Bibliography: Recent Publications Relating to Canada's Urban Past

Bibliographie: Publications recentes en histoire du Canada urbain

Elizabeth Bloomfield

Preface/Préface

This is the fourth annual bibliography to appear in the October issue of the *Urban History Review*. It was originally organized to follow the format of *Canada's Urban Past: A Bibliography to 1980 and Guide to Canadian Urban Studies* by Alan F.J. Artibise and Gilbert A. Stelter (Vancouver: University of British Columbia Press, 1981).

Canadian periodicals, bibliographies and indexes are searched systematically for items of potential interest to Canadian urban history. However, we still need help from our readers, particularly with theses, but also with reports and discussion papers, local history items and articles and books on Canadian urban subjects which are published outside Canada. References for inclusion in the 1985 bibliography may be submitted to the Bibliography Editor until May 31, 1985.

We thank the following individuals for contributing references to the 1984 bibliography: Alan F.J. Artibise, George Bervin, Gerald Bloomfield, J. William G. Brennan, Susan Buggey, Fred Dahms, Dorothy Doyle, Geoffrey Egan, Terence Fay, Wendy A. Fraser, Annick Germain, John Gilpin, Fernand Harvey, R. Scott James, Stan Johannesen, Dana Johnson, Christopher Sharpe, Gilbert A. Stelter and Mary Vance. We also appreciate the help of others with verifying thesis references: Jean Gibson (University of Toronto Library), Patricia Johnston (University of New Brunswick

Dans le numéro d'octobre, la *Revue d'histoire urbaine* présente sa 4e bibliographie annuelle, organisée à l'origine selon le modèle utilisé par Alan F.J. Artibise et Gilbert A. Stelter dans *Canada's Urban Past: A Bibliography to 1980 and Guide to Canadian Urban Studies* (Vancouver: University of British Columbia Press, 1981).

Les périodiques canadiens, les bibliographies et les index sont dépouillés systématiquement à la recherche de publications présentant un intérêt pour l'histoire urbaine canadienne. Cependant, nous souhaitons que nos lecteurs continuent de nous transmettre de précieuses informations, notamment sur les mémoires et les thèses, mais aussi sur les documents de travail, les rapports, les débats, les textes d'histoire locale et les articles ou les livres traitant de questions urbaines canadiennes publiés à l'extérieur du Canada. Toutes les références pour la bibliographie de 1985 doivent parvenir à la responsable avant le 31 mai 1985.

Nous tenons à remercier les personnes suivantes pour leur contribution à la présente bibliographie: Alan F.J. Artibise, George Bervin, Gerald Bloomfield, J. William G. Brennan, Susan Buggey, Fred Dahms, Dorothy Doyle, Geoffrey Egan, Terence Fay, Wendy A. Fraser, Annick Germain, John Gilpin, Fernand Harvey, R. Scott James, Stan Johannesen, Dana Johnson, Christopher Sharpe, Gilbert A. Stelter et Mary Vance. Nous avons aussi apprécié la collaboration de

Library), Anne Pottier (McMaster University Library), Louise Quesnel-Ouellet (Université Laval), D.A. Redmond (Queen's University Library) and Helena Vesely (National Library of Canada).

For the first time, computer methods have been used in compiling the 1984 bibliography. As well as saving some tedious labour in filing, sorting and cross-referencing the items, the change also permits references to be stored permanently in the computer record and may be retrieved for other purposes. We acknowledge the help of Becky Morrison and Peter McCaskell in setting up and testing procedures.

Individual or institutional subscribers to the *Urban History Review* may be interested in obtaining a machine-readable version of the bibliography. It is available in two formats: the Ashton-Tate *dbase II* or the Micro Pro *Wordstar*. The first has each reference as originally entered into the computer record with all keywords, which permits sorting for new purposes. *Wordstar* is machine-readable, but in the same layout as printed here. For details of costs and technicalities, please write the Bibliography Editor.

Organization on the Bibliography

The 1984 Bibliography has General and Regional divisions, each subdivided into sections which differ marginally from those of past bibliographies. In each province, census metropolitan areas and census agglomerations with core cities of at least 50,000 people are all distinguished. Small urban centres are grouped under the heading "Other Urban Centres," with references ordered alphabetically by name of place.

Jean Gibson (University of Toronto Library), Patricia Johnston (University of New-Brunswick Library), Anne Pottier (McMaster University Library), Louise Quesnel-Ouellet (Université Laval), D.A. Redmond (Queen's University Library) et Helena Vesely (National Library of Canada) pour la vérification des références au sujet des mémoires et des thèses.

Pour la première fois, la bibliographie de 1984 a été compilée grâce à l'informatique. Ce changement permet non seulement de stocker les références de façon permanente dans l'ordinateur, mais aussi de les réutiliser à volonté, tout en facilitant le fastidieux travail de classement. Nous tenons à souligner l'apport de Becky Morrison et de Peter McCaskell qui ont établi et vérifié le programme.

Toute personne (ou institution) abonnée à la *Revue d'histoire urbaine* peut obtenir la version informatisée de la bibliographie présentée dans deux formats: le Ashton-Tate *dbase II* ou le Micro Pro *Wordstar*. Le premier donne chaque référence telle qu'entrée originellement dans la banque de données, avec tous les mots-clés qui permettent une utilisation diversifiée. *Wordstar* est un instrument informatisé dont la forme est similaire à celle de la présente bibliographie. Pour des détails supplémentaires sur les coûts et les aspects techniques, veuillez écrire à la responsable de la bibliographie.

Organisation de la bibliographie

La bibliographie de 1984 se scinde en deux grandes divisions: Aspects généraux et Régions, elles-mêmes subdivisées en sections similaires à celles des précédentes bibliographies. Dans chaque province, les zones métropolitaines de recensement et les villes principales qui comptent au moins 50 000 habitants ont toutes été retenues. Les plus petites agglomérations urbaines sont regroupées sous la rubrique «autres centres urbains» dans l'ordre alphabétique des noms de lieux.
