Fallen Tigers Daniel Jackson, 2021-05-11 Mere months before the attack on Pearl Harbor, President Franklin D. Roosevelt sent a volunteer group of American airmen to the Far East, convinced that supporting Chinese resistance against the continuing Japanese invasion would be crucial to an eventual Allied victory in World War II. Within two weeks of that fateful Sunday in December 1941, the American Volunteer Group—soon to become known as the legendary Flying Tigers—went into action. For three and a half years, the volunteers and the Army Air Force airmen who followed them fought in dangerous aerial duels over East Asia. Audaciously led by master tactician Claire Lee Chennault, daring pilots such as David Lee Tex Hill and George B. Mac McMillan led their men in desperate combat against enemy air forces and armies despite being outnumbered and outgunned. Aviators who fell in combat and survived the crash or bailout faced the terrifying reality of being lost and injured in unfamiliar territory. Historian Daniel Jackson, himself a combat-tested pilot, recounts the stories of downed aviators who attempted to evade capture by the Japanese in their bid to return to Allied territory. He reveals the heroism of these airmen was equaled, and often exceeded, by the Chinese soldiers and civilians who risked their lives to return them safely to American bases. Based on thorough archival research and filled with compelling personal narratives from memoirs, wartime diaries, and dozens of interviews with veterans, this vital work offers an important new perspective on the Flying Tigers and the history of World War II in China.

Moon Tiger Penelope Lively, 2007-12-01 “A powerful, moving and beautifully wrought novel about the ways in which lives are molded by personal memory and the collective past.” —The Boston Globe Winner of the Man Booker Prize Elderly, uncompromising Claudia Hampton lies in a London hospital bed with memories of life fluttering through her fading consciousness. An author of popular history, Claudia proclaims she’s carrying out her last project: a history of the world. This history turns out to be a mosaic of her life, her own story tangled with those of her brother, her lover and father of her daughter, and the center of her life, Tom, her one great love found and lost in war-torn Egypt. Always the independent woman, often with contentious relationships, Claudia’s personal history is complex and fascinating. As people visit Claudia, they shake and twist the mosaic, changing speed, movement, and voice, to reveal themselves and Claudia’s impact on their world. “Emotionally, Moon Tiger is kaleidoscopic, deeply satisfying. The all too brief encounter between Claudia and Tom will surely rate as one of the most memorable of contemporary fictional affairs. This is one of the best novels I have read for

years.” —The London Sunday Telegraph “It pulls us in; it engages us and saddens us. It is also unexpectedly funny . . . It leaves its traces in the air long after you’ve put it away.” —The New York Times Book Review “One of the very best Booker winners . . . it asks hard questions about memory and history and personal legacy; it’s stylistically demanding and inventive . . . a wonderful book.” —The Guardian

Whirlwind Barrett Tillman, 2010-03-02 WHIRLWIND is the first book to tell the complete, awe-inspiring story of the Allied air war against Japan—the most important strategic bombing campaign in history. From the audacious Doolittle raid in 1942 to the atomic bombing of Hiroshima and Nagasaki in 1945, award-winning historian Barrett Tillman recounts the saga from the perspectives of American and British aircrews who flew unprecedented missions over thousands of miles of ocean, as well as of the generals and admirals who commanded them. Whether describing the experiences of bomber crews based in China or the Marianas, fighter pilots on Iwo Jima, or carrier aviators at sea, Tillman provides vivid details of the lives of the fliers and their support personnel. Whirlwind takes readers into the cockpits and gun turrets of the mighty B-29 Superfortress, the largest bomber built up to that time. Tillman dramatically re-creates the sweep of wartime emotions that crews endured on fifteen-hour missions, grappling with the extreme tedium of cramped spaces and with adrenaline spikes in

flak-studded skies, knowing that a bailout would put them at the mercy of a merciless enemy or an unforgiving sea. A major character is the controversial and brilliant General Curtis LeMay, who rewrote strategic bombing tactics. His command's fire-bombing missions incinerated fully half of Tokyo and many other cities, crippling Japan's industry while still failing to force surrender. Whirlwind examines the immense logistics and construction efforts necessary to support Superfortresses in Asia and the Mariana Islands, as well as the tireless efforts of engineers to build huge air bases from scratch. It also describes the unheralded missions that American bomber crews flew from the Aleutian Islands to Japan's northernmost Kuril Islands. Never has the Japanese side of the story been so thoroughly examined. If Washington, D.C., represented a "second front" in Army-Navy rivalry, the situation in Tokyo approached a full-contact sport. Tillman's description of Japan's willfully inadequate approach to civil defense is eye-opening. Similarly, he examines the mind-set in Tokyo's war cabinet, which ignored the atomic destruction of Hiroshima and Nagasaki, requiring the emperor's personal intervention to avert a ghastly Allied invasion. Tillman shows how, despite the Allies' ultimate success, mistakes and shortsighted policies made victory more costly in lives and effort. He faults the lack of a unified command for allowing the Army Air Forces and the Navy to pursue parochial goals at the expense of the larger mission, and he questions the premature commitment of the enormously sophisticated B-29 to the most primitive theater in India and China. Whirlwind is one of the last histories of World War II written with the contribution of men who fought in it. With unexcelled macro- and microperspectives, Whirlwind is destined to become a standard reference on the war, on multiservice operations, and on the human capacity for individual heroism and national folly.

Tiger-lilies Sidney Lanier, 1867 Tiger-Lilies is actually a somewhat autobiographical book. In it, Lanier analyzes the relationship between a Northerner and a Southerner throughout the Civil War. As a Southerner who had fought for the Confederate army, Lanier had experienced the war firsthand, both on the battlefield and as a prisoner of war. These experiences are recognizable in the battle scenes especially, which are considered some of the most realistic representations of Civil War combat in literature. Ultimately, Tiger-Lilies can be interpreted as an anti-war novel and one of Lanier's less successful endeavors in the course of his career.--The History Engine

Out of the Crazywoods Cheryl Savageau, 2020-05 Out of the Crazywoods is the riveting and insightful story of Abenaki poet Cheryl Savageau's late-life diagnosis of bipolar disorder. Without sensationalizing, she takes the reader inside the experience of a rapid-cycling variant of the disorder, providing a lens through which to understand it and a road map for navigating the illness. The structure of her story--impressionistic, fragmented--is an embodiment of the bipolar experience and a way of perceiving the world. Out of the Crazywoods takes the reader into the euphoria of mania as well as its ugly, agitated rage and into the lying down of desire that is depression. Savageau articulates the joy of being consort to a god and the terror of being chased by witchcraft, the sound of voices that are always chattering in your head, the smell of wet ashes that invades your home, the perception that people are moving in slow motion and death lurks at every turnpike, and the feeling of being loved by the universe and despised by everyone you've ever known. Central to the journey out of the Crazywoods is the sensitive child who becomes a poet and writer who finds clarity in her art and a reason to heal in her

grandchildren. Her journey reveals the stigma and the social, personal, and economic consequences of the illness but reminds us that the disease is not the person. Grounded in Abenaki culture, Savageau questions cultural definitions of madness and charts a path to recovery through a combination of medications, psychotherapy, and ceremony.

Slaying the Tiger Shane Ryan, 2015-06-09 **NEW YORK TIMES BESTSELLER** • In *Slaying the Tiger*, one of today's boldest young sportswriters spends a season inside the ropes alongside the rising stars who are transforming the game of golf. For more than a decade, golf was dominated by one galvanizing figure: Eldrick "Tiger" Woods. But as his star has fallen, a new, ambitious generation has stepped up to claim the crown. Once the domain of veterans, golf saw a youth revolution in 2014. In *Slaying the Tiger*, Shane Ryan introduces us to the volatile, colorful crop of heirs apparent who are storming the barricades of this traditionally old-fashioned sport. As the golf writer for Bill Simmons's *Grantland*, Shane Ryan is the perfect herald for the sport's new age. In *Slaying the Tiger*, he embeds himself for a season on the PGA Tour, where he finds the game far removed from the genteel rhythms of yesteryear. Instead, he discovers a group of mercurial talents driven to greatness by their fear of failure and their relentless perfectionism. From Augusta to Scotland, with an irreverent and energetic voice, Ryan documents every transcendent moment, every press tent tirade, and every controversy that made the 2014 Tour one of the most exciting and unpredictable in recent memory. Here are indelibly drawn profiles of the game's young guns: Rory McIlroy, the Northern Irish ace who stepped forward as the game's next superstar; Patrick Reed, a brash, boastful competitor with a warrior's mentality; Dustin Johnson, the brilliant natural talent whose private habits sabotage his potential; and Jason Day, a resilient Aussie whose hardscrabble beginnings make him the Tour's ultimate longshot. Here also is the bumptious Bubba Watson, a devout Christian known for his unsportsmanlike outbursts on the golf course; Keegan Bradley, a flinty New Englander who plays with a colossal chip on his shoulder; twenty-one-year-old Jordan Spieth, a preternaturally mature Texan carrying the hopes of the golf establishment; and Rickie Fowler, the humble California kid striving to make his golf speak louder than his bright orange clothes. Bound by their talent, each one hungrier than the last,

these players will vie over the coming decade for the right to be called the next king of the game. Golf may be slow to change, but in 2014, the wheels were turning at a feverish pace. Slaying the Tiger offers a dynamic snapshot of a rapidly evolving sport. Praise for Slaying the Tiger “This book is going to be controversial. There is no question about it. . . . It is the most unvarnished view of the tour—the biggest tour in the world—that I’ve ever read. This book is certain to be as important to this era as [John] Feinstein’s [A Good Walk Spoiled] was two decades ago. . . . In this continuation of his story, Volume Two follows Wittmann and his unit into Normandy to defend against the Allied invasion and provides maps, official documents, newspaper clippings, and orders of battle. A week after D-Day, Wittmann achieved his greatest success. On June 13, 1944, near Villers Bocage, the panzer ace and his crew attacked a British armored unit, single-handedly destroying more than a dozen tanks and preventing an enemy breakthrough. The exploit made Wittmann a national hero in Germany and a legend in the annals of war. He was killed two months later while attempting to repulse an Allied assault, but the book continues beyond his death until the Leibstandarte's surrender.

Educating Tigers Wendy Sand Eckel, 2001-06 It is a parent's deepest heartache: watching a child struggle in life, desperate to help. When Katherine Cunningham's daughter Tricia (Tiger) is diagnosed with dyslexia, roadblocks appear at every turn, and the entire family is forced to create its own solutions.

Parentology Dalton Conley, 2014-03-18 An award-winning scientist offers his unorthodox approach to childrearing: "Parentology is brilliant, jaw-droppingly funny, and full of wisdom...bound to change your thinking about parenting and its conventions" (Amy Chua, author of *Battle Hymn of the Tiger Mother*). If you're like many parents, you might ask family and friends for advice when faced with important choices about how to raise your kids. You might turn to parenting books or simply rely on timeworn religious or cultural traditions. But when Dalton Conley, a dual-doctorate scientist and full-blown nerd, needed childrearing advice, he turned to scientific research to make the big decisions. In *Parentology*, Conley hilariously reports the results of those experiments, from bribing his kids to do math (since studies show conditional cash transfers improved educational and health outcomes for kids) to teaching them impulse control by giving them weird names (because evidence shows kids with unique names learn not to react when their peers tease them) to getting a vasectomy (because fewer kids in a family mean smarter kids). Conley encourages parents to draw on the latest data to rear children, if only because that level of engagement with kids will produce solid and happy ones. Ultimately these experiments are very loving, and the outcomes are redemptive—even when Conley's sassy kids show him the limits of his profession. *Parentology* teaches you everything you need to know about the latest literature on parenting—with lessons that go down easy. You'll be laughing and learning at the same time.
