EXPLICATION DES SYMBOLES ET ABRÉVIATIONS

UTILISÉS DANS LA PRÉSENTE BIBLIOGRAPHIE SUR LES DÉSASTRES NATURELS

- AD Armed Services Technical Information Agency (ASTIA)
(ce sigle désigne maintenant la Defense Documentation Center,
Washington, D.C., États-Unis)
- CISTI Institut canadien de l'information scientifique et technique
- COM United States Department of Commerce
- DSIS Services d'information scientifique pour la défense (Canada)

Le NUMÉRO DE CLASSEMENT DSIS est le numéro d'ordre assigné à chaque document. Si on a besoin d'un document des DSIS, il faut utiliser ce numéro qui est propre à ces derniers et qui, par conséquent, ne peut servir à retracer un document d'un autre organisme. Le numéro de classement DSIS prend la forme YY-NNNNN: YY indique l'année où le document a été classé par les DSIS, et NNNNN représente le numéro d'ordre dans l'année.

EMO, NEPE
et EPC

Organisation des mesures d'urgence; Centre national de planification des mesures d'urgence et Planification d'urgence Canada

Les documents de l'Organisation des mesures d'urgence sont classés de la même façon que ceux des DSIS, mais on utilise une barre oblique au lieu d'un trait d'union, et la formule est YY/NNN: YY indique l'année où le document a été classé et NNN représente le numéro d'ordre dans l'année. En 1974, l'Organisation des mesures d'urgence allait devenir le Centre national de planification des mesures d'urgence du ministère de la Défense nationale et le sigle devenait, devant la barre oblique, NEPE: en 1975, il y eut un autre changement: maintenant l'organisme se nomme Planification d'urgence Canada et on met les initiales EPC devant la barre oblique, mais sous ces trois noms l'organisme a toujours utilisé les numéros de classement du Centre d'information scientifique et technique de Planification d'urgence Canada. Vous pouvez obtenir certains documents en utilisant ces numéros de classement.

- ISBN Numéro normalisé international de livre
- N National Aeronautics and Space Administration, États-Unis
- PB Publications Board, United States Department of Commerce
- TT Traduction technique

AVALANCHES

BOOKS

AGRICULTURE, DEPARTMENT OF (US). Snow Avalanches; A Handbook of Forecasting and Control Measures. United States Department of Agriculture, Forest Service, Washington, D.C., U.S.A. Handbook No. 194. Revised, 84 pages, 1968.

Contains chapters on physics of the Snow Cover, Avalanche Characteristics, Terrain, Avalanche Hazard Forecasting, Standard Snow Observations and Terminology, Snow Stabilization, Safety, Avalanche Defenses, Avalanche Rescue, Area Safety Planning.

HOPPER, James R. Slope Stability Investigation of Residual Clay Soils of Southeastern Ohio. Final Report Ohio State University, Engineering Experiment Station, EES-313-2, 105 pages, July 1969. (Ref. No. PB-188 191)

MOSKALEV, Yu. D. Avalanche Mechanics. Cold Regions Research and Engineering Laboratory, Hanover, N.H., U.S.A., 186 pages, 1970.
Translation of monograph. Voznikovenie i Dvizhenie LAVIN, Leningrad, USSR, 152 pages, 1966. (Ref. No. AD-715 049)

ARTICLES

FRUTIGER, Hans. "Behaviour of Avalanches in Areas Controlled by Supporting Structures". International Symposium on Scientific Aspects of Snow and Ice Avalanches, Reports and Discussions. Sponsored by the International Union of Geodesy and Geophysics and the International Association of Scientific, Braamstraat 61, Gentbrugge, Belgium, pp. 243-250, 1966.

GONGADZE, D.N. "Some Theoretical Problems in the Formation and Movement of Snow Avalanches". Cold Regions Research and Engineering Laboratory, Hanover, N.H., U.S.A., 26 pages, 1971. Translation of Akademiya Nauk Gruzinskoi, SSR, Tiflis, Institut Geofzike, Trudy, 13:161-174, 1954.

ISAKOV, L.M. and B.A. ANFILOFEV. "Avalanche Hazard on the Ust-Kamenogorsk-Zyryanovsk Railway". Cold Regions Research and Engineering Laboratory, Hanover, N.H., U.S.A., 14 pages, 1971. AVALANCHES (continued) ... ARTICLES

PAZANOV, V.P. Nature of Impact of Avalanche Snow on an Obstacle. Cold Regions Research and Engineering Laboratory, Hanover, N.H., U.S.A., 7 pages, 1966. (Translation of Akademiya Nauk SSR. Izvestiya. Seriya Geograficheskays i Geofizicheskaya, 7:86-88, 1943.) (Ref. No. AD-715 045)

SCHAERER, P.A. "Planning Avalanche Defence for the Trans-Canada Highway at Rogers Pass, B.C." Engineering Journal, 45:31-38, March 1962.

See more detailed version, "Planning Avalanche Defence for the Trans-Canada Highway at Rogers Pass, B.C." by P.A. SCHAERER, published by the Canadian National Research Council, Division of Building Research Ottawa, Ontario, Canada, November 1962.

Describes the avalanche sites and assesses the degree of hazard at each site; presents an avalanche classification; and discusses the possible adjustments to avalanches. An avalanche defence plan for the area is presented.

This condensed summary of conclusions reached by the Committee on the Alaska Earthquake suggests measures that can be taken to minimize loss of life and property in future earthquakes. It is based on a careful review of events during and following the disaster that befell south central Alaska in March 1964. Emphasis is on lessons to be learned from the Alaskan Experience that can be applied to any region where strong earthquakes may be expected.

The Great Alaska Earthquake of 1964, Human Ecology, edited by the Committee on the Alaska Earthquake of the National Research Council, Washington, D.C., U.S.A., National Academy of Sciences, pp. 403-424, 1970.

Detailed chronology of organizational activities from impact March 27, 1964 is organized in terms of various community activities such as preservation of life, social control and so on.

YUTZY, Daniel, William ANDERSON and Russell R. DYNES. Community Priorities in the Anchorage Alaska Earthquake, 1964. Disaster Research Center Monograph Series No. 4, Disaster Research Center, Ohio State University, 1969.

This monograph focuses on Anchorage during the emergency period following the 1964 earthquake. A set of priorities of community functions during an emergency were hypothesized and tested in field work at the disaster site. Detailed accounts of emergency activities and chronologies of critical events are included for major areas of community action.

NATURAL DISASTER WARNING SURVEY GROUP A Proposed Nationwide Natural Disaster Warning System. Natural Disaster Warning Survey Group, U.S. Department of Commerce, October 1965.

OFFICE OF EMERGENCY PREPAREDNESS Disaster Preparedness. Office of Emergency Preparedness, Executive Office of the President, a Report to the Congress of the United States, January 1972. (Ref. Nos. Vol. 1 - EMO 72/170; Vol. 2 - EMO 72/171; Vol. 3 - EMO 72/172)

QUARANTELLI, E.L. Organization Under Stress. Symposium on Emergency Operations, Santa Monica, California, U.S.A., System Development Corporation, pp. 3-19, 1966. (Ref. Nos. DSIS 66-13801, EMO 66/351)

Four different types of collective or group efforts to cope with community emergencies, especially natural disasters, are described. Quarantelli suggests how the presence or absence of each of these might indicate the degree of crisis in a community.

QUARANTELLI, E.L. and Russell R. DYNES Operational Problems of Organization in Disasters. Emergency Operations Symposium, Santa Monica, California, U.S.A., System Development Corporation, pp. 151-175, 1967. Ref. Nos. DSIS 68-12805, EMO 68/317)

Some consequences of a disaster event for established organizations - those having pre-disaster existence and performing regular tasks - and expanding organizations are delineated. Included are the problems of uncertainty, urgency, and lost autonomy. Problems of task assignment, communication, authority and decision making are reviewed.

GENERAL NATURAL HAZARD RESEARCH (continued) ... PAPERS/REPORTS

QUARANTELLI, E.L. and Russell R. DYNES When Disaster Strikes. Psychology Today 5, No. 9, pp.66-70, February 1972.

In disaster, people neither panic nor flee; victims respond with self-reliance and mutual help. The authors discuss various inaccuracies and myths about disaster response in affected communities.

- SIMPSON, R.R., Project HAILSTOP Aerospace Engineering Test Establishment
Uplands, Ontario, Canada, pp. 54, March 1973. (Ref. No. DSIS 73-0336)
Project HAILSTOP was undertaken by the Aerospace Engineering Test
Establishment under the authority of National Defence Headquarters
(NDHQ) project directive 72/33. The objective of this project was
to equip a T-33 aircraft as a seeding and observation platform with
which to provide flying support to Alberta Hail Studies (ALHAS) in
their summer field program researching the control of hailstorms.

- A general overview of the economic and social effects of snow and ice, related to snowfall patterns. Snow as a water supply source and the recreation value of snow are briefly discussed. The effects of snow and ice to nine areas of human activities are presented. Maps of snowfall variability and disruption due to snowfall show that the greatest disruption occurs in the areas of greatest snowfall variability, rather than areas of greatest annual snowfall.
- TRUEMAN, R.W. Snow. MacMillan, Toronto, Ontario, Canada, 1973. (Ref. No. ISBN 0-7705-0983-5)

In recent years, the terms, once-in-a-century and 100-yrs., have been attached to various rare and catastrophic events; recent examples are the rains associated with Hurricane AGNES and the 1972 Rapid City storm. The background for the use of these terms is examined from the viewpoints of both the professional and nonprofessional user.
