Combined Arms Warfare in the Twentieth Century Jonathan Mallory House,2001 The original version of this text was published in 1984 as a textbook on military history for officers in the U.S. Army. The revised version includes an appendix of terms and acronyms, and concepts are explained in nontechnical terms, making it more comprehensible to the general reader. Also incorporated is a description of combined arms warfare from the late-1970s to the end of the 20th century, which takes into account developments that were not obvious in 1984. The main topics are how the major armies of the world fight on the battlefield; what concepts, weapons, and organizations have developed for this purpose; and how the different armies have influenced each other in these developments. House is a former military officer and analyst for the Joint Chiefs of Staff. c. Book News Inc.

Archeology of Violence, New Edition Pierre Clastres,2010-10-08 The posthumous publication in French of Archeology of Violence in 1980 gathered together Clastres's final groundbreaking essays and the opening chapters of the book he had begun before his death in 1977. Elaborating upon the conclusions of such earlier works as Society Against the State, Clastres turns around the analysis of power among South American Indians and rehabilitates violence as an affirmative act meant to protect the integrity of their societies and presents us with a generalogy of power in a native state. For him, tribal societies are not Rousseauist in essence; to the contrary, they practice systematic violence in order to prevent the rise in their midst of this cold monster: the state. Only by waging war with other tribes can they maintain the dispersion and autonomy of each

group. In the same way, tribal chiefs are not all-powerful; to the contrary, they are rendered weak in order to remain dependent on the community. In a series of groundbreaking essays, Clastres turns around the analysis of power among South American Indians and rehabilitates violence as an affirmative act meant to protect the integrity of their societies. These savages are shrewd political minds who resist in advance any attempt at globalization.

War and Economy in the Third Reich R. J. Overy, 1995-06-29 War and Economy in the Third Reich examines the nature of the German economy in the 1930s and the Second World War. Richard Overy's essays, collected here for the first time with a substantial new introduction, explore the tension between Hitler's vision of an armed economy and the reality of German economic and social life. Often thought-provoking, always informed, War and Economy opens a window on an essential aspect of Hitler's Germany.

The Veiled Kingdom Carmen Bin Ladin, 2019-02-14 On September 11th 2001, Carmen Bin Ladin heard the news on the radio that the Twin Towers had been struck. She instinctively knew that her brother-in-law's name would be linked to these horrifying acts of terrorism, and her heart went out to the victims in America. She also knew that her life and the lives of her family would never be the same again. In 1974 Carmen, half Swiss and half Persian, married Yeslam Bin Ladin and found herself inside the complex and vast clan of Bin Laden, part of a society that at that point she neither knew nor understood. Carmen Bin Ladin's story takes us inside one of the most powerful, secretive and repressive kingdoms in the world.

Late Merovingian France Paul Fouracre, Richard A. Gerberding, 2013-01-01 This collection of documents in translation brings together the seminal sources for the late Merovingian Frankish kingdom. It interprets the chronicles and saint's lives rigorously to reveal new insights into the nature and significance of sanctity, power and power relationships. The book makes available a range of 7th- and early 8th-century texts, five of which have never before been translated into English. It opens with a broad-ranging explanation of the historical background to the translated texts and then each source is accompanied by a full commentary and an introductory essay exploring its authorship, language and subject matter. The sources are rich in the detail of Merovingian political life. Their subjects are the powerful in society and they reveal the successful interplay between power and sanctity, a process which came to underpin much of European culture throughout the early Middle Ages.

From Reich to State Michael Rowe, 2003-07-31 Napoleon's contribution to Germany's development was immense. Under his hegemony, the millennium-old Holy Roman Empire dissolved, paving the way for a new order. Nowhere was the

transformation more profound than in the Rhineland. Based upon an extensive range of German and French archival sources, this book locates the Napoleonic episode in this region within a broader chronological framework, encompassing the Old Regime and Restoration. It analyses not only politics, but also culture, identity, religion, society, institutions and economics. It reassesses in turn the legacy bequeathed by the Old Regime, the struggle between Revolution and Counter-Revolution in the 1790s, Napoleon's attempts to integrate the German-speaking Rhineland into the French Empire, the transition to Prussian rule, and the subsequent struggles that ultimately helped determine whether Germany would follow its own Sonderweg or the path of its western neighbours.

Russians Versus Fischer Dmitry Plisetsky, Sergey Voronkov, 2005 This magnificent volume contains the extraordinary story of the prolonged battle between Bobby Fischer, the lone American genius who is perhaps the most famous chess player of all time, and the long-standing and all-dominating Soviet chess machine. For the first time readers will be able to view virtually all the secret documents on the Fischer problem, many of which have never previously been published. These include papers from the archives of the KGB, the Communist Party Central Committee, the USSR Sports Committee, and the

Chess Federation. Together with this, there are reports and analysis of Fischer's personality and play, written at the demand of the Soviet authorities by the country's leading Grandmasters, legends such as Mikhail Tal, Tigran Petrosian, Vassily Smyslov, Paul Keres, Victor Korchnoi, and Efim Geller. Also contained in *Russians Versus Fischer* are annotations and the stories on all of the 158 chess encounters between Fischer and his Soviet adversaries, and a large number of rare photographs and drawings. This book is a significantly enlarged and updated version of the one first published in Russia in 1994.

Poetics Project Tony Oursler, Mike Kelley, 1999-10-01 In the late 1970s, while students at Cal Arts, Tony Oursler and Mike Kelley formed a band called first, polka Dot and the Spots, and finally, The Poetics. This little-known musical aggregation was proceeded perhaps only by The Weirdos (an early LA punk band with members from Cal Arts) as one of the first New Wave Art Rock bands of that period. Inspired by Laurie Anderson's class at Cal Arts, Kelley and Oursler's band was experimenting with ways to integrate visual arts with music. This limited edition package documents the brief life of The Poetics.

Europe Under Napoleon Michael Broers, 2014-11-18 Napoleon Bonaparte dominated the public life of Europe like no other individual before him. Not surprisingly, the story of the man himself has usually swamped the stories of his subjects. This book looks at the history of the Napoleonic Empire from an entirely new perspective – that of the ruled rather than the ruler. Michael Broers concentrates on the experience of the people of Europe – particularly the vast majority of Napoleon's subjects who were neither French nor willing participants in the great events of the period – during the dynamic but short-lived career of Napoleon, when half of the European continent fell under his rule.

Plant Life of the Pacific World Elmer D. Merrill, 1995-10-15 This Asian ecology book offers an overview of the plant life of the vast Pacific region. Among the topics covered are the tropical forest and jungles, the grasslands, the primary and secondary forest, and the plants of the seashores. Weeds and cultivated plants are also discussed with overviews of plant distribution and notes on specific islands and island groups. *Plant Life of the Pacific World* will fill a great need as an important reference source not only for the ethnobotanist but for the professional botanist and the student interested in the flora of the Pacific basin. The information it contains—adequately detailed and clearly presented—should also open the eyes

of both visitors and inhabitants to the natural riches of the Pacific region.

The French Impressionists (1860-1900) Camille Mauclair,2019-11-20 This comprehensive exploration delves into the world of French Impressionism, a revolutionary art movement that emerged between 1860 and 1900. Camille Mauclair offers detailed insights into the lives and works of the artists who pioneered this style, capturing the essence of a period that transformed the art world. With a focus on the techniques, colors, and subjects that defined Impressionism, this book is a must-read for art enthusiasts and historians alike.

Who Will Write Our History? Samuel D. Kassow,2018-08-01 In 1940, the historian Emanuel Ringelblum established a clandestine organization, code named Oyneg Shabes, in Nazi-occupied Warsaw to study and document all facets of Jewish life in wartime Poland and to compile an archive that would preserve this history for posterity. As the Final Solution unfolded, although decimated by murders and deportations, the group persevered in its work until the spring of 1943. Of its more than 60 members, only three survived. Ringelblum and his family perished in March 1944. But before he died, he managed to hide thousands of documents in milk cans and tin boxes. Searchers found two of these buried caches in 1946 and 1950. *Who Will Write Our History* tells the gripping story of Ringelblum and his determination to use historical scholarship and the collection of documents to resist Nazi oppression.

What Became of the White Savage François Garde,2015-05-05 Some time in the 1840s, Narcisse, a young French sailor is abandoned on the coast of Australia and given up for dead by his shipmates. Seventeen years later he is found living among aboriginal peoples, having apparently forgotten everything of his original identity, including his native French language. Octave de Vallombrun, a well-meaning geographer, takes him under his wing and sets out to bring Narcisse, now known as the white savage back to civilisation and to find out what happened during those seventeen years.Observing Narcisse's struggle to adjust to the ways of the white man, Octave too begins to question his assumptions about what it means to be civilised, and to see in a new light the man known as the white savage.
