company's shares are currently trading at a significant discount to NAV (16.65% as at 23 November 2018). As such it would be in shareholders' best interests if the fund was wound up so the company would have to return to shareholders an amount equal to, or close to NAV.</p>

	Resolution 11. Reappoint KPMG LLP as Auditors	For (Exceptional)	The company has retained the same audit firm in excess of ten years. Mandatory auditor rotation is an effective mechanism for mitigating the potential risks borne by long-term auditor-client relationships, and is a safeguard against improper audits. Whilst KPMG have served as auditors since the Company's listing (14 years), they were actually appointed while the Group was under private ownership so have actually served for over 20 years. However, we have exceptionally supported their reappointment as we are mindful that the Audit Committee will continue to apply the practice that the audit should be put out to tender at least every ten years. As a consequence, KPMG LLP may remain as external auditor until the completion of the 2025 annual audit, however, the Audit Committee will continue to consider annually the need to tender the audit for audit quality or independence reasons. We note that KPMG LLP introduced a new engagement partner last year who, it is intended, will continue to take responsibility for the audit up to 2021. Therefore, at the very latest we expect the external auditor to be changed in 2021.

Re-elect Richard Connell as Director	For (Exceptional)	This Director is not independent (having served on the Board concurrently with the CEO for 11 years) but we note with board changes independent directors represent more than a third of the board (our minimum expectation for a company of this size). Potential independence issues have been identified and he currently sits on the Audit and Remuneration Committees, and the composition of these Committees does not adhere to UK best practice recommendations for a company of this size. However, as the Chairman is only on the 11 year mark and some board changes have happened we will continue to keep this under review. support this year but ask the company to consider more independence on the board going forward.

	Resolution 3. Elect Mark Hutchinson as Director	For (Exceptional)	<p>We have concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. We would usually register our concerns by withholding support on the Report and Accounts (R&As) or the vote on board discharge but given neither of these items are on the agenda, we are flagging our concerns by withholding support on individual directors. This is on the basis we hold all directors collectively responsible and do not draw distinctions between executive or non-executive directors. However, as this director has recently joined the board and has not been part of the board and decision making, we are supporting their election. Bluescope Steel Limited is exposed to the risk of bribery in its operations. We note that the company has published its Guide to Business Conduct but there is little additional reporting on its anti-bribery performance, such as details of employee training. In the 2018 Sustainability report, the company disclosed that it has introduced face-to-face interactive sessions to help employees understand their responsibilities for business conduct. While Bluescope reveals that its business conduct risks include bribery and corruption, there is no sufficient evidence to confirm that the abovementioned sessions also cover bribery and anti-corruption. To reflect the lack of disclosure related to company's bribery performance, we recommend an abstain vote this year.</p>

NEW ZEALAND			our concerns by withholding support on the Report and Accounts (R&As) or the vote on board discharge but given neither of these items are on the agenda , we are flagging our concerns by withholding support on individual directors. This is on the basis we hold all directors collectively responsible and do not draw distinctions between executive or non-executive directors. However, as this director has recently joined the board and has not been part of the board and decision making, we are supporting their election. a2 Milk Company Ltd is exposed to risks associated with climate change and the environment. The environmental risks relate to air pollution, energy use and waste generation. The company has disclosed in their 2018 Annual report that their infant and pregnancy nutrition manufacturer for the New Zealand, Australian and Chinese markets, Synlait Milk Limited, has committed to target reductions in greenhouse gas emissions, and water consumption on and off farm, as well as reduce nitrogen loss on farms by 2028. However, we would expect a2 Milk Company to publish quantitative environmental performance data, but little is available in the public domain. The company has not submitted carbon data to the CDP. As we have no record of 2017 vote for this company, we recommend an abstain vote this year but would deteriorate our vote if no improvement is made next year.

	Resolution 4. Report on Gender Pay Gap	For (Exceptional)	We think this shareholder proposal warrants supports as at present Oracle lags its peers in addressing gender pay disparity at the company and related disclosures. By not keeping pace with its peers, Oracle is put at a competitive disadvantage in the recruitment and retention of employees.
	Resolution 5. Report on Political Contributions	For (Exceptional)	A vote for this proposal is warranted as additional information on the company's political expenditures from corporate funds and board oversight of those expenditures would give shareholders a better understanding of the company's management of its political spending and related risks and benefits.
	Resolution 6. Report on Lobbying Payments and Policy	For (Exceptional)	A vote for this proposal is warranted as additional information on the company's lobbying expenses and board oversight of those expenditures would give shareholders a better understanding of the company's management of its lobbying activities and related risks and benefits.
	Resolution 7. Require Independent Board Chairman	For (Exceptional)	Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote for this proposal is warranted as it seeks the adoption of a policy that requires the board's

In addition to his role as Non-Executive Chair at Go-ahead Group plc, he is also Non-Executive Chair of Fox Marble Holdings plc and SIG plc. In addition, he is a NED at Northgate plc. In all, these positions raise questions over how he is able to devote sufficient time to each of his roles and in this case, Go-Ahead Group. However, we have exceptionally supported his re-election as we are mindful that these are not large cap companies (in fact, Fox Marble Holdings is a £15m AIM company) and not overly complex entities. Moreover, he stepped down as Chair of Marshalls plc in May 2018 and will be stepping down from the Board of Northgate plc in

	Resolution 5.2. Approve Human Rights Due Diligence	For (Exceptional)	<p>A coalition of stakeholders led by the Australasian Centre for Corporate Responsibility (ACCR) have filed a nonbinding proposal requesting Qantas Airlines increase its due diligence about involuntary transportations of immigrants and for the Board to commission a review of the company's involuntary transportation processes. The proposal also asks for Qantas to cease any further involuntary transportation activity until the due diligence report is made public. Qantas discloses some information about its risk management process and board oversight, although it doesn't specifically address the risk involved in transporting immigrant detainees, nor does it disclose the stand-alone statement of commitment to human rights promised in 2017. A due diligence process and increased disclosure on that topic in particular doesn't seem too onerous, particularly in light of its laudable commitment to align its business practices with the UN Guiding Principles on Business and Human Rights. Qantas argues that it does not have the information to make judgments about whether an adequate legal process has been denied with respect to any detainee and that "the Government and courts are best placed to make decisions on the legal immigration status of individuals seeking to remain in Australia." In the meantime, there is no evidence that the human rights of the detainees are harmed in Qantas' custody. The proponent goes on to ask the company to cease transporting detainees until a report of its human rights review is publicly available. There is no information about how frequently Qantas transports such detainees, so there is no way of knowing how limiting that requirement would be. There is also no information about the contract under which Qantas flies such passengers and whether or not there would be a penalty for a breach of contract by the airline. It would be helpful for shareholder to know the potential consequences of the company suddenly ceasing transport of</p>

Samty Residential Investment Corp. EGM 26/10/2018 JAPAN	Resolution 1. Amend Articles to Approve Compensation Ceiling for Supervisory Directors	For	<p>such passengers. There is concern that Qantas risks being complicit in returning asylum seekers to persecution or harm, or exposing them to human rights violation by transferring them between points of indefinite detention. ACCR have said that various international authorities recognise that the Australian system for assessing and processing claims for asylum doesn't meet international standards. Therefore, where any company is involved in facilitating the operation of that system, that brings their corporate responsibility to respect human rights into play. To conclude, a due diligence process and increased disclosure on that topic in particular doesn't seem too onerous, particularly in light of its laudable commitment to align its business practices with the UN Guiding Principles on Business and Human Rights and although we have some reservations about ceasing involuntary transportation activity until the due diligence report is made public, on balance, we are broadly supportive of the proposal.</p>

	Resolution 6. Approve Re-insertion of Partial Takeover Provisions in the Constitution	For	
	Resolution 7. Approve the Amendments to the Constitution	For (Exceptional)	A group of shareholders, proposed this resolution under section 249N of the Corporations Act 2001 requisitioning a special resolution to amend the Company's constitution. Although the absence of any framework for governing the process could result in abuse and misuse of company and shareholder time and resources, in principle we support the right of shareholders to be able to table advisory proposals and hold the board of directors accountable for duties within their mandate. Further, approval of this amendment would allow the shareholder proposals under resolutions 8 and 9 to be put to the vote. We are supportive of the climate change resolutions and as a result we are supporting this proposal.
	Resolution 8. Approve Disclosure of Climate Risk	For (Exceptional)	Market Forces has filed an advisory resolution requesting that the Company report on its exposure to climate change-related risks. The resolution was signed by 106 shareholders holding approximately 15,000 shares representing 0.0016 percent of the company's shares on issue. The resolution specifically requests: "That in order to address our interest in the longer-term success of the company, given the recognised risks and opportunities associated with climate change, we as shareholders request information about the company's exposure to climate change-related risks. Such information should comply with recommendations of the Financial Stability Board's Task Force on Climate-related Financial Disclosure (TCFD), and follow the TCFD's Supplemental Guidance for the Energy Sector. Information satisfying all relevant recommendations of the TCFD should be disclosed as part of the company's routine annual reporting from 2019 onwards." The proponent argues that Whitehaven's climate change risk disclosure is

	Resolution 9. Approve Strategy Alignment	For (Exceptional)	<p>"minimal at best," stating that its 2017 Annual Report discusses climate change only in terms of opportunities, and that the risks described in the Directors' Report do not reference climate change as a major risk to the company. A vote FOR this resolution is warranted, as shareholders would benefit from more information on how the company is assessing and managing any potential risks related to climate change.</p> <p>A coalition of stakeholders led by Market Forces has filed a non-binding statement expressing its opinion that the company's strategy align with the goal of limiting warming to no more than 2 degrees Celsius. Whether or not the proposal can be considered depends on the results of the preceding shareholder proposal that would require the company to amend its corporate rules to allow non-binding proposals. Specifically, the proposal states: "That in order to address our interest in the longer-term success of the company, given the recognised risks and opportunities associated with climate change, we as shareholders express our opinion that the Board must ensure our company's strategy and capital expenditure decisions are consistent with the climate goals of the Paris Agreement." The Board asserts that Market Forces – as an affiliate project of Friends of the Earth – "seeks to prevent investment in the companies it targets." According to the board, "This intention, being to cause harm to the Company, is clearly contrary to the best interests of the Company and its shareholders." The Board says that its coal is highly efficient and "helps to lower emissions" in line with various countries' respective Nationally Determined Commitments (NDCs) under the Paris climate agreement. It also suggests that it faces little stranded asset risk because, under the International Energy Agency's New Policy Scenario, global coal consumption is forecast to increase until at least 2040. We have supported this proposal as despite the text of the resolution being rather vague, the company does not provide details regarding a business strategy that would enable it to remain competitive under a 2 degree Celsius scenario. Such information would allow investors to better assess the risks that climate change regulations may pose to the company and shareholder value</p>

Resolution 10. Reappoint KPMG LLP as Auditors	For (Exceptional)	Under normal circumstances we would have not supported the re-appointment of KPMG as they have been auditors of the Ashmore since 2006 (i.e in excess of ten years). Mandatory auditor rotation (or at least a Tender for Audit services every 10 years) is an effective mechanism for mitigating the potential risks borne by long-term auditor-client relationships, and is a safeguard against improper audits. However we are mindful that KPMG were reappointed in 2016 following a tender process and that auditors are now subject to a maximum 20 year tenure which we think is a reasonable maximum. Nevertheless we would expect the Company to give a commitment or at least an indication as to when it plans to re-tender the audit, and we would be uncomfortable with the Company waiting until the latest possible time.

	Resolution 16. Authorise Market Purchase of Ordinary Shares	For	
	Resolution 17. Approve Waiver on Tender-Bid Requirement	For (Exceptional)	<p>The Chief Executive currently holds 38.6% of the issued share capital (ISC) so if the buy-back authority proposed under resolution 16 is exercised in full (and the Chief Executive does not participate), his holding will increase to 40.65% of the ISC. Under the Takeover Code he will therefore be required to make a general offer for the shares he currently does not own. Approval is sought to waive this obligation. Under normal circumstances we would have voted against this proposal as this is our protection against creeping control i.e allowing the major shareholder to gain control of the Company without paying a premium to the other shareholders. However, we have exceptionally supported this year, as we did in most of the previous for the following reasons: We have previously engaged with the company over this issue which has clarified that the CEO has habitually donated shares from his holding in Ashmore to charity and his shareholding in Ashmore has therefore steadily fallen since the time of Ashmore's initial public offering (IPO) in Oct 2006 when it was approx 44%. Hence, this is evidence that the CEO is not trying to get control of the company on the cheap. The CEO's holding has in October 2017 was 40.2% so the reduction is evident. Secondly, the meeting materials note that in common with many other asset managers, the Company has capital in excess of its regulatory requirements and generates appreciable free cash flow. It remains the Board's intention to return the surplus capital to shareholders when appropriate. To date, capital has been returned to shareholders primarily by way of dividends on ordinary shares. However, the full suite of options for returning capital to shareholders also includes the Company making purchases of ordinary shares, as it did in 2009. Therefore, if the Waiver Resolution is not passed, the Company will be unable to make purchases of ordinary shares and its flexibility to manage its capital resources will accordingly be limited. We note that the Company has not made any re-purchases of shares for treasury since February 2009. Lastly, having listened to shareholder concerns, the Company is again seeking a share buy back authority up to 5% of the issued share capital. Share buyback authorities pre 2014 had has been equivalent to 10% of the ISC, so if</p>

			share buybacks are made, there will be a much smaller increase in the CEO's holding (should he not participate in any share buybacks). This essentially gives us numerous opportunities to keep check on his holding and to vote against future Rule 9 waivers if he is getting close to a majority stake in the company.

Elect Keith Smith as Director	For (Exceptional)	Under normal circumstances, we would be withdrawing support for the election of this director because of concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. We would register our concerns by voting on the Report and Accounts but given this is not available to vote on, we typically flag our concerns by withholding support on director reappointment resolutions. However, Mercury NZ provide clear evidence of policies but do not publish quantitative environmental performance data in the public domain. The company has not submitted a public response on its carbon data to the CDP. The Company generates over 90% of its turnover from renewable energy and is in a low climate change and environmental impact sector.

Approve Remuneration Report	For (Exceptional)	<p>Under normal circumstances we would have voted against the remuneration report to reflect that for FY2019, LTIP grant levels have been maintained at the same level as a percentage of salary, despite a large fall in share price during the year, resulting in larger grant sizes in FY2019 in terms of number of shares. Further, albeit in line with average UK employee increases executive salaries are up by 2%. However, we have exceptionally supported in the absence of overriding concerns on remuneration / pay and performance disconnect and in the absence of a longer term concern on share price performance and grant sizes. E.g no bonuses were awarded during the year and</p>

			specifically, that the Remuneration committee used of its discretion to reduce the payout under strategic objectives from 17% of the total bonus opportunity to nil due to the required threshold level of profitability not being attained. Nor did any 2015 LTIP awards vest. We also welcome the introduction of a conventional two-year post-vesting holding period under the PSP. We have some reservations over the leaving arrangements for the outgoing COO i.e the payment of £690,848 in respect of the Company's liability in connection with Mr Davis' funded and unfunded pension benefits accrued during his employment with the Company. However, The Company explains the calculation of the value of the benefits to which he was entitled was undertaken by an independent actuary and in line with HMRC guidance, and that the lump sum payment was consistent with past practice at the Company with the cash equivalent transfer value discharging the Company's liability in full and having been calculated on a no-gain-no-loss basis to the Company.

	Resolution 4. Report on Impact of Pesticides on Pollinators	For (Exceptional)	A vote for this proposal is warranted, as shareholders would benefit from more information regarding pesticide use in the company's agricultural supply chain, given greater public scrutiny over pesticide use and its impacts on the environment. Specifically, the proponent argues that General Mills faces reputational and competitive risk because it does not disclose statistics on pesticide use while promoting itself as a company that is friendly to bees and one that is seriously trying to address the problems facing pollinator populations. The company doesn't disclose the amount of pesticide estimated to be avoided by its suppliers by using integrated pest management programs nor does it disclose that it encourages its suppliers to reduce the amount of pesticide used. Pesticides in general have been found to be harmful to pollinator populations, along with a number of other interacting factors. The company discloses information about its efforts to use organic produce and create pollinator-friendly habitats but it does not disclose information explicitly about its pesticide use in the company's agricultural supply chain. As pesticide use comes under greater scrutiny by the public, shareholders would benefit from the company adding pesticide use to its list of disclosed statistics.

	Resolution 1.10. Elect Director Frederick W. Smith	For (Exceptional)	Under normal circumstances we would have voted against this Director as serves as combined CEO/Chairman, a role we prefer to be split. The Chairman's role on a board is to evaluate and review the performance of management; this role is obviously compromised when the Chairman is also the CEO. However, we exceptionally supported his re-election to acknowledge the mitigating factors / safeguards on this Board such a strong majority of independent directors (and evidence of Board refreshment) and a lead director.

			are supporting their election. Darden Restaurants, Inc. is exposed to environmental risks associated with waste generation. The company disclosed their carbon data to the CDP but stopped doing so and have not submitted their data in 2017 and/or 2018. The latest sustainability report refers to 2015 data. We recommend an abstain vote this year and urge the company to disclose their environmental quantitative data.

A vote for this proposal is warranted because a growing number of Darden's peers have committed to eliminating the use of medically important antibiotics for disease prevention purposes in their animal agriculture supply chains, and the company could be at risk of becoming a laggard.

Resolution 8. Reappoint PricewaterhouseCoopers LLP as Auditors	For (Exceptional)	Under normal circumstances we would be unable to support as the company has retained the same audit firm since 2005 (i.e in excess of ten years). Mandatory auditor rotation (or at least a Tender for Audit services every 10 years) is an effective mechanism for mitigating the potential risks borne by long-term auditor-client relationships, and is a safeguard against improper audits. However we note the audit was last tenders in 2014/15.
Resolution 9. Authorise Board to Fix Remuneration of Auditors	For	
Resolution 10. Approve Remuneration Report	For (Exceptional)	Under normal circumstances we would be concerned the executive Directors again received significant salary increases, continuing a trend of recent years. However, the resulting salary levels are in line with those of comparator companies. However, the resulting salary levels are not out of line with the Company's peers and should be viewed in conjunction with the performance of the Company Following an exceptional period of share price growth (which has continued since), the Company was promoted to the FTSE 250 in April 2018. The proposed salary levels appear to be in line with other FTSE 250 companies. There are no formal variable pay schemes for the Executive Directors, resulting in overall pay arrangements being below peers but we do note the one-off bonus awards under item 12.
Resolution 11. Approve Remuneration Policy	For	
Resolution 12. Approve One Off Bonus Award to the Executive Directors in Relation to Performance in 2017/18	For (Exceptional)	Under normal circumstances we are not supportive of one-off /discretionary payments. The company however does not have any formal variable pay arrangements in place so this is not additional to other arrangements and half of the award would be paid in shares. We will continue to keep this under review and would not want to see one-off awards of this nature in following years.

This meeting is being convened by Platform Partners Asset Management (PPAM or the dissident), whose holdings in MKIF represent more than three percent of its issued share capital. ReNeuron Group plc AGM 12/09/2018 UNITED KINGDOM	Resolution 1. Accept Financial Statements and Statutory Reports	For (Exceptional)	There are a number of areas where the company does not meet good market practice including board composition, independence and remuneration. However, we have found the company to be receptive to shareholder considerations, and welcome some of the initial steps taken to improve practices. However, we expect the company to continue to make positive progress particularly on remuneration practices to enable us to continue to support the board in the future.

	Resolution 5. Assess Portfolio Impacts of Policies to Meet 2 Degree Scenario	For (Exceptional)	<p>The proposal states that "SCANA (should), with board oversight, publish an assessment (at reasonable cost and omitting proprietary information) of the long-term impacts on the company's portfolio, of public policies and technological advances that are consistent with limiting global warming to no more than two degrees Celsius over pre-industrial levels." In its Form 10-K, SCANA acknowledges the likelihood that laws and regulations to reduce GHG emissions could impact the price of and demand for its product, and negatively impact its business. However, the company does not provide details on how it manages these risks, nor does it explain how its growth and capital expenditure strategies consider future regulations to mitigate climate change. Furthermore, SCANA does not provide any information related to its GHG emissions on its website, or in its IRP, and the company has not responded to the CDP's climate change questionnaire. Shareholders would benefit from a more thorough explanation of how SCANA may be preparing for the impact of climate change laws and regulations on the demand for the company's product and its costs of operation. Such information would allow investors to better assess the risks that climate change regulations may pose to the company and shareholder value, and SCANA's management of these risks. As such, a vote for this proposal is warranted.</p>

Elect Paul Walker as Director	For (Exceptional)	<p>Under normal circumstances, we would have voted against the re-election of the new chairman, Paul Walker as he also has NED directorships at Experian plc and Halma plc and he is the Chairman of Sophos Group plc . Further, he is Non-executive Chair of Perform Group Ltd, a private company. Overall, he has a significant number of total commitments which are at complex, multinational companies, raising questions about his ability to devote sufficient time to his role at Ashtead. However, we have exceptionally supported his re-election as firstly, we note that he will be stepping down from the Board of Experian plc in July 2019 and secondly, his time commitments are less than those of the former Chairman (Chris Cole) who was also chair of 4 other companies (albeit smaller). We will nevertheless be engaging with the Company on this issue especially as the RNS announcement of his appointment is silent on how he is able to manage all of these commitments.</p>

	Resolution 11. Reappoint Deloitte LLP as Auditors	For (Exceptional)	The company has retained the same audit firm since 2004 (i.e in excess of ten years). Mandatory auditor rotation (or at least a Tender for Audit services every 10 years) is an effective mechanism for mitigating the potential risks borne by long-term auditor-client relationships, and is a safeguard against improper audits. The Company explains in the R&As that it has complied with the provisions of the Competition and Market Authority's Order on audit tendering and rotation for the financial year under review. Under the transitional arrangements, the Group is not required to rotate its auditor until after the April 2023 year end and that during 2016/17 it considered whether to conduct a tender for the audit in 2017 to fit in with the timing of the rotation of the current audit partner. It concluded that Deloitte continued to undertake an effective audit and therefore would not tender for the 2019 audit. The Company continue to be satisfied that this remains appropriate and expect to tender the audit in 2022/23 for the 2024 audit. Although we will be encouraging the Company to go out to Tender sooner than 2022/23, the auditor's term is within our maximum term limit of 20 years and as such, we are comfortable in supporting their re-appointment.

Superdry PLC AGM 11/09/2018 UNITED KINGDOM	Resolution 1. Accept Financial Statements and Statutory Reports	For (Exceptional)	Under normal circumstances we would have voted against the Report & Accounts to reflect our concerns that there is currently just one female Board director (representing 14% of the Board). However, with effect from 1 October 2018, Sarah Wood will be appointed as a NED to the Board (so male vs female ratio will be 75%/25%). In addition, the Company provides relatively strong disclosures regarding its approach to gender diversity. For instance, it states that in the context of its size, structure and recent changes in its composition the Board does not feel it is in a position to commit to achieving the recommended target of 33% female representation on the Board by the year 2020 but will look to achieve this aim over the longer term. Further we welcome that 37% of the members of the Superdry leadership team at the end of financial year 2018 were female, exceeding the recommendations of The Hampton-Alexander Review. Given these mitigating circumstances, we are comfortable in supporting this resolution.

Accept Financial Statements and Statutory Reports	For (Exceptional)	Under normal circumstances, we would not have supported the vote on the R&As to reflect our concerns over the lack of women on the Board (just one) and in senior management (25%). However, we have exceptionally supported in recognition that there is improved disclosure in the 2018 R&As regarding the company's approach to diversity and how it is addressing the issues. For example, plans are under way to appoint a second female non-executive director and whilst the Company recognises that it has more to do to increase the number of women in more senior roles, one of the things they are doing is creating a network to help women within the business to flourish and develop into more senior positions and to ensure it is effective with assisting women's career development. The Company has made good progress with pub general manager roles with 40% now being held by women and it is working to make further progress to increase the number of women in more senior roles through improved flexible working and clear development plans. The Company has also introduced a LGBT network.

BCA Marketplace Plc AGM 06/09/2018 UNITED KINGDOM	Resolution 1. Accept Financial Statements and Statutory Reports	For (Exceptional)	Under normal circumstances, we would have voted against the Report & Accounts as BCA is a FTSE 250 constituent and there is just one female on the Board (albeit Avril Palmer-Baunack is the Exec chair) with limited disclosures as to how the company is addressing gender diversity at both the board and senior management level. However, the Company has explained to us that it is fully committed to diversity and actively considers board composition but does not believe in quotas. Further, as mentioned above, unlike most other companies, their female director is the most senior position (or rather two most senior positions – see resolution 4). This is also a small and fairly new board. However, our view is that appointing a suitable additional female director will only add value and would take the number of Board directors up to just 7. As such, we have made the Company aware that we are likely to vote against the Report & Accounts at the next AGM if there hasn't been sufficient progress in this area.
	Resolution 2. Approve Remuneration Report	Abstain	<ul style="list-style-type: none"> Concerns over generosity of arrangements Undue ratcheting up of pay Lack of retrospective disclosure on bonus awards
	Resolution 3. Approve Final Dividend	For	
	Resolution 4. Re-elect Avril Palmer-Baunack as Director	For (Exceptional)	She continues to combine the roles of Board Chair and CEO. The Company explains that "This matter has been considered extensively by the Board and also by the Company's Sponsor in preparation for the move to the Premium List. Avril has significant and unique expertise,

		<p>knowledge and industry relationships in the UK and Europe which continue to contribute to the successful acquisition, integration and management of businesses by the Company in accordance with its stated strategy to develop a range of automotive service solutions that enable the Group to add value along the vehicle supply chain. In light of this proven expertise and depth of knowledge, the Board continues to believe that combining the roles of Chairman and Chief Executive remains the right approach at this stage in the Group's development and is in the best interests of the Company and its shareholders." Although the Company's explanation is noted, governance concerns arise when the roles of chair and CEO are combined and are undertaken by one individual. This may compromise the Board's oversight over the Executive Directors' management of day to day business. In light of such a material deviation from UK best market practice, the Company's supporting rationale, which is mainly focused on the skills and experience of the Executive Chair, rather than on the actual governance impact of the combination of these two roles, is not considered particularly compelling. Upon engagement, the company confirmed its view that the business is still in growth / development stage. With the same ambitions, at this point in time it is not considered appropriate to split the roles. But as the business matures, it is likely that the board structure will change too. In addition, the composition of the board has improved since last year as now all of the non-executive directors (NEDs) are independent (as opposed to two-thirds of the NEDs). This is an important mitigating factor but the company is aware that we will not be able to continue supporting this arrangement indefinitely. • Moreover, in addition to her role at BCA Marketplace, Avril Palmer-Baunack holds chair roles at two other publicly listed companies (Redde plc and Safe Harbour Holdings plc). This raises significant concerns over her ability to devote sufficient time to her executive role at BCA Marketplace. The Company confirmed that Safe Harbour is not a trading company. Moreover, there is not an issue with Avril's time commitments – she is always available. In fairness, we agree this is not an issue in respect of BCA (given this is her full-time role) but it may well become more of an issue for the other companies.</p>

Alpha Financial Markets Consulting PLC AGM 05/09/2018 UNITED KINGDOM	Resolution 1. Accept Financial Statements and Statutory Reports	For (Exceptional)	Under normal circumstances we would have withheld support on the Report & Accounts to reflect concerns over the composition of the Audit committee which includes an executive director (John Paton) and a non-executive director who is not considered independent (Nick Kent). Audit committees should comprise solely of independent (non-executive) directors. We also have some concerns over the disclosures / lack of clarity around executive remuneration for the year under review. It is however noted that this is the Company's first AGM since joining the AIM market in October 2017. In light of this, and in the absence of other overriding concerns, qualified support is considered warranted at this time and we intend to engage with the Company regarding these corporate governance practices.

Berkeley Group Holdings plc AGM 05/09/2018 UNITED KINGDOM	Resolution 1. Accept Financial Statements and Statutory Reports	For	
	Resolution 2. Approve Remuneration Report	For (Exceptional)	Under normal circumstances we would have voted against the remuneration report as quantum continues to be of some concern relative to company peers. In addition, there has been a reduction in ROE targets under the annual bonus arrangement, also taking into account the fact that over the last 9 reported years, maximum bonus has been paid out every single time. However, we have exceptionally supported as this is the first year when the remuneration and LTIP caps – approved by shareholders at the 2017 EGM – have been in use. This has led to a slight reduction in overall quantum of pay available to the Executive Directors. The capping of share based awards was one of a number of positive improvements approved at the EGM in February 2017 and the company has a strong record of performance and ensuring alignment between management and shareholders. Regarding the (forward looking) ROE targets for the bonus plan a strong mitigating factor is that the Company's ROE performance over these last 9 reported years is the sector's highest. Further the Company explains that the Committee "believes that taking into account the market faced by the Company and the strategy set that the above targets are suitably challenging given the incentive opportunity that can be earned. The ROE targets reflect the Company's expectations on performance over the next period in the context of the prevailing market uncertainty and risk. The Company noted in last year's report that profitability would normalise from 2018/19, following the delivery of

Schedule of voting on company resolutions

		<p>exceptional profits generated from investment made at the end of the Financial Crisis which has seen annualised ROE of approximately 35% over the first three years of the six year Bonus Plan. The targets set for 2018/19, at 20% to 27.5% are above the long-term average set for the Plan and reflect the beginning of this transition." However bonuses are based on a five year banking plan and whilst the Remuneration committee sets the performance levels, including the minimum performance thresholds, for the performance conditions for each plan year, the overall target setting is essentially over a longer term basis while the performance assessment is each year - which perhaps does not allow the Company to flex the bonus arrangement to take into account the changed circumstances of the business.</p>
Resolution 3. Re-elect Tony Pidgley as Director	For (Exceptional)	<p>This Director is an executive chairman and the company has not provided sufficient explanation for not having an independent chairman. The Company simply explains that "Tony Pidgley is Executive Chairman which we believe is the best succession model for Berkeley in order to ensure the continued long-term success of the Company. Having a strong Senior Independent Director and Deputy Chairman, first in Sir John Armit and now in Glyn Barker, ensures that there is a balance of power at the top of the Company. The transition to this model took place in 2009 and shareholders have supported this structure ever since." However, we consider Mr Pidgley to be a strong factor for the sustained strong performance of the business and given the mitigating factors such as the strong independent directors and a separate, long-serving CEO, we continue to be supportive of this arrangement.</p>

	Resolution 5. Reelect Anant Talaulicar as Director	For (Exceptional)	Under normal circumstances, we would withhold our support for this director as the proposed term of office for this director is four years. We do not support proposed terms of office exceeding 3 years as we feel longer terms in office reduces director accountability to shareholders. However, we are mindful that the proposed term is just one year over our preferred term. In addition, the board is at least 1/3 independent. Therefore we will exceptionally support on this occasion and will review next year.

	Resolution 5. Authorise Issue of Equity with Pre-emptive Rights	For	
	Resolution 6. Authorise Issue of Equity without Pre-emptive Rights	For (Exceptional)	Under normal circumstances we would have voted against this authority as it will enable the Board to issue new shares equivalent to 20% of the share capital without respecting pre-emption rights. To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, we have a strong preference for general authorities which do not apply pre-emption or priority rights to be limited to no more than 5%, unless a clear justification and strategic rationale is provided to shareholders. However, we continue to support the Company's authorities at these levels as we are aware of the financial constraints that the company is facing and that the issuance of new capital may be necessary to meet short-term funding gaps. Given the Company's market cap is less than £10m, a standard authority is likely to be insufficient if the Company needs to obtain cash quickly.

We would register our concerns by voting on the Report and Accounts but given this is not available to vote on, we typically flag our concerns by withholding support on director reappointment resolutions. However, Saputo Inc. is exposed to climate change and environmental risks. The environmental risks relate to energy and water use, as well as pollution. We are pleased to see the continuous reporting to the CDP but encourage the company to provide more comprehensive disclosure of their performance on climate change. The company also disclosed their water withdrawal intensity data for 2014 - 2016 and stated that further details on their performance will be published in August 2018.

Accept Financial Statements and Statutory Reports	For (Exceptional)	Under normal circumstances, we would be unable to support the resolution because the external auditors have provided a qualified opinion on the financial statements for the year ended 31 March 2018. The auditors' opinion is qualified because the Company has not presented a third balance sheet for the year ending 31 March 2016 as required by IAS 1. Importantly, the auditors have confirmed that, notwithstanding the foregoing, the required adjustments for IAS 1 would have had no impact on the reported net assets for the year ended 31 March 2016 or the reported loss for the year ended 31 March 2017. The qualified opinion is a result of a change in accounting methodology and there is no material impact on the FY2017/18 financial statements.

B&M European Value Retail SA AGM 30/07/2018 LUXEMBOURG	Resolution 1. Receive Board Reports on the Consolidated and Unconsolidated Financial Statements and Annual Accounts	For (Exceptional)	Under normal circumstances we would have withheld support on the AR&As to reflect concerns over the lack of gender diversity on the Board (there is just one female director). However, the AR&As state that during the year, the Company adopted a new diversity policy under which it plans to bring forward female candidates to build further on the gender mix on the Board and the executive management committee (by 2020). We have engaged with the Company on this issue and if there hasn't been sufficient progress by the 2019 AGM, it is unlikely we will be able to continue our support on the AR&As and / or the relevant directors.

	Resolution 7. Approve Remuneration Report	For	
	Resolution 8. Approve Remuneration Policy	For (Exceptional)	<p>Under normal circumstances, we would have voted against the revised Remuneration Policy as there are substantial increases to variable opportunity. The normal LTI award cap has been increased (from 100%) to 200% of salary, which was the exceptional limit under the previous Policy. The maximum bonus opportunity limit for the CFO has also increased from 100% to 125% of base salary (remains at 150% for the CEO). Further, the CEO has a direct interest in c. 15% of the Company so a LTIP grant of 200% salary is questionable, although it is noted that since IPO, the CEO has elected not to participate in the LTIP. The Company explains that the previous LTIP maximum was significantly below market levels and is proposing this increase to bring it in line with market norms and that in practice it expects that only the CEO would receive a grant of up to 200% (and other Directors up to 175%). The Company further states that "These revised arrangements lead to the CEO and CFO's total target package being set at least 7% below the median data (even before taking into account January 2018 salary reviews in the market place generally) for companies of an equivalent market cap and at least a 20% discount to median for retailers of a comparable size which demonstrates the Committee's commitment to adopting a responsible approach to setting pay levels." Whilst benchmarking should not be a reason itself to increase pay, the Company's explanation in this particular instance is noted i.e. the potential maximum opportunities are not considered to be excessive, and importantly the Company has performed strongly since IPO.</p>

Schedule of voting on company resolutions

			Further, there are some positive improvements to the remuneration policy including the introduction of bonus deferral and that at least 75% of the bonus will be linked to financial measures (previously no minimum weighting applied and, for the year under review, financial targets only determined 50% of the bonus). Also, the maximum pension contribution has been reduced from 20% to 15% of salary for any future Executive Directors. On balance, support is considered warranted – pay levels will be kept under close review as well as the Committee's relatively broad discretion to disapply time pro-rating of awards under early termination scenarios.

Ryman Healthcare Ltd. AGM 26/07/2018 NEW ZEALAND	Resolution 2.1. Elect Geoffrey Cumming as Director	For (Exceptional)	We have concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. We would usually register our concerns by withholding support on the Report and Accounts (R&As) or the vote on board discharge but given neither of these items are on the agenda , we are flagging our concerns by withholding support on individual directors. This is on the basis we hold all directors collectively responsible and do not draw distinctions between executive

			<p>or non-executive directors. However, as this director has recently joined the board and has not been part of the board and decision making, we are supporting their election. Ryman Healthcare Ltd. is exposed to environmental risks associated with its involvement in construction, especially in relation to building specification. The company stated in their 2018 Annual report that it has signed up to CEMARS (Certified Emissions Measurement and Reduction Scheme) that supports them in calculating and reducing carbon footprint. However, it has not been disclosed any environmental data and it does not submit the carbon data to the CDP. We recommend an abstain vote this year again and encourage the company to publish information on its environmental approach, management systems and performance.</p>

Schedule of voting on company resolutions

	Resolution 4. Report on Lobbying Payments and Policy	For (Exceptional)	A vote for this resolution is warranted, as additional reporting on the company's lobbying-related practices and policies, such as its trade association memberships and payments, and board oversight mechanisms would benefit shareholders in assessing its management of related risks.
	Resolution 5. Pro-rata Vesting of Equity Awards	For (Exceptional)	A vote for this proposal is warranted, as a policy requiring pro-rata vesting upon a change in control would further align the interests of executives with shareholders.
	Resolution 6. Use GAAP for Executive Compensation Metrics	For (Exceptional)	A vote for this item is warranted, as the adoption of this proposal will result in more transparent and straight forward calculations of executive pay. Furthermore, it has the potential to lower the risk of pay inflation resulting from the use of non-GAAP metrics.
	Resolution 7. Reduce Ownership Threshold for Shareholders to Call Special Meeting	For (Exceptional)	The proposal seeks to further empower investors by reducing the threshold needed for shareholders to call a special meeting from 25 percent to 10 percent for all shareholders. A vote for this proposal is warranted as it would enhance the existing shareholder right to call special meetings.

Because of the management changes, we are supporting this director's re-election this year, because we would like the audit committee leadership to have continuity, but we will review next year.

	Resolution 5. Re-elect Martin Towers as Director	For (Exceptional)	Under normal circumstances we would have voted against the re-election of Martin Towers as in addition to his role as Board Chair at Norcros, he is also Board Chair at two other publicly listed companies. Overall, these outside directorships at other listed companies represent a relatively significant number of total commitments which may undermine his ability to discharge her duties and serve effectively as Chairman of Norcros. Mitigating, his chairmanships are at reasonably small non-complex companies and he has stepped down from another directorship during the year. Taking this into account, a degree of flexibility is considered appropriate. However, his number of other commitments and any other factors that may warrant a different vote action in subsequent years will be kept under review.

QinetiQ Group plc AGM 25/07/2018 UNITED KINGDOM	Resolution 1. Accept Financial Statements and Statutory Reports	For	
	Resolution 2. Approve Remuneration Report	For (Exceptional)	Under normal circumstances, we would have voted against the remuneration report as during FY2018 the Company implemented its Incentive Plan following approval at the 2017 AGM, albeit approximately 36% of the votes were against the proposal (including ours). Awards are granted to EDs based on one year performance only and as there is no longer a LTIP, this means that overall compensation is now weighted significantly on the achievement of single year targets. However, in light of positive performance during the year under review, that deferred share awards of c. 78% of salary based on underlying operating profit performance are considered acceptable, and that underpins applicable to FY2019 will be augmented to the benefit of the "long-term" nature of these incentives, we are comfortable with pay outcomes for the year under review.

	Resolution 9. Re-elect Paul Murray as Director	For	
	Resolution 10. Re-elect Susan Searle as Director	For (Exceptional)	Under normal circumstances, we would have voted against the re-election of Susan Searle as in addition to her position on the QinetiQ Board as NED, she holds a significant number of external Board positions at other listed companies. She serves as Chair of Mercia Technologies plc and Woodford Patient Capital Trust plc as well as a NED (and SID) of Benchmark Holdings plc and Horizon Discovery Group plc which, together may undermine her ability to discharge her duties and serve effectively as a NED on the Board of QinetiQ. However, one of her external directorships is on an investment trust board, and the other three are at AIM-listed companies. As such, the level of time commitment will not be as involved as at a FTSE 250 operating company such as QinetiQ. Taking this into account, a degree of flexibility is considered appropriate. However, her number of other commitments and any other factors that may warrant a different vote action will be kept under review.

	Resolution 3. Approve Remuneration Report	For (Exceptional)	Under normal circumstances we would have voted against the remuneration report as the personal / strategic objectives under the FY2018 annual bonus for the new CEO Graham Stapleton's are not explained clearly, and this element (determining 50% of the bonus for the year under review but 20% going forward) paid out in full. However, since publication of the AR&AS the Company has disclosed additional information on its website in relation to the annual bonus targets. These included the CEO developing and formalising a new strategic review process; finalising the new financial budget to be in place by year-end; and creating a plan for strengthening the executive team. As a result of this additional disclosure, that his bonus was pro-rated (for the 2.5- 3 months of the year he served) and as there is no material concern with the alignment of pay and performance, we were comfortable in supporting the Remuneration Report.

Nutrien Ltd. AGM 19/07/2018 CANADA	Resolution 1.1. Elect Director Christopher M. Burley	For (Exceptional)	Under normal circumstances, we would be withdrawing support for the election of this director because of concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. We would register our concerns by voting on the Report and Accounts but given this is not available to vote on, we typically flag our concerns by withholding support on director reappointment resolutions. However, Nutrien Ltd. is exposed to environmental risks related to climate change, air and water pollution, water consumption and waste. The company has disclosed information on the direct greenhouse emissions in the graphical format but has not provided quantitative data. The company has acquired Potash Corporation of Saskatchewan in January 2018, which had previously reported on its climate change performance but the integrated sustainability report has not been published yet. The CDP database does not contain any details on Nutrien but Potash Corporation of Saskatchewan submitted their carbon data to the CDP in 2017. We recommend a support vote this year to give the company an opportunity to disclose sustainability data for their integrated company.

	Resolution 9. Re-elect Don Robert as Director	For (Exceptional)	Under normal circumstances, we would have not supported the re-election of Don Robert as in 2014 he moved from the position of CEO to Non-executive Chairman. We generally consider it inappropriate for the CEO to remain on the board/move to chairman after relinquishing their executive position. However, the company is mindful of the contraventions in good governance that this situation presents and in January 2014 launched a proactive series of meetings with their top shareholders. After careful consideration of the specific qualities of the company and their board, we confirmed we were comfortable with the proposed change. Specifically, we feel that the senior independent director (SID) is of a sufficiently high caliber to counter balance the new Chairman and the array of non-executive directors (NEDs) are also very strong. The other mitigating factor is that it's a complicated business going through a period of significant volatility and the experience of the former CEO, will be invaluable in guiding them through this and ensuring the Company's financial performance remains strong. There has been further board change during the year but we do expect the company to review and comment on the situation as this is not something we are likely to be able to support indefinitely.

	Resolution 2. Approve PricewaterhouseCoopers LLP as Auditors and Authorize the Manager to Fix Their Remuneration	For	
	Resolution 3. Approve Issuance of Equity or Equity-Linked Securities with or without Preemptive Rights	For (Exceptional)	Under normal circumstances we would have voted against this authority as it would enable the Board to issue the equivalent of 20% of the share capital without respecting pre-emption rights. To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, we have a strong preference for general authorities, which do not apply pre-emption or priority rights, to be limited to no more than 10%, unless a clear justification and strategic rationale is provided to shareholders. However, on this occasion, we feel that we could be limiting the ability for the company to manoeuvre. Real Estate Investment Trusts (REITs) pay out the majority of their income as dividends to remain tax efficient. This means they are not cash rich and will need to come to the market generally when they want to expand their portfolio. We expect the business to do accretive transactions, benefiting shareholder returns. As such, we are comfortable in voting in favour of this occasion.

SINGAPORE	PricewaterhouseCoopers LLP as Auditors and Authorize Manager to Fix Their Remuneration		
	Resolution 3. Approve Issuance of Equity or Equity-Linked Securities with or without Preemptive Rights	For (Exceptional)	Under normal circumstances we would have voted against this authority as it would enable the Board to issue the equivalent of 20% of the share capital without respecting pre-emption rights. To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, we have a strong preference for general authorities, which do not apply pre-emption or priority rights, to be limited to no more than 10%, unless a clear justification and strategic rationale is provided to shareholders. However, on this occasion, we feel that we could be limiting the ability for the company to manoeuvre. Real Estate Investment Trusts (REITs) pay out the majority of their income as dividends to remain tax efficient. This means they are not cash rich and will need to come to the market generally when they want to expand their portfolio. We expect the business to do accretive transactions, benefiting shareholder returns. As such, we are comfortable in voting in favour of this occasion.

BT Group plc AGM 11/07/2018 UNITED KINGDOM	Resolution 1. Accept Financial Statements and Statutory Reports	For	
	Resolution 2. Approve Remuneration Report	For (Exceptional)	<p>We have a number of reservations over the remuneration arrangements particularly around the decision to award a significant performance related bonus to the chief executive shortly before the decision was made to manage him out of the business. However, we understand that at the time of the pay decision, the CEO was expected to remain in his role and had delivered against key customer service and financial metrics including cash flow targets. We welcome the proactive decision that was made by the new Chairman in engaging with shareholders, and accept that the decision to replace the chief executive was premised upon capacity to deliver on forward looking strategy rather than a revised view of the board's assessment of the prior year. Furthermore, we welcomed the discretion exercised by the committee in adjusting the actual pay-out from the formulaic number triggered by the bonus targets. Based on the unusual circumstances surrounding the change in leadership we are supportive of the remuneration report on an exceptional basis. However, going forward we expect the remuneration committee to be able to demonstrate a much clearer alignment between executive pay outcomes and the shareholder experience.</p>

	Resolution 2. Approve Remuneration Report	For (Exceptional)	Whilst there has been some improvement in the disclosures around the annual bonus, there still remains scope for improved transparency around the Deferred Share Award (DSA) which paid out at 73% of maximum. The measurement of the DSA appears based on the qualitative assessment of the Committee. The disclosures remain limited with a list of achievements for the year provided instead of a detailed breakdown against specific targets. The Company states that some of the specific measures and targets are considered commercially sensitive. Looking back over a number of years, the payout under the DSA has always been more than for the cash bonus (in some cases, no cash award has been made). Based on our positive view on the board governance and composition, and reasonable alignment between historical payouts and delivery of strategy, we are supporting the remuneration report.

			<p>provision of financial assistance (e.g. loans) to related or inter-related companies. Approval of these resolutions will ensure that financing activities undertaken in the normal course of business (e.g. loans provided to subsidiaries) remain valid. In this case, the Company has not provided details as to how any BEE transaction(s) might be implemented. This raises a concern in that the Board will be provided wide discretion in the implementation of these authorities, which may be used to facilitate a BEE transaction on terms as the Board sees fit. Despite the concerns around the flexibility of these proposals, the importance of BEE in the South African market is acknowledged as an important mitigating factor. It is also noted that the proposed authorities only cover the provision of financial assistance in connection with the subscription for or purchase of options and/or shares; accordingly, these resolutions do not empower the Company to issue new shares, and therefore are not dilutive to shareholders in isolation. The protections of the JSE Listings Requirements remain in place, such that any BEE transaction of a significant size would require specific shareholder approval. Therefore, we will exceptionally support on this occasion as we would like to see further improvements on details of BEE transaction implementation in the future.</p>

We note that the 2017 Progress Report on Global Social Responsibility contains data on water supply and extraction from the CDP report on GHG emissions during 2014-2016. While such disclosure is an improvement in comparison to the previous years, we still want to see a more comprehensive environmental performance data. 	Resolution 2. Approve Ernst & Young LLP as Auditors and Authorize Manager to Fix Their Remuneration	For	
	Resolution 3. Approve Issuance of Equity or Equity-Linked Securities with or without Preemptive Rights	For (Exceptional)	Under normal circumstances we would have voted against this authority as it would enable the Board to issue the equivalent of 20% of the share capital without respecting pre-emption rights. To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, we have a strong preference for general authorities, which do not apply pre-emption or priority rights, to be limited to no more than 10%, unless a clear justification and strategic rationale is provided to shareholders. However, on this occasion, we feel that we could be limiting the ability for the company to manoeuvre. Real Estate Investment Trusts (REITs) pay out the majority of their income as dividends to remain tax efficient. This means they are not cash rich and will need to come to the market generally when they want to expand their portfolio. We expect the business to do accretive transactions, benefiting shareholder returns. As such, we are comfortable in voting in favour of this occasion.

	Resolution 8. Require Independent Board Chairman	For (Exceptional)	Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote for this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director.

	Resolution 3.14. Elect Director Nagano, Shinji	For (Exceptional)	<p>We have concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. We would usually register our concerns by withholding support on the Report and Accounts (R&As) or the vote on board discharge but given neither of these items are on the agenda, we are flagging our concerns by withholding support on individual directors. This is on the basis we hold all directors collectively responsible and do not draw distinctions between executive or non-executive directors. However, as this director has recently joined the board and has not been part of the board and decision making, we are supporting their election. Odakyu Electric Railway Co., Ltd. is exposed to the risk of breaches of labour standards in its supply chain. We would therefore expect this company to publish details of its supply chain labour standards policy, management approach and performance but no information is available in the public domain. We note that the procurement policy is available on the company's website but it does not cover labour standards.</p>

			collectively responsible and do not draw distinctions between executive or non-executive directors. However, as this director has recently joined the board and has not been part of the board and decision making, we are supporting their election. Tokyu Corporation is exposed to the risk of breaches of labour standards in its supply chain. We note that the company has Procurement Policy, which refers to some ILO labour standards. We would, however, like to see a wider-ranging policy that covers more ILO labour standards, as well as details of the company's management approach and performance on this issue.

We would usually register our concerns by withholding support on the Report and Accounts (R&As) or the vote on board discharge but given neither of these items are on the agenda, we are flagging our concerns by withholding support on individual directors. This is on the basis we hold all directors collectively responsible and do not draw distinctions between executive or non-executive directors. However, as this director has recently joined the board and has not been part of the board and decision making, we are supporting their election. JXTG Holdings, Inc. is exposed to the risk of breaches of human rights norms in its operations. We note that the 2017 Integrated report states that the company supports the 10 principles of the UN Global Compact, including on human rights. The Report for a Sustainable Future 2017 lists all ten principles of the UNGC and contains a commitment to respect human rights. The company conducts human rights awareness training in accordance with its business characteristics and implementing human rights due diligence. However, we would like to see disclosure on the specific ILO core labour standards covered in the training. We would encourage the company to provide a more detailed information on the company's human rights training next year.</p>

	Resolution 2.8. Elect Director Shimada, Koichi	For (Exceptional)	We have concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. We would usually register our concerns by withholding support on the Report and Accounts (R&As) or the vote on board discharge but given neither of these items are on the agenda, we are flagging our concerns by withholding support on individual directors. This is on the basis we hold all directors collectively responsible and do not draw distinctions between executive or non-executive directors. However, as this director has recently joined the board and has not been part of the board and decision making, we are supporting their election. In addition, Alfresa Holdings Corporation is exposed to the risk of bribery in its operations. Although we note that the 2017 Integrated report discloses information on compliance training, it does not make it clear whether this training covers bribery and anti-corruption. We encourage the company to publish its anti-bribery policy, or compliance guidelines, in full, as well as more details of its performance in relation to its anti-bribery efforts.

	Resolution 3. Elect Director Nakagami, Fumiaki	For (Exceptional)	<p>We have concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. We would usually register our concerns by withholding support on the Report and Accounts (R&As) or the vote on board discharge but given neither of these items are on the agenda , we are flagging our concerns by withholding support on individual directors. This is on the basis we hold all directors collectively responsible and do not draw distinctions between executive or non-executive directors. In addition, Daito Trust Construction Co., Ltd. is exposed to health and safety risks within its operations. We note that the company has previously published LTIFR and accident data, but the latest available data goes back to 2014. We move our recommendation to an abstain this year and encourage Daito Trust Construction to improve their disclosure next year. However, as this director has recently joined the board and has not been part of the board and decision making, we are supporting their election.</p>

	Resolution 3.14. Elect Director Iki, Noriko	For (Exceptional)	We have concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. We would usually register our concerns by withholding support on the Report and Accounts (R&As) or the vote on board discharge but given neither of these items are on the agenda , we are flagging our concerns by withholding support on individual directors. This is on the basis we hold all directors collectively responsible and do not draw distinctions between executive or non-executive directors. However, as this director has recently joined the board and has not been part of the board and decision making, we are supporting their election. In addition, Nippon Steel & Sumitomo Metal Corp. is exposed to the risk of breaches of human rights norms in its operations. We note that 2017 Sustainability report states that the company complies with the OECD Guidelines for MNEs across a wide range of topics including human rights. The company has published a human rights policy, available in Japanese only which prohibits discrimination, forced and child labour. There are no further details of the company's management approach and performance in the area. We recommend an abstain vote this year and encourage the company to disclose their approach on human rights.

	Resolution 2.10. Elect Director Matsumoto, Masato	For (Exceptional)	<p>We have concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. We would usually register our concerns by withholding support on the Report and Accounts (R&As) or the vote on board discharge but given neither of these items are on the agenda, we are flagging our concerns by withholding support on individual directors. This is on the basis we hold all directors collectively responsible and do not draw distinctions between executive or non-executive directors. However, as this director has recently joined the board and has not been part of the board and decision making, we are supporting their election. In addition, Sundrug Co., Ltd. is exposed to environmental risks associated with its supply chain owing to the attributes of products sold and packaging used. We would expect this company to publish raw environmental performance data, but none is available in the public domain. The company has not submitted carbon data to the CDP. We encourage Sundrug to improve its disclosure next year.</p>

We would usually register our concerns by withholding support on the Report and Accounts (R&As) or the vote on board discharge but given neither of these items are on the agenda, we are flagging our concerns by withholding support on individual directors. This is on the basis we hold all directors collectively responsible and do not draw distinctions between executive or non-executive directors. However, as this director has recently joined the board and has not been part of the board and decision making, we are supporting their election. In addition, Hikari Tsushin, Inc. is exposed to risks associated with supply chain labour standards and the environment. The environmental risks are related to its supply chain, in terms of the environmental attributes of products sold and packaging used. We would expect this company to publish environmental performance data, as well as details of its policy, management approach and performance in relation to labour standards in the supply chain. The company does not, however, make this information available in the public domain. It has not submitted a response on its carbon data to the CDP. We would encourage the company to provide details of their supply chain labour standards and disclose environmental data.</p>

We were consulted on the positive changes to the LTIP in 2016 and on balance felt it was better than what existed before. Also the current arrangements are to facilitate a transition period where the executives move towards a 5 year holding period. Although shares may vest within three years they are not available to the executives until three years have passed. However, going forward we would expect the company to move towards a longer (at least three years) performance period which is considered best practice.
