PSIA CURRICULUM

FALL 2022

SPRING 2023

At the forefront of global affairs education, the **Paris School of International Affairs** (PSIA) is the only school of international affairs in France, and amongst the top three in the world. We are proud of the difference that our School has made over its first decade of existence in training students to understand, navigate, engage, and shape the complexities of our ever-evolving world. During their time with us, students are instilled with the knowledge, skills and experience to be ready to be agents of change in the transition to a more secure, just, and sustainable society. When they leave PSIA they are ready to become leaders in international affairs in the public and private sectors.

With English as the language of study, our innovative curriculum seeks to bridge the gap between theory and practice by interlacing conceptual foundations and current scholarship with the most up-to-date operational training and best practices. World-renowned professors and leading practitioners teach over 400 specialist courses annually in the most salient fields of international affairs. Our specialised Master's programs and wide range of thematic and regional concentrations allow students to personalise their academic curriculum and chart their very own career paths.

This brochure consolidates the complete PSIA course offer for the 2022/23 academic year, taking account of the changing landscape of international affairs.

As we emerge from the covid pandemic, during which our education system and our academic communities have shown incredible resilience, I want to express my deepest thanks and admiration to the rigorous commitment and engagement of our faculty, staff and students, which remain the pillars of PSIA's success. We are grateful to all of them for their remarkable efforts.

Shaping global actors for more secure, just and sustainable societies

At Sciences Po's **Paris School of International Affairs** (PSIA), our goal is to attract the best and brightest students from across the planet and to instil these future leaders with the knowledge, skills and experience to understand, navigate, engage and shape the complexities of our ever-evolving world.

Since 2010, PSIA has continued Sciences Po's century-long tradition of providing world-class graduate education and professional training in the most salient fields of international affairs.

Our central location in Paris, our position at the heart of Europe and with English as the main language of study help us to attract a diverse community of students representing more than 120 nationalities, who join us with a variety of academic backgrounds.

At the forefront of global affairs education

PSIA is a world leader in international affairs and contributes significantly to Sciences Po's continuous placement amongst the top 3 institutions globally for "politics and international studies" since 2019 in the QS ranking.

World-renowned professors and leading practitioners teach specialist courses which balance conceptual foundations and current scholarship with the most up-to-date operational training and best practices.

PSIA students have regular opportunities to challenge and engage with world leaders and scholars through our extensive series of public events, including our annual flagship Youth & Leaders Summit.

By the end of their two years with us, PSIA graduates are well-positioned to **pursue high-profile careers**. Our graduates work across the globe and in all sectors. They become political advisors, public servants, analysts, researchers diplomats, consultants and stakeholders in international affairs. At PSIA, we prepare our students to become agents of change in **the transition for more secure, just and sustainable societies**.

- **7 MASTER'S PROGRAMS**
- **14 DUAL DEGREES**
- **18 CONCENTRATIONS**

Customize your professional profile

PSIA offers **a choice of 7 master's programs** in the most salient fields of international affairs:

Environmental Policy • **Human Rights and Humanitarian Action** • **International Development** • **International Economic Policy** • **International Energy** • **International Governance and Diplomacy** • **International Security**

Students can pursue **a two-year Master's** in any of these fields in one of three ways:

- Over two years at PSIA;
- As part of a joint program in Journalism and International Affairs with the School of Journalism at Sciences Po;
- As part of a dual degree program with one of PSIA's university partners:

International: Bocconi University • Columbia University • Freie Universität • Georgetown Law • King's College London • London School of Economics • MGIMO • Peking University • University of Saint-Gallen • Stockholm School of Economics

National: AgroParisTech • ISAE-Supaero • Sorbonne Université • Saint-Cyr Coëtquidan

PSIA also offers **a one-year Master's** in Advanced Global Studies, covering the same seven fields, for candidates with a degree and at least five years of professional work experience.

PSIA students select **one or two concentrations**, depending on their program, which enable them to chart their very own career path:

Regional: Africa • Asia • Europe • Middle East • The Americas

Thematic: Agriculture • Diplomacy • Environment and Sustainability • Gender Studies • Global Economy • Global Health • Global Risks • Human Rights • Intelligence • Media and Writing • Methods • Migrations • Project Management
