To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, we have a strong preference for general authorities, which do not apply pre-emption or priority rights, to be limited to no more than 10%, unless a clear justification and strategic rationale is provided to shareholders. However, we engaged last year and given the size and nature of the business we consider it important for the company to have this flexibility.

	Resolution 3. Elect Jeffrey Cheah Fook Ling as Director	For (Exceptional)	Under normal circumstances we would have voted against this director as he is Chairman (due to being of executive capacity) who ideally should be independent in the interests of maintaining a balanced unitary Board. We also note this Director has attended less than 75 % of meetings without justification. However, we have exceptionally supported his re-election to reflect our engagement with the company this year on these issues. As he is the single largest shareholder of Sunway Berhad, it is important his interests are properly aligned with the interests of the rest of the stakeholders. We are supporting as • The Board has increased the number of Independent Directors since we engaged in 2016 such that they will comprise the majority of the Board composition (this has increased from 4 to 5 independent non-execs on the board). We take some comfort that at least a third of the Board is independent and the board is increasingly made of non-exec independent directors. • We also note he has now stepped down from sitting on the remuneration committee which we consider appropriate as the committee should consist entirely of independent / non-executive directors.

	Resolution 1.3. Elect Director Joyce E. McConnell	For (Exceptional)	<p>We have concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. We would usually register our concerns by withholding support on the Report and Accounts (R&As) or the vote on board discharge but given neither of these items are on the agenda, we are flagging our concerns by withholding support on individual directors. This is on the basis we hold all directors collectively responsible and do not draw distinctions between executive or non-executive directors. However, as this director has recently joined the board and has not been part of the board and decision making, we are supporting their election. In addition, Antero Resources Corporation is exposed to health and safety, climate change and environmental risks. The environmental risks relate to air and water pollution, water use and waste generation. We would therefore expect this Company to publish raw data on its performance in these areas, but none is available in the public domain. The 2017 10-K report only contains reference to the importance of reduction of GHG emissions and company's initiatives to reduce climate change impact. The Company has not submitted carbon data to the CDP. In light of the continued lack of disclosure, we deteriorate our recommendation to against and encourage the company to improve its disclosure next year.</p>

We would register our concerns by voting on the Report and Accounts but given this is not available to vote on, we typically flag our concerns by withholding support on director reappointment resolutions. However, KDDI Corporation is exposed to the risk of supply chain labour standards being breached within its operations. We are pleased to note that the Company's 2017 CSR Report contains improved reporting and discussion of supply chain labour standards issues compared to the last year. Furthermore, it adds that the company conducts supply chain related training and conducts questionnaires related to the seven themes of human rights and labour, safety and health, environment, fair trade and ethics, quality and safety, information security, and contribution to society. However, the report still lacks auditing data, and only mentions audits of industrial waste management. We recommend a vote of support but urge the company to disclose more supply chain related information (e.g. number of audits; non-compliance data).

	Resolution 10. Authorise Issue of Equity with Pre-emptive Rights	For (Exceptional)	The general authority sought equates to 75.68% of the company's share capital which exceeds our guidelines of a maximum of two thirds of issued share capital (and there is no explanation for such a large authority). However, the company is looking to find new investors to take it through the next stage of its development and we see this as an exceptional reason for supporting this resolution.
	Resolution 11. Authorise Issue of Equity without Pre-emptive Rights	For (Exceptional)	The authority would enable the Board to issue the equivalent of 17.03% of the share capital without respecting pre-emption rights. To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, we have a strong preference for general authorities which do not apply pre-emption or priority rights to be limited to no more than 5%, unless a clear justification and strategic rationale is provided to shareholders. However, the company is looking to find new investors to take it through the next stage of its development and we see this as an exceptional reason for supporting this resolution.

Dollar Tree, Inc is exposed to risks associated with climate change, the environment and labour standards in its supply chain. The environmental risks relate to the company's influence over its supply chain, its product impacts and its influence on consumer behaviour. We would therefore expect this company to publish raw environmental performance data, but little is available in the public domain. With regards to supply chain labour standards, we note that the company refers to child labour and forced labour in its code of ethics. We also acknowledge the company's California Transparency Act disclosure. We would, however, like to see a supply chain labour standards policy covering all core ILO labour standards, as well as further details of the company's management approach and performance on this issue. Although we are pleased to see that the company has published a Sustainability Report in 2017 for the first time since 2013, it lacks any performance data other than recycling figures. The company does not report to the CDP. We recommend Dollar Tree to improve their disclosure next year and to publish a new sustainability report.</p>

			the board and has not been part of the board and decision making, we are supporting their election. Misumi Group Inc. is exposed to environmental risks relating to water pollution, energy use and water use. We would therefore expect this company to publish raw performance data in these areas, but none is available in the public domain. The company has not submitted a response on its carbon data to the CDP. To reflect the continued lack of disclosure, we deteriorate our vote to an abstain, and encourage the company to improve its reporting next year.

Require Independent Board Chairman	For (Exceptional)	Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote for this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director.

Require Independent Board Chairman	For (Exceptional)	<p>Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote for this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director.</p>

	Resolution 8. Approve Remuneration Policy	For (Exceptional)	The good leaver provisions of the PSP do not provide for time pro-rating, which would normally be expected in the UK market context. Mitigating, there is an overall improvement in the remuneration policy with the introduction of a deferral feature under the Management Incentive Plan and holding periods to awards granted under the Performance Share Plan.

In addition, this Director sits on key board committees which should comprise independent directors only. However, we have exceptionally supported his re-election to reflect the significant improvement in board composition. In 2017 two long serving directors have stood down and have been replaced by two independent directors) and this year a further independent female has joined the board.

Mandatory auditor rotation is an effective mechanism for mitigating the potential risks borne by long-term auditor-client relationships, and is a safeguard against improper audits. Deloitte were first appointed as the external auditor of the Group in 2004. The Report states that, the Committee recognises that it will need to run a tender process by 17 June 2023. The Committee will however continue to review the relationship with the external auditor and may re-tender prior to this date if it considers this necessary. As the auditors have been in place for less than 20 years we will support for now.

Under the Articles of Association, if any Director is called upon to perform extra or special services of any kind, he or she is entitled to receive such sum as the Board may think fit for expenses, and also such remuneration as the Board may think fit, either as a fixed sum or as a percentage of profits or otherwise, and such remuneration may, as the Board shall determine, be either in addition to or in substitution for

Directors are also entitled to receive all expenses properly incurred by them in attending general meetings or separate meetings of the holders of any class of shares or meetings of the Board or Committees of the Board or otherwise in or with a view to the performance of their duties. It is not clear how the company considers conflicts of interest in these situations. This year, it appears justified as there was a strategic review. We will give the company the benefit of the doubt for now.
	Resolution 3. Approve Remuneration Report	For (Exceptional)	The additional fees received by the NEDs for work done in relation the investment management arrangements are significant, ranging between 59 percent and 165 percent of director fees. However, Regeneron Pharmaceuticals, Inc. is exposed to environmental risks associated with air and water pollution, water consumption and hazardous waste. We are pleased to note that the company continuous submitting its carbon data to the CDP. The latest available data covers the year ending December 2016. We also note that the 2017 Responsibility Report contains CO2 data for 2013-2018. We are pleased that the company has improved its quantitative environmental performance disclosure. However, we would like the company to disclose data not only for its US but also Ireland operations to the CDP and make clear the percentage coverage of data provided in the Sustainability report. While the company stated that they are disclosing data for three newly added sites in 2017, and in calculating their impacts, use an operational control boundary for all sites, we encourage them to make it clear whether their data cover all operations or not.

Require Independent Board Chairman	For (Exceptional)	Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote for this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director.

We would usually register our concerns by withholding support on the Report and Accounts (R&As) or the vote on board discharge but given neither of these items are on the agenda, we are flagging our concerns by withholding support on individual directors. This is on the basis we hold all directors collectively responsible and do not draw distinctions between executive or non-executive directors. However, as this director has recently joined the board and has not been part of the board and decision making, we are supporting their election. Restaurant Brands International Inc is exposed to environmental risks related to operations of their restaurants and cafes. We would expect this company to publish environmental performance data but little is available in a public domain. The company submitted carbon data to the CDP 2017 but it is not publicly available. We have no record of 2017 vote for this company. We recommend an abstain vote this year and encourage the company to disclose their environmental performance data next year.

	Resolution 4. Approve Recapitalization Plan for all Stock to Have One-vote per Share	For (Exceptional)	A vote for this proposal is warranted because it would signal to the board a preference for a capital structure aligning economic ownership with voting power.
	Resolution 5. Report on Lobbying Payments and Policy	For (Exceptional)	A vote for this resolution is warranted, as additional reporting on the company's lobbying-related practices and policies, such as its trade association memberships and payments, would benefit shareholders in assessing its management of related risks.
	Resolution 6. Report on Gender Pay Gap	For (Exceptional)	A vote for this resolution is warranted. By reporting gender pay gap statistics similarly as they are required to report them in the U.K., the company could provide shareholders with a better gauge of how its diversity initiatives are improving opportunities for women.

Adopt a Policy on Board Diversity	For (Exceptional)	A vote for this resolution is warranted, as the requested disclosure would enhance shareholders' ability in evaluating the effectiveness of the company's diversity initiatives and policies. Given Alphabet's existing level of disclosure and as the resolution does not appear to hinder the board's ability to promote or recruit experienced competent executives with suitable skill sets specific to the company's needs, adoption of the proposal should not be an unduly burdensome step for the company to undertake.
	Resolution 10. Report on Major Global Content Management Controversies	For (Exceptional)	A vote for this proposal is warranted, because a report on assessing the effectiveness of enforcement of content policies could help provide shareholders with valuable information on how well the company is assessing and mitigating content-related controversies. Elect Director Carla Cico	For (Exceptional)	Under normal circumstances, we would be withdrawing support for the election of this director because of concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. We would register our concerns by voting on the Report and Accounts but given this is not available to vote on, we typically flag our concerns by withholding support on director reappointment resolutions. However, we have no record of 2017 vote for this company but noted that it was added to MSCI in the first half of 2017. The company is exposed to environmental risks associated with water pollution and waste generation. We would therefore expect this company to publish raw environmental performance data, but little is available in the public domain. Allegion states on their website that it operates following the principles of responsible use of materials, including, where feasible, the recycling and reuse of materials. The company submitted carbon data to the CDP 2017, although it is not publicly available. As the company has not been voted before and has submitted carbon data, we recommend a support vote this year. We encourage the company to disclose a comprehensive environmental data next year.

	Resolution 18. Approve Issuance of Equity or Equity-Linked Securities for Private Placements, up to Aggregate Nominal Amount of EUR 57,002.86	For (Exceptional)	Under normal circumstances, we would vote against this resolution because the authority would enable the Board to issue the equivalent of 20.05% of the share capital without respecting pre-emption rights. To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, we have a strong preference for general authorities, which do not apply pre-emption or priority rights, to be limited to no more than 10%, unless a clear justification and strategic rationale is provided to shareholders. However, given the market the company operates in, we are supporting this resolution.

	Resolution 3. Require Independent Board Chairman	For (Exceptional)	Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote for this proposal is warranted as it seeks the adoption of a policy that requires the board's

	Resolution 5. Authorize Repurchase of Up to 10 Percent of Issued Share Capital	For	
	Resolution 6. Reelect Patrick Pouyanne as Director	For (Exceptional)	In principle we do not support the combining of the roles of the chief executive as we consider these roles to be distinct and their combination risks an over concentration of power on the board. This in turn can diminish the accountability and effectiveness of the board and inhibit the development of a high performing culture. However, we are supportive in this case due to the high level of independence on the board, the presence of a strong lead director and the additional colour provided by the company with respect of the specific mandate and activities undertaken by the Patricia Barbizet in this role. Nevertheless, we do not consider this to be an optimal board model and will keep the on-going effectiveness of the Total board under review.

	Resolution 3. Approve Recapitalization Plan for all Stock to Have One-vote per Share	For (Exceptional)	Support for this proposal is warranted as it would convey to the board a preference for a capital structure in which economic ownership and voting power are aligned.
	Resolution 4. Establish Board Committee on Risk Management	For (Exceptional)	A shareholder has filed a precatory proposal requesting that Facebook report on the merits of forming a Risk Oversight board committee. A vote for this proposal is warranted, because a report on the merits of a risk committee could help provide shareholders with valuable information on potential board changes that may help the company better manage risks going forward. We note the company has recently taken steps to improve transparency around its content management process. However, with the number of controversies facing the company, it seems reasonable for the company to consider what steps could be taken to improve its risk assessment and management process more broadly.
	Resolution 5. Adopt Simple Majority Vote	For (Exceptional)	The elimination of supermajority vote requirements represents an enhancement to shareholder rights. Supermajority provisions violate the principle that a simple majority of voting shares should be all that is necessary to effect change regarding a company and its corporate governance provisions.
	Resolution 6. Report on Major Global Content Management Controversies (Fake News)	For (Exceptional)	A vote for this proposal is warranted, because a report on assessing the efficacy of enforcement of content policies could help provide shareholders with valuable information on how well the company is assessing and mitigating content-related controversies.
	Resolution 7. Report on Gender Pay Gap	For (Exceptional)	A vote for this resolution is warranted. By reporting gender pay gap statistics similarly as it is required to do in the U.K., Facebook could provide shareholders with a better gauge of how its diversity initiatives

	Resolution 4. Report on Lobbying Payments and Policy	For (Exceptional)	A vote for this resolution is warranted, as additional reporting on the company's lobbying-related practices and policies, such as its trade association payments, would benefit shareholders in assessing its management of related risks.
	Resolution 5. Report on Risks of Doing Business in Conflict-Affected Areas	For (Exceptional)	We welcome the steps Chevron has taken to comply with international rules regarding its operations in conflict-affected areas. However, given the ongoing crimes in Myanmar, a dedicated report evaluating the feasibility of adopting a policy of not doing business with governments that are complicit in crimes against humanity would provide shareholders necessary information to evaluate the associated risks and possibilities to mitigate them.
	Resolution 6. Report on Transition to a Low Carbon Business Model	For (Exceptional)	A vote for this proposal is warranted, as shareholders would benefit from a report that provides information on the company's plans to adopt its business model to align with a decarbonizing economy. We urge the company to take proactive steps to align its portfolio with the Paris Agreement, including setting goals to reduce the CO2 emissions associated with its products.
	Resolution 7. Report on Methane Emissions	For (Exceptional)	A vote for this resolution is warranted, as comprehensive disclosure of the company's methane reduction policies, including performance metrics and oversight mechanisms, would enable shareholders to better understand how the company is managing its methane emissions and assess the effectiveness of the company's related efforts.
	Resolution 8. Require Independent Board Chairman	For (Exceptional)	Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote for this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director.
	Resolution 9. Require Director Nominee with Environmental Experience	For (Exceptional)	A vote for this resolution is warranted, as Chevron does not appear to have a board member with relevant environmental expertise, the company is involved in environmental controversies, and the nature of its operations are subject to environmental risks.

A vote for this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director.
	Resolution 5. Amend Bylaws -- Call Special Meetings	For (Exceptional)	A vote for this proposal is warranted, as the ability of the holders of 10 percent of outstanding shares to call a special meeting would supplement shareholders' existing right under New Jersey law to petition the Superior Court to call a special meeting upon a showing of good cause.
	Resolution 6. Disclose a Board Diversity and Qualifications Matrix	For (Exceptional)	A vote for this resolution is warranted, as the requested disclosure would enhance shareholders' ability in evaluating the effectiveness of the company's diversity initiatives and policies. Given Exxon's existing level of disclosure and the resolution does not appear to hinder its ability to promote or recruit experienced competent executives with suitable skill sets specific to the company's needs, adoption of the proposal should not be an unduly burdensome step for the company to undertake.
	Resolution 7. Report on lobbying Payments and Policy	For (Exceptional)	A vote for this proposal is warranted, as additional disclosure of the company's lobbying-related expenditures, trade association payments, and board-level oversight mechanisms would help shareholders better assess the risks and benefits associated with the company's participation in the public policy process.

			performance data but little is available in the public domain. The company disclosed that it has introduced high-temperature direct combustion heat recovery technology for exhaust gas concentration, under which, proper control over the emission of exhaust gases and recycled thermal energy helps exhaust gas emission meet high standards, thus further improving the heat recovery rate. It also submitted some information to the CDP but the overall grade is D- and the company did not disclose their scope 1 & 2 figures. We have no record of 2017 vote for this company but noted that it was added to the MSCI Index in November 2017. We recommend a support vote this year to give company time to disclose environmental data and encourage them to provide a more comprehensive information to the CDP.

Walmart Inc. AGM 30/05/2018 UNITED STATES	Resolution 1a. Elect Director Stephen J. Easterbrook	For (Exceptional)	<p>We have concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. We would usually register our concerns by withholding support on the Report and Accounts (R&As) or the vote on board discharge but given neither of these items are on the agenda, we are flagging our concerns by withholding support on individual directors. This is on the basis we hold all directors collectively responsible and do not draw distinctions between executive or non-executive directors. However, as this director has recently joined the board and has not been part of the board and decision making, we are supporting their election. WalMart Inc. is exposed to risks associated with supply chain labour standards, as well as bribery and human rights in its own operations. The company stated in their 2017 Global Responsibility Report that it use a number of supply chain audits that are focused on a variety of areas, including whether workers are properly paid for all hours worked; all labour is voluntary; facilities comply with all child labour laws and standards; working hours are not excessive and are consistent with local laws or regulations; and that facilities meet health and safety standards. However, many of the company's practices remain concerning, including labour rights,</p>

	Resolution 4. Require Independent Board Chairman	For (Exceptional)	Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. In addition, the company has been subject to past risk oversight and legal concerns and shareholders still await full transparency with respect to the FCPA matter. In light of all of these factors, shareholders would benefit from the heightened independent oversight that could be realized by an independent board chair. A vote for this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director.
	Resolution 5. Report on Race or Ethnicity Pay Gap	For (Exceptional)	A vote for is warranted, as adoption of this proposal should serve to further strengthen the company's existing diversity initiatives. Additionally, given that other companies have shown support for eliminating inequality on pay and achieving ethnicity pay parity, it should not be unduly burdensome for the company to take on similar actions.

Oxford BioMedica plc AGM 29/05/2018 UNITED KINGDOM	Resolution 1. Accept Financial Statements and Statutory Reports	For	
	Resolution 2. Approve Remuneration Report	For (Exceptional)	The CEO's remuneration package is being increased with a salary raise of 8.5% and an increase in LTIP award limit of 25% of salary. However, the CEO's resulting salary level is not excessive and a countermeasure is in place to mitigate the increased LTIP award limit. On looking at peers the base pay is lower median. The company could be better at disclosure
	Resolution 3. Approve Remuneration Policy	For (Exceptional)	The Company is proposing to increase the CEO's maximum LTIP limit from 100% to 125% of salary. In addition, LTIP awards will continue not to be subject to a post-vesting holding period, which is not aligned with current market practice, and there is no explanation for such. We will support and engage with the companies on these issues.

Accept Financial Statements and Statutory Reports	For (Exceptional)	Under normal circumstances, we would be withdrawing support for the approval of the Report and Accounts because of concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. Poste Italiane SpA is exposed to risks associated with climate change and air pollution through fossil fuel combustion, as well as environmental risks relating to water pollution. We are pleased to note that the company's 2017 annual report contains energy consumption data for corporate fleet; air transport fleet; real estate facilities; and waste data. While we welcome such improvement, we would encourage the company to disclose an aggregated GHG emissions and other environmental data for all operations.

	Resolution 3. Approve Remuneration Policy	For (Exceptional)	Maximum LTIP potential exceeds 3 x salary. The bonus opportunity will be increased from 150% to 175% of salary, and the LTIP limit from 200% to 325%. The timing of such substantial increases, before the merger has been implemented, is questionable. In addition, some of the details of the 2018 LTIP grant have not yet been determined and/or confirmed. This is not a disclosure issue, but is due to the timing of the UBM deal, which was approved so soon before the AGM. However, it remains the case that shareholders do not yet know all the targets pertaining to a substantially larger grant. Having engaged with the company we are comfortable the targets will be the objectives of the UBM deal. We are supporting

He also has several Board commitments at private companies. Taken together, his external mandates call into question whether he has sufficient time to devote to his role at Informa. As he is stepping down from Huntsworth we will support this year. It is important there is stability on the board when such a transforming deal has just been approved

Also the additional 125% is a one off plan to incentivise the executives to focus on and meet the objectives of the acquisition. After two years the maximum award is expected to go back to approximately 275% of salary. We also do not expect salary rises in the near future so we are giving the benefit of the doubt to the company and supporting this plan.

The Quilter SRP is intended to be used for deferred bonus awards and other circumstances where it is not appropriate for the awards to be subject to performance conditions. The plan is in place to allow the provision of deferred bonus, hence no further performance conditions apply. Quilter plc's remuneration policy in the Prospectus states that 50% of any bonus earned will be made in the form of conditional awards over ordinary shares which vest in equal annual instalments over a three-year period and may, to the extent required by the applicable UK's Prudential Regulatory Authority (PRA) and Financial Conduct Authority (FCA) Remuneration Codes, be subject to a retention period of at least six months following vesting. To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, we have a strong preference for general authorities, which do not apply pre-emption or priority rights, to be limited to no more than 10%, unless a clear justification and strategic rationale is provided to shareholders. 	Resolution 13. Appoint Mark Ballamy as Special Auditor to Examine Management and Supervisory Board Actions in Connection with the Misleading of the FCA	For (Exceptional)	The shareholder Riebeck-Brauerei von 1862 AG has proposed the appointment of special auditors pursuant to Art. 122 (2) and Art. 142 (1) of the German Stock Corporation Act to examine the question of whether members of the management and supervisory boards breached their legal obligations and caused damage to the company with regard to misleading the FCA, the manipulation of reference interest rates, and the money laundering in Russia. In this item, the proponent brings attention to the conduct of the management and supervisory board members with regard to the GBP 100.8 million penalty imposed by the UK's Financial Conduct Authority (FCA) in connection with the manipulation of the LIBOR and EURIBOR interest rates due to breach of Principle 11 of the FCA's Principles for Businesses. These are legitimate concerns and a special audit might expose more detail about poor governance. We supported the same resolution last year.
	Resolution 14. Appoint Jeffrey Davidson as Special Auditor to Examine Management and Supervisory Board Actions in Connection with the Manipulation of Reference Interest Rates	For (Exceptional)	The shareholder Riebeck-Brauerei von 1862 AG has proposed the appointment of special auditors pursuant to Art. 122 (2) and Art. 142 (1) of the German Stock Corporation Act to examine the question of whether members of the management and supervisory boards breached their legal obligations and caused damage to the company with regard to misleading the FCA, the manipulation of reference interest rates, and the money laundering in Russia. In this item, the shareholder brings attention to the conduct of the management and supervisory board members between January 2009 and February 2013.

			Deutsche Bank's participation in the manipulation and influencing of interest rates between 2005 and 2013 has led to fines of approximately \$2 billion: The Deferred Prosecution Agreement between Deutsche Bank and the US (\$625 million); payment to the FCA (GBP 226.8 million); order of the Commodity Futures Trading Commission (\$800 million); Consent Order with the New York State Department of Financial Services (\$600 million). The shareholder argues that these penalties are significant and have damaged the bank's reputation. These are legitimate concerns and a special audit might expose more detail about poor governance. We supported the same resolution last year
	Resolution 15. Appoint Jeffrey Davidson as Special Auditor to Examine Management and Supervisory Board Actions in Connection with the Money Laundering in Russia	For (Exceptional)	The shareholder Riebeck-Brauerei von 1862 AG has proposed the appointment of special auditors pursuant to Art. 122 (2) and Art. 142 (1) of the German Stock Corporation Act to examine the question of whether members of the management and supervisory boards breached their legal obligations and caused damage to the company with regard to misleading the FCA, the manipulation of reference interest rates, and the money laundering in Russia. This item focuses on the period between January 2011 to December 2015, in connection with money laundering in Russia that led to Deutsche Bank paying \$425 million to the New York State Department of Financial Services on Jan. 30, 2017, and a payment to the FCA of GBP 163 million on Jan. 1, 2017. These are legitimate concerns and a special audit might expose more detail about poor governance. We supported the same resolution last year
	Resolution 16. Appoint Mark Ballamy as Special Auditor to Examine Management and Supervisory Board Actions in Connection with the Acquisition of Shares in Deutsche Postbank AG and the Related Court Disputes	For (Exceptional)	The shareholder Riebeck-Brauerei von 1862 AG has also proposed the appointment of a special auditor to investigate whether the members of Deutsche Bank's management and/or supervisory boards breached their legal obligations in connection with the acquisition of shares in Deutsche Postbank AG and the related court disputes. The proponent has proposed that Mark Ballamy (or alternatively: Dieter Bruckhaus or Thomas Tuemmler) conduct the special audit. These are legitimate concerns and a special audit might expose more detail about poor governance. We supported the same resolution last year

	Resolution 1j. Elect Director Eileen Serra	For (Exceptional)	We have concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. We would usually register our concerns by withholding support on the Report and Accounts (R&As) or the vote on board discharge but given neither of these items are on the agenda , we are flagging our concerns by withholding support on individual directors. This is on the basis we hold all directors collectively responsible and do not draw distinctions between executive or non-executive directors. However, as this director has recently joined the board and has not been part of the board and decision making, we are supporting their election. Gartner, Inc. is exposed to risks associated with bribery. The company has Code of Conduct which contains anti-bribery commitment and stated in their 2017 Annual report that each officer, director and employee annually affirms compliance with the Global Code of Conduct, It does not publish any other details of its performance, such as data on employee training on the Code of Conduct and compliance data. We have no record of 2017 vote for this company but recommend an abstain vote to reflect the lack of disclosure on their anti-bribery performance.

Require Independent Board Chairman	For (Exceptional)	Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote for this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director.

	Report		be unduly complex and there is lack of clarity in the Company's public disclosures on how bonus outcomes are determined. Concerns have also been identified with the alignment of pay and relative performance. We would agree that the calculation of performance with multipliers and modifiers is complex as its not a purely mechanical approach and the remuneration committee exercised judgement. We approved the policy last year. Multiples are on the generous side and both bonus (77% of maximum) and LTIP (66.3% of maximum) have paid out but he has delivered on his objectives and the remuneration policy was overwhelmingly supported last year. Antonio Horta-Osorio receives very high pension contributions which we accepted at the time of his appointment. Overall, there could be improvements made to the complexity of assessing performance but on balance we feel that the outcomes, thought high, are not out of line with expectations.

We will engage with the company on this issue.

	Resolution 10. Reelect Paul Hermelin as Director	For (Exceptional)	This Director serves as combined CEO/Chairman, a role we prefer to be split. The Chairman's role on a board is to evaluate and review the performance of management, and to ensure there are sufficient checks and balances; this role is obviously compromised when the Chairman is also the CEO. As the company wishes to separate the roles in the mid term and has appointed a lead independent director on the board, we are supporting. The proposed term of office for this director is four years. We do not support proposed terms of office exceeding 3 years as we feel longer terms in office reduces director accountability to shareholders. However, we are mindful that the proposed term is just one year over our preferred term.
	Resolution 11. We do not support proposed terms of office exceeding 3 years as we feel longer terms in office reduces director accountability to shareholders. 	Resolution 14. Reelect Patrice Caine as Director	For (Exceptional)	This Director serves as combined CEO/Chairman, a role we prefer to be split. The Chairman's role on a board is to evaluate and review the performance of management, and to ensure there are sufficient checks and balances; this role is obviously compromised when the Chairman is also the CEO. In addition, the proposed term of office for this director is four years. We do not support proposed terms of office exceeding 3 years as we feel longer terms in office reduces director accountability to shareholders. However, we are mindful that the proposed term is just one year over our preferred term. There are also unusual circumstances at this company as it is effectively owned by the Government.

BP p.l.c. AGM 21/05/2018 UNITED KINGDOM	Resolution 1. Accept Financial Statements and Statutory Reports	For	
	Resolution 2. Approve Remuneration Report	For (Exceptional)	We continue to have some reservations with the remuneration report including the level of vesting under the TSR element of the EDIP for threshold performance as well as the total quantum. However, we are supporting the proposal on an exceptional basis in light of a number of positive structural changes as well as discretionary actions taken by the remuneration committee. This includes a lowering of vesting for threshold performance under the ROACE measure, an increase of stretch targets as well as the introduction of a number of underpins looking at absolute TSR and E&S performance. The company has also introduced strategic targets which are linked to the transition towards a lower carbon business. The downward discretion applied by the committee coupled with a voluntary reduction from the CEO reduced the total payments to Bob Dudley under the share plan by 34% equivalent to \$4m.

Real Estate Investment Trusts (REITs) pay out the majority of their income as dividends to remain tax efficient. This means they are not cash rich and will need to come to the market generally when they want to expand their portfolio. We expect the business to do accretive transactions, benefiting shareholder returns. As such, we are

	Resolution 8. Elect Jean-Pierre Clamadieu as Director	For (Exceptional)	<p>Under normal circumstances, we would not have supported this director's election. We have concerns that the proposed chairman is a full-time executive of another Company, yet this isn't the only other Board they sit on. We seriously question how full-time executives can devote sufficient time to multiple other boards. Jean-Pierre Clamadieu is currently the CEO of Solvay. He will step down from his position at Solvay before the end of the year, but transition has not started. Clamadieu also announced he will resign from the board of Faurecia with effect as of the 29 May 2018 AGM.</p> <p>For the second semester of 2018, this will leave him with a position on Axa's board as well as Airbus, in addition to his chairmanship at Engie. The end date of his position at Solvay is not known yet. Therefore, we are abstaining this year as from May, the number of position held is still considered as excessive. We will reconsider next year, pending on his termination at Solvay.</p> <p>Furthermore, the proposed term of office for this director is four years. We do not support proposed terms of office exceeding 3 years as we feel longer terms in office reduces director accountability to shareholders. However, we are mindful that the proposed term is just one year over our preferred term.</p>

	Resolution 9. Elect Ross McInnes as Director	For (Exceptional)	Under normal circumstances we would not have supported this director as the proposed term of office for this director is four years. We do not support proposed terms of office exceeding 3 years as we feel longer terms in office reduces director accountability to shareholders. However, we are mindful that the proposed term is just one year over our preferred term. Given our lack of concerns regarding the board we are supporting this director's re-election.
	Resolution 10. Approve Compensation of Isabelle Kocher, CEO	For (Exceptional)	Specific performance targets are not disclosed for annual bonuses awarded during the year. In addition, service contracts exceed 2 times salary. We believe that severance payments should be no greater than 2 times salary. Finally, more generous remuneration arrangements exist without shareholder consent (The level of stringency of performance conditions' vesting schedule attached to the performance based cash award decreased as compared to 2016 grant while no information is given concerning this change.) Although these concerns remain, we are conscious of the role of Isabelle Kocher in Engie's transformation plan and will support the arrangements, and keep under review.
	Resolution 11. Approve Remuneration Policy of Chairman of the Board since May 18, 2018	For	
	Resolution 12. Approve Remuneration Policy of CEO since Jan. 1, 2018	For (Exceptional)	Disclosure of remuneration arrangements is generally poor. The company does not disclose the weighting between each criteria in case of over performance of one of them, making it impossible for shareholders to understand whether (and in which way) the over achievement of one quantitative criterion may compensate the insufficient performance of the other one. There is consequently a lack of full transparency on the terms and conditions of the bonus policy while such feature may significantly undermines the link between remuneration and performance and raises concern. Service contracts (max termination package) exceed 2 times salary. We believe that severance payments should be no greater than 2 times salary. Post mandate vesting: The company's remuneration policy does not indicate the fate of long-term incentives in case of an executive's departure. Although these concerns remain, we are conscious of the role of

We would usually register our concerns by withholding support on the Report and Accounts (R&As) or the vote on board discharge but given neither of these items are on the agenda, we are flagging our concerns by withholding support on individual directors. This is on the basis we hold all directors collectively responsible and do not draw distinctions between executive or non-executive directors. 	Resolution 5. Require Independent Board Chairman	For (Exceptional)	Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote for this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director.
	Resolution 6. Report on Costs and Benefits of Political Contributions	For (Exceptional)	A vote for this resolution is warranted as it would provide increased disclosure to shareholders, allowing them to have better understanding of the company's management of its political activities and any related risks and benefits.

	Resolution 1.2. Elect Director Smith W. Davis	For (Exceptional)	<p>We have concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. We would usually register our concerns by withholding support on the Report and Accounts (R&As) or the vote on board discharge but given neither of these items are on the agenda , we are flagging our concerns by withholding support on individual directors. This is on the basis we hold all directors collectively responsible and do not draw distinctions between executive or non-executive directors. However, as this director has recently joined the board and has not been part of the board and decision making, we are supporting their election. Martin Marietta Materials, Inc. is exposed to risks associated with health and safety, climate change and the environment. The environmental risks relate to water pollution, waste, water use and air emissions. We are pleased to note that the company now publishes total incident injury rate (TIIR) data on its website. Their 2016 Sustainability Report contains Environmental Stewardship section devoted to company's efforts to preserve environment but the quantitative data is lacking there. The company still has not submitted carbon data to the CDP. We will continue with an abstain vote however urge the company to disclose their environmental performance data next year.</p>

There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. 	Resolution 2. Approve Remuneration Report	For (Exceptional)	Base pay for the CEO and highest paid director is in the upper quartile for the index on a balanced comparison which is not justified by either the performance or size of the company. In addition, bonus awards made during the year were over 100% of salary and there is a lack of adequate disclosure of the performance targets met for those awards. However, the company now discloses bonus measures and performance in the year bonuses are paid which is a big improvement in our view although the disclosure itself could be improved. While base pay is high and multiples potentially generous they are the largest life insurance company in the UK and the higher pay reflects payment under the LTIP for meeting performance conditions

	Resolution 5.2. Approve Remuneration Implementation Report	For (Exceptional)	Annual bonus payouts are somewhat high despite the Company recording a net loss for FY2017, with share price performance also being negative. However, the Company's financial performance was impacted by large once-off/exceptional items including the impairment and derecognition of certain South African assets and goodwill amounting to USD 294 million. In addition, despite the fact that safety is discussed at length in the remuneration report and other sections of the integrated annual report, the Company's seven fatalities in 2017 cause some discomfort, particularly in the context of the bonus framework. While bonuses appear high, particularly against the Company's negative underlying financial performance for the year, the Company's 2017 financials were impacted by large one-off items in the year. In addition disclosure is of a good standard across the remuneration structure. Therefore, we will be exceptionally supporting this item on this occasion.

	Resolution 7. Reelect Maxime Lombardini as Director	For (Exceptional)	Under normal circumstances we would not have supported this director as the proposed term of office for this director is four years. We do not support proposed terms of office exceeding 3 years as we feel longer terms in office reduces director accountability to shareholders. However, we are mindful that the proposed term is just one year over our preferred term. Given our lack of concerns regarding the board we are supporting this director's re-election.

However, we are supportive on an exceptional basis in light of the positive changes that the company has made including limiting vesting below median performance and enhanced disclosure of indicative targets under the industrial plan. We note that total number of shares granted in the first cycle of awards are relatively conservative but would encourage the company to introduce a total cap on annual grants relative to base salary.
	Resolution 6. Approve Remuneration Policy	For (Exceptional)	The company's level of disclosure falls below our expectations particularly on retrospective reporting on bonus targets. However, we are supporting on an exceptional basis to reflect positive steps taken on service contracts, conservative levels of pay and a reasonable alignment with performance. Resolution 6. Require Independent Board Chairman	For (Exceptional)	Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote for this proposal is warranted as it seeks the adoption of a policy that requires the board's chairman to be an independent director.
Resolution 7. Prohibit Accelerated Vesting of Awards to Pursue Government Service	For (Exceptional)	A vote for this proposal is warranted as shareholders should not have to incur the costs associated with an executive's personal decision to enter government service. Further, policies providing for special compensation arrangements to enter into government service are uncommon, and the proposal is sufficiently tailored to address concerns.

Whilst there is insufficient biographical data provided by the company with which to make a decision, Jung Eui-heon has significant work experience in Korea Hydro & Nuclear Power that is in the relevant business line. Also, Kim's management experiences as CEO and executive vice president in previous companies are deemed more relevant to running the business as a CEO at this company.

Once elected, the successful nominee will serve as an outside director for a two-year term. The other nominee, Park, had previously worked in government owned companies for his entire career. Considering the ownership structure of this company, there is reasonable concern on independence should he be appointed to the independent director position at this board. Bae, with no experience in government related works, would be more suitable as an outside director.

To ensure reasonable protection of shareholders, given the dilutive effect of such authorities, we have a strong preference for general authorities, which do not apply pre-emption or priority rights, to be limited to no more than 10%, unless a clear justification and strategic rationale is provided to shareholders. In addition, this authority is valid for 60 months. We believe that authorities of this nature should be put to shareholders on an annual basis, as over the year there may be significant changes in company circumstances or in market conditions. However, upon engagement with the company we are supporting this resolution.

Sir Nigel got a significant vote against at the Meggitt AGM and as a result has publicly said that he will be 'reviewing his portfolio of appointments'. Because of this statement we will support this year and make a decision next year on his time commitments post his own review. In addition, the CEO and FD are newly appointed, having joined the Company in April 2018 and June 2017, respectively so this would not be a good time to destabilise the chairman position as well.

We would usually register our concerns by withholding support on the Report and Accounts (R&As) or the vote on board discharge but given neither of these items are on the agenda, we are flagging our concerns by withholding support on individual directors. This is on the basis we hold all directors collectively responsible and do not draw distinctions between executive or non-executive directors. However, as this director has recently joined the board and has not been part of the board and decision making, we are supporting their election. C.H. Robinson Worldwide, Inc. is exposed to risks relating to climate change and the environment. The environmental risks are associated with energy and water use, and pollution. We would expect this company to publish quantitative environmental performance data but none is available in the public domain. The company submitted a response on its carbon data to the CDP in 2017 but indicated that the scope 1 emissions data is from the use of their corporate jet which is not sufficient.</p>

Report on Lobbying Payments and Policy	For (Exceptional)	A vote for this proposal is warranted as disclosure is currently limited and additional disclosure on the company's lobbying and trade association activities, including management-level oversight, would help shareholders better assess the risks and benefits associated with the company's participation in public policy debates.
	Resolution 7. Report on Fleet GHG Emissions in Relation to CAFE Standards	For (Exceptional)	A vote for this proposal is warranted, as shareholders would benefit from increased disclosure as to the company's fleet CO2 emissions management and goals, such as the company's targeted sales of electrified vehicles.
	Resolution 8. Transparent Political Spending	For (Exceptional)	A vote this for resolution is warranted, as additional disclosure of the company's political contributions, including trade association memberships and payments, and the company's oversight mechanisms regarding those contributions would allow shareholders to better assess related risks.

ITV plc AGM 10/05/2018 UNITED KINGDOM	Resolution 1. Accept Financial Statements and Statutory Reports	For	
	Resolution 2. Approve Remuneration Report	For (Exceptional)	<p>Questions are raised as to whether bonus awards at nearly the maximum for both EDs (FY2016: 40%) are appropriate when 60% of bonus targets were considerably reduced and the share price in FY2017 has reflected the difficult environment. It could be argued that the achievement of the maximum target was not simply down to management exceeding expectations. It also raises the question as to whether the Remuneration committee considered using any discretion to reduce awards although by the company's disclosures. Ultimately in a year where shareholders have lost value, management have done very well. However, the management highlighted the economic and trading headwinds when setting reduced targets for 2017 and say that they have performed well under the conditions. Although we think the remuneration committee has been generous in deciding the bonus outcomes we will not raise as an issue this year in view of appointment of new CEO. The remuneration committee also decided to allow ex CEO Adam Crozier to remove the deferral element from his bonus when he resigned. This is not something we would like to see remuneration committees do as the deferral encourages executives to think more long term. We will watch for future discretions of the remuneration committee. This is especially so as the company has not set out the 2018 LTIP performance conditions and targets as the new CEO Dame Carolyn McCall is carrying out a strategic review that will be completed in September. As we have not had major problems on remuneration in the past and the company is open to engagement we are giving them the benefit of the doubt.</p>

	Resolution 12. Reappoint KPMG LLP as Auditors	For (Exceptional)	The company has retained the same audit firm in excess of ten years. Mandatory auditor rotation is an effective mechanism for mitigating the potential risks borne by long-term auditor-client relationships, and is a safeguard against improper audits. KPMG were appointed as auditor of ITV plc in December 2003 prior to the Company becoming the parent company of the ITV Group on 2 February 2004. In 2012, The Company undertook a competitive tender and the next mandatory tender would be for the 2023 financial year and the next mandatory rotation would be for the 2024 financial year. The Committee continues to monitor audit quality to ensure a robust and effective audit. As this falls within new EU audit tendering and rotation rules we are supporting.

Nucor Corporation AGM 10/05/2018 UNITED STATES	Resolution 1.1. Elect Director Lloyd J. Austin, III	For (Exceptional)	We have concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. We would usually register our concerns by withholding support on the Report and Accounts (R&As) or the vote on board discharge but given neither of these items are on the agenda , we are flagging our concerns by withholding support on individual directors. This is on the basis we hold all directors collectively responsible and do not draw distinctions between executive or non-executive directors. However, as this director has recently joined the board and has not been part of the board and decision making, we are supporting their election Nucor Corporation is exposed to risks associated with health & safety and climate change. The company has disclosed in their 2017 Annual report the average metric tons of CO2 data emitted for every metric ton of steel produced, however we encourage them to disclose raw GHG emissions data. The latest available H&S data refers to 2015. The company does not submit their carbon data to the CDP. In lack of disclosure, we deteriorate our vote to abstain and encourage the company to disclose a comprehensive environmental and H&S data.

	Resolution 1b. Elect Director Jacqueline K. Barton	For (Exceptional)	<p>We have concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. We would usually register our concerns by withholding support on the Report and Accounts (R&As) or the vote on board discharge but given neither of these items are on the agenda , we are flagging our concerns by withholding support on individual directors. This is on the basis we hold all directors collectively responsible and do not draw distinctions between executive or non-executive directors. However, as this director has recently joined the board and has not been part of the board and decision making, we are supporting their election. Gilead Sciences is exposed to environmental risks associated . We note that the company published emissions data in their '2016 Year in Review' report but it only covers one site. The company states that additional Scope 1 and 2 emission sources will be added in the future but 2017 10-K report does not contain such information. The company does not submit carbon data to the CDP. In light of this, we deteriorate our vote to an abstain and encourage Gilead Sciences to improve its reporting next year.</p>

	Resolution 4. Require Independent Board Chairman	For (Exceptional)	Two major components at the top of every public company are the running of the board, and the executive responsibilities of running of the company's business. There should be a clear division between the head of the company, and the chair of the board. When there is no clear division of independence between the executive and board branches of a company, poor executive and/or board actions often go unchecked to the ultimate detriment of shareholders. A vote for this proposal is warranted, as it seeks the adoption of a policy that requires the board's chairman to be an independent director.

	Resolution 11. Approve Remuneration Report	For (Exceptional)	Under normal circumstances we would vote against the remuneration policy as the one-year performance period for long-term incentive awards is not consistent with standard market practice. However, in mitigation, a minimum EPS underpin applies for the three-year vesting period which, if not met, will result in forfeiture of 50% of awards. As major shareholders in the Company, we were consulted extensively on the Management Incentive Plan which was approved in 2014. Whilst we had some initial reservations, the Company provided further reasons as to why it feels that the bonus banking plan is in the best interests of both participants and shareholders. There was a new CEO, a change in strategy, the company is in a cyclical industry and TSR does not mean much to participants. Whilst the plan is based on annual performance, there is a significant amount of deferral and the banked bonus is significantly clawed back if performance is not sustained over the long term. Therefore this is real alignment with shareholders (and also streamlines executive pay arrangements) we continue to be supportive.

	Resolution 1.4. Elect Director Deborah Dunsire	For (Exceptional)	<p>We have concerns over the lack of Social, Environmental and Ethical (SEE) policy and disclosure at this company. We would usually register our concerns by withholding support on the Report and Accounts (R&As) or the vote on board discharge but given neither of these items are on the agenda , we are flagging our concerns by withholding support on individual directors. This is on the basis we hold all directors collectively responsible and do not draw distinctions between executive or non-executive directors. However, as this director has recently joined the board and has not been part of the board and decision making, we are supporting their election Alexion Pharmaceuticals, Inc. is exposed to the risk of bribery in its operations, as well as environmental risks relating to air and water pollution, water use and hazardous waste. We would expect this company to publish quantitative environmental performance data but little is available in the public domain. The company has not submitted a response on its carbon data to the CDP. With regards to anti-bribery, Alexion Pharmaceuticals has stated on their 'Our Ethical Standards' section of the company's website that they have training on non-compliance but it is not clear whether it covers bribery as well. We strongly encourage the company to disclose their performance data in these areas.</p>
